## For Mothers

Among the measures which did not get to a vote in the last Congress was the one known as the "rural mothers and babies bill." It is a pity that such a law didn't get on the federal statute books. It belongs there. Possibly the only legitimate excuse given for its nonpassage was the extraordinary quantity of post war measures demanding congressional attention.

And so a much needed bill fell by the wayside, never emerging from the committee pigeon hole. Now the measure is being rewritten and will be introduced in the winter session of this congress. Julia C. Lathrop, chief of the Children's Bureau of the U. S. Department of Labor, instrumental in the initial introduction of the bill, is aiding in getting it before the present Congress.

The new bill is expected to provide for an annual appropriation amounting to \$2,000,000, which is to be divided among the states putting up like amounts, the whole to be spent "in instruction in the hygiene of maternity and infancy through the public health nursing, consultation for mothers and infants at home or at a hospital where necessary, especially in remote areas."

The first bill made it very clear that the money should be spent "in the promotion of such instruction and care in RURAL districts.

The authors of the original measure recognized the fact that expectant mothers in large cities were near hospitals, within quick call of nurse and physician, and near other and experienced women in her neighborhood. Also, they realized the fact that in rural communities, especially on farms, and in "remote areas" women often are compelled to await the coming of baby without any assurance that a physician can be summoned hastily, or that a nurse may be secured.

These mothers OF ALL WOMEN most need instruction in the hygiene of maturity and infancy. They cannot hurry to a hospital. Often hours elapse before the nearest physician—often miles distant—may answer a call. Neighbors, too, are far removed. Nurses unobtainable.

This may have a lot to do with the high death rate: At least 16,000 women die every year in the United States from childbirth, and unaccounted thousands suffer impairment of health from causes related to maternity.

One quarter of a million babies die every year within 12 month of birth. At least one half of these deaths occur within the first six weeks after birth. The maternal death rate is higher in the United States than in 13 other principal countries. It is higher in rural districts than in cities. Over sixty per cent of American babies are born in rural communities.

Now you see why the original bill provided that all the money should be spent in behalf of the rural mother. The new bill should be drawn along the same lines—FOR THE RURAL MOTHER. And the congressman from this district owes it to the mothers, and the mothers to be, of this district, to exert his influence in so shaping the proposed legislation. Why not write and tell him so? or cut out this editorial and send it to him, with your name and address!

## North Dakota Socialism Expensive

Frank E. Packard, assistant Attorney General of North Dakota, shows how the North Dakota farmers will pay for the Non-Partisan League socialistic schemes:

Average taxes paid on quarter section of North Dakota farm land, 1918	\$	35.07
Average taxes to be collected this year, 1919, on quarter section of farm land		59.92
Increased cost to farmers per 160 acres farm land		24.85
Total assessed valuation of North Dakota property for 1919	400,000,000.00	
Raised by Non-Partisan League officers for '19 to Assessed valuation of farm lands, town and city lots under the Non-Partisan scheme	1,600,000,000.00	
Increased valuation placed on farm land	100 per cent	
Proportion of assessed value against farm lands, town and city lots	67 per cent	
Taxes levied for state purposes in 1918	1,600,000.00	
Taxes levied for state purposes in 1919	4,000,000.00	
Increase of	25 per cent	

The nation is face to face with a radical labor autocracy which threatens to crush and destroy with as ruthless a hand as did ever German military autocracy. The so-called labor leaders, drunk on their own power are ignoring the greatest force in the world, namely, public opinion. A few more police strikes, a few more steel strikes and a few more shipyard strikes will awaken this nation to the danger threatening it under the guise of a labor movement.

A man back east has invented a new kind of a manure spreader, and does not know what to name it. We would suggest that he call it "Woodrow"

**MURINE** Night and Morning. Have Clean, Healthy Eyes. If they Tingle, Itch, Smart or Burn, if Sore, Irritated, Inflamed or Granulated, use Murine often. Soothes, Refreshes. Safe for Infant or Adult. At All Druggists. Write for Free Eye Book. **Kaiser Eye Remedy Co., Chicago**

## Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and the tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Medicine acts thru the blood on the mucous surface of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, etc.  
F. J. CHENEY & CO., Toledo, O.
