Vogans MARSHMALLOW WHIP

Try it on pie

Please "test" by serving fruit pie with Vogans' Marshmallow Whip. Use it as you would whipped cream. It is richer and more tasty. It will not sour. You can keep it over until the next day—if there is any left!

Order a jar today and try this delicious dessert.

Vogans Candy Company
Portland, Oregon

Spreading Over the World

Brimming full of that confidence which brings success, and that active energy which creates success, the Ford Motor Company are establishing assembling plants in Copenhagen, Denmark, and in Cadiz, Spain.

The Ford Motor Company believes the war is over, that a new dispensary has been established, and that the sooner American manufacturers can align themselves to the new condition and reach out to meet the great demands of the world, why, the quicker the havoc wrought by war will have been effaced. The quicker we can get in international business at work, the sooner will the horrors of war disappear and the earlier we can reach out our hand of trade to help, the earlier will be the disappearance of hate and enmity between people.

The Ford Motor Company believe if you want the foreign market, go to it. Don't wait for it to come to you. Take what you have to sell to the market, and there show its advantages to the people who visit that market and to the people who buy in that market. If you wish foreign trade, become an active living part in the red blood of trade. The whole world is a market today for American enterprise, and who realize this truth and make honest efforts to get that trade, will have it.—Adv.

Catarh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarh Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonic known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarh Medicine is what produces such wonderful results in catarh conditions. Send for testimonials, free.

Cancer of Breast Cured

This is to testify that I was afflicted with cancer of the nipple for two years which worried me greatly.

I applied to Dr. S. C. Stone for treatment and in a short time the cancer came out, to my great relief. The place soon healed up perfectly.

I write this recommendation at my own suggestion for I feel it my duty to let those similarly afflicted know that a cure is available by simply applying to Dr. Stone.

GOING SOME

(By Shoff)

It's a far cry from the Carnavel of the Hon. C. Columbus to the air of today; and yet if old Chris could have seen the airplane flying over the pond, he would have said: "one bird that!" Well, yes, and fairly good size, too. For instance the N. C. 1 has a spread of 141 feet or almost a city block. Carries 2000 lbs. of gasoline: lifting power 9 pounds per square foot of surface. The Porte Triplane stands 27 feet in height barefooted. The Capson 19 feet. Handley Page 18 to 20 feet. Horse power: Caproni has one of 5000 H. P. Speed: Well at the New York Aero show. The Christmas Bullet was shown having a rated speed of 2000 miles per hour. Gee, says some small boy, if I had one like that I'd hit the breeze. Yes, Kiddo, at that speed you could fly around the earth in five days, or in seven weeks you could be at the moon. While an excursion to the sun will take 53 years.

Too slow, you say. Well, light travels at the rate of 186,000 miles per second. We will board the Lightning Bug Express and in eight minutes will stop at the sun.

According to Prof. Lewis of the U. S. Naval Observatory, it would take 1 hour and 11 minutes to reach Jupiter, Neptune 4 hours 2 minutes and 4.35 years to reach Alpha Centauri, our nearest fixed star. If you would want to fly over the Sidereal system of which our solar system is a part, it would take up 300,000 years of your time. By the time you got back several things might happen.

The Peace Congress would be ready to adjourn. Oregon would have some good roads. Stayton might have a railroad, and the gink who wants the single tax law enacted might see the error of his ways and so. Pax Vobiscum.

ELK AIDING CAMPAIGN

Elks lodges in Oregon are taking a leading part in the Salvation Army campaign for funds for home work the week of June 22nd.

SAVED BY U. S. FOOD

Destitute People of Roumania Are Grateful to America.

Timely Arrival of Supplies Prevents Growth of Bolshevism and Revolution.

Bucharest.—American flour and clothing are saving the lives of thousands of destitute people throughout Roumania. The United States food administration has already brought in to the country nearly 20,000 tons of flour, while the American Red Cross, which has a large mission established here, is distributing clothing and general relief supplies of all kinds among the needy population.

The flour from America arrived at a time when conditions were at their worst and when local supplies for the Roumanian people were almost exhausted. It was feared that the want of food would result in a state of bolshevism and revolution.

This American flour has been a tremendous factor in preventing the unrest. From its relief stations established at Bucharest, Jassy, Constanza, Galatz, Focsani and Pitesti, the American Red Cross is distributing its supplies, and in every important village an American Red Cross soup kitchen is helping to feed the population.

Queen Marie, who has taken the greatest interest in this relief work, has assigned Prince Carol to co-operate with the American Red Cross. Col. Henry W. Anderson, Red Cross commissioner to the Balkans, said that three large consignments of relief supplies had already arrived in Roumania, and that the fourth was already on its way from Toulon, so that the American Red Cross would soon be able to care for every destitute person in Roumania.

TRAINED WORKERS ARE BEST

Do Much More Efficient Work in Factories Than Those Without Training.

Washington.—Information reaching the training service, department of labor, from establishments where factory training systems are in operation indicates that foremen, after brief experience with the training system, insist upon having trained workers in their departments, for the reason that they do much more efficient work than those who are put into the factory on production work at the start. Many workmen also ask for training, in order to increase their earning capacity, and so valuable has training proved for peace time that last week 17 factories adopted training systems, a number almost equal to the average installation of training departments during the war.

In one large plant there was a feeling of hostility to training at the start on the part of a number of foremen. When the first graduate of a training department was put on production work within a week and was found fully qualified for production work, the foreman insisted that the worker was exceptional. Under the old system from three to six months were required before workers were able to produce the quantity and quality of work required for a fair day's output.

When a considerable number of persons had been promoted to production work after a week or ten days in training, however, the foreman's views changed very radically, and they refused to take any applicants for work who had not had the advantages of the training system. At one time, when the training department was full, a new hand was sent at once to the factory for production work, and the foreman protested vigorously.

Soldier Bewails Bride Wedded to Him for Glory

East Orange, N. J.—Ole L. Robinson, who won his wife, Esther Crowell, daughter of J. O. Crowell, the New York publisher, by tales of heroism in France, sat disconsolately in jail and mourned the absence of his helpmate, who allowed the charge of robbery against her husband to creep in between them.

"I thought my wife should at least have come around to see me," he said. "I expected much of her. We were getting along nicely until I had trouble with her parents. I now realize that Esther did not marry me for the man but the glory." Robinson, who is eighteen, still insists he was four months in service in France and had been a messenger attached to General Pershing's staff. While at the front, he says, he fell from his horse when shrapnel exploded near by and was invalided home, suffering from shell shock.

Support Health Work.

Washington.—"Public health is purchasable," says the United States public health service, and adds that a first-class health protection service can be provided for one dollar per head per year. In fact some city health departments render excellent service at a cost of 75 cents per head. Let's all get together and give better support to health work in this community.

Indigestion

DO YOU KNOW that indigestion can be cured, permanently cured, so that you can eat any kind of food that you crave? It has been done not only once, but in almost every case when Chamberlain's Tablets are used. An instance: Mr. J. Pominville, Stillwater, Minn., who had spent over \$2,000.00 for medicine and treatment was permanently cured by these tablets.

Chamberlain's Tablets
