Albany is trying to remove the Linn County fair from Seio to Albany. At a meeting held Monday steps were taken to reverse the move which went down to defeat just before the war. Another meeting has been arranged for Saturday and it is expected that there will be some hot arguments for and against the move.

There are plenty of fellows, who could teach a better school than those who teach, preach a better sermon than those who preach, who could run a better business and publish a better paper. Yes, the woods are full of them, but they neither teach, preach, or run a better paper. They are like the lilies in the field—they toil not, neither do they spin.

The following newspaper headings are getting common: "Sugar advances a cent a pound." "Coffee makes another jump." "Meat Soaring." "The price of tea ascends." "Corn Climbing." "This kind of dope brings the high cost of living proposition right squarely up to a fellow.

# DAINTY DRESS DAYS

It is never too late for one airy-dainty frock like this which can be worn for one occasion or another at least nine months in the year. This cream-colored combination of net and lace looks to a girl of pink ribbon and French flowers for its coloring and it is vivid in its freshness. This model, though late in the season, is a forerunner of 1920 lines.
