## Y. W. C. A. Industrial Courses in Buenos Aires

An American Y. W. C. A. secretary teaching South American girls who have been forced into industry during the war to become laundresses.

### THE MONROE DOCTRINE

The Monroe doctrine—the principle under which the United States neither joins in European entanglements nor permits encroachments of any foreign power upon the American continent—has been for a century past an integral part of the United States policy. It was instilled into us all at an early age, side by side with the doctrines and catechism of our especial religious sect. The nation at large has a faint idea that it could get along without any one religious body, but it has a firm conviction that the Monroe doctrine is the sine qua non of America.

Now the plan is for America to take her part in a wider world and become a member of the League of Nations. She is willing to do this and to help insure peace upon earth if that is a possibility. But she does not want to emulate the dog of the fable and drop a known and sure good in reaching out for a problematical greater and indefinite one.

The League of Nations for America and the world; so far, so good. But first and foremost, a renewed recognition of the Monroe doctrine to safeguard the interests of America.

You feel proud of your wife and children, don't you, and if you can do anything to make the home pleasanter and conditions easier for them, you do it willingly.

Why not enlarge the sphere of your affections and take the town you live in on the same footing as your family? Be proud of it, do everything you can for it. If public improvements are needed, urge them and vote for them.

We want to see Stayton known as one of the finest and most progressive little towns in the state. If every citizen will support its trade, forward its interests and show a pride in all its conditions, our ambition will soon be fulfilled.

We wonder if the Capitol Journal is satisfied now that Olcott is seated in the gubernatorial chair. We haven't seen anything in its columns to the contrary. Probably the Journal has been paid in full—or else can see the silver lining.

One of the colored battalions reached home in the depths of pessimism. The captain of the transport on which they crossed had forbidden "crap shooting" during the voyage.

As Congress started on a wild rush for home a perturbed voice called after it, "Hey there, you've forgotten to fix up the railroads." But congress evidently didn't hear, as it only ran faster.

If any one asks you what is going on, tell him that taxes are going up, prices are going down, the country is going dry, congress is going home, business is going to pay, and we will all be happy.

The seventeen year locusts are due again this year. How surprised they will be when they learn there has been a war during their absence.

Mr. Hohenzollern is wearing out his clothes and his welcome in Holland, and the Lord only knows where he will get any more of either.

Society note:—The president of the United States has recently paid a brief visit to this country.

Alcohol is weakened, tobacco is going up in smoke, but coffee still holds its grounds.

**A Solemn Thought.**  
"Just think of it, my friend," said the everlasting warrior. "In the arctic regions the nights are sometimes six months long."  
"Well, what of it?" asked his friend as he adjusted his fur mask and a smile at the same time.  
"Just imagine the consternation of a poor Eskimo wife when her husband calls up to tell her he will be away all night to sit up with a sick friend."

"I always try to make the best of a bad situation," remarked Mr. Giltchery.  
"What do you do when your water pipes freeze and then burst?"  
"Oh, I sing a little song just to show that I'm not worrying."  
"That's highly commendable."  
"But when the water begins to leak on the people who occupy the flat beneath mine to save my life I can't persuade them to join me in singing."—Birmingham Age-Herald.

### Notice to the Public

Commencing on April first, 1919, the blacksmith shops of Missler & Taylor and Wm. A. Cladek, of Stayton, Oregon, will be run on a cash basis. This is deemed necessary on account of our having to pay cash and high prices for material and help.  
Messler & Taylor.  
W. A. Gladek.

## TELL IT TO THE MARINES IF YOU WANT TO DIE

General Catlin Explains Why  
World Is Afraid of  
"Leathernecks."

It isn't nice to swear in type. Neither is war nice. This is a war story. It was told by Brigadier General Catlin in his book, "With the Help of God and a Few Marines." Belleau Wood is the setting.

The General had given his troops the order to advance. His last words were, as they started across the wheat fields under a withering fire, "Give 'em hell, boys."

"Some one has reported," the General continues, "that they advanced on those woods crying, 'Remember the Lusitania.' If they did I failed to hear it."

"Somehow that doesn't sound like the sort of things the Marines say under the conditions."  
Then General Catlin tells what they did say. When the lines were wavering under the terrific German fire, a sergeant cried out:  
"Come on you — — —, do you want to live forever?"  
Tell the Marines that you are not going to take your share of the coming Victory Liberty Loan.

**Accidents Notably Decreased.**  
Accidents in the iron and steel industry have decreased by more than two-thirds during the last ten years as the result of a movement to enforce safety regulations, according to a report by the bureau of labor statistics. In 1907, the report shows, 245 men were killed or injured out of every 1,000 employed, while in 1917 the accident rate was reduced to 81 per 1,000. A further reduction would have been recorded in 1917 but for the dislocation of industrial processes to meet war needs, the report says.

**Made-at-Home Labor-Saving Devices.**  
In 11 communities of our country in Oregon the women are making homemade driers, home-made fireless cookers, and home-made iceless refrigerators under the direction of the home demonstration agent. In connection with this project one woman found that an investment of 50 cents in a dish drainer and a wire dishcloth for pots and pans saved her ten minutes of the time required to do the dishes after each meal, or 30 minutes a day. In a year she figured this time, if accumulated, would give two weeks, of 12 hours a day, leisure. Was the investment worth while?

The American Y. W. C. A. has opened a Hostess House in Germany, which will serve as a residence house and social center for American women war workers who have advanced to do canteen, Red Cross and Signal Corps work with the Army of Occupation.
