## Banks

It is not as popular today for the multitude to condemn banks as it was a few years ago. The people have found out during the war that the great system of banks in the U. S., in co-operation with the people made it possible to provide the government with the money that carried the war to a successful termination.

We could no more in this day and age transact the business of our country without the banks, than we could harvest our crops of grain and hay by the old method of the scythe and the cradle.

Our banking facilities must expand in advance of our industrial development.

That is why leading banking institutions of the country over are increasing their resources and extending their field of operation. At the same time they are furnishing every possible assistance and encouragement to our growing industries.

A progressive bank is one of the greatest assets of any growing community.

## The Small Fruit Industry

Oregon has no more promising field for community development than by extension of the small fruit industry.

There is practically an unlimited market for berries and cherries in the world demand for juices, janes and preserves.

This is entirely aside from the immense market for such products from the canning industry and the market for plants.

Very little capital is required to put out from one to ten acres of loganberries, raspberries, strawberries or gooseberries.

The manufacturing plants located in towns and cities are ready to help the grower with information or even with capital to start. Every community should get behind this movement and induce as many families as possible to start a berry patch.

A good example of returns is given by a farmer near Salem, who sold \$790.00 worth of strawberries from one-third acre, at 8 cents per pound.

## One Way to Reduce Cost of Living

Taxation, high cost of living, high wages, shorter hours, less work and more production, are some of the mystifying phrases one hears today. Everyone is shoving the burden onto someone else.

As a start to reduce cost of living the present inequitable and misnamed "luxury" tax could be repealed or amended, thus removing a direct increase in the cost of living on many absolute necessities, from drugs and toilet articles to candy and ice cream.

This law was passed in haste to meet war conditions, it can now be repealed or amended at leisure to meet peace conditions and the sooner the better.

## Taking the Kick Out of Kickers

That Prohibition has contributed its bit to the high cost of living can no longer be denied. It has taken the kick out of our native wines and implanted it in us. Why shouldn't the plain citizen regret the passing of champagne when he is required to pay champagne prices for ordinary grape juice?—Cincinnati Enquirer.

To which the Ohio Issue replies: "Yes, and Prohibition has taken the kick out of many husbands and fathers, for which many wives and children are thankful.

# "OREGON"—YOUR UNIVERSITY

# THE STORY OF THE LABEL

DID you ever think what the label means? When you see "BISHOP" do you realize what goes into that word and how much there is behind it?

## The Name is a Signature

Like your name written at the bottom of a PROMISORY NOTE or DEED.

THE garment with no label is like an ANONYMOUS LETTER.

BISHOP'S on a garment means that a house of standing "assumes responsibility for it." That is the best that can be manufactured; that "when they are better BISHOP will have them."

We are receiving shipments every day by EXPRESS, and prices are going higher and higher each day.

If you have anything that you will need in the future you should take care of your wants today and at once.

Arrow Shirts  
Arrow Collars  
Mallory Hats  
Interwoven Hosiery

THE BEST ALWAYS AT BISHOP'S

--- Every Family In Marion and Polk Counties a Patron ---
