Daddies of the Packer Bill

Congressman Sydney Anderson, Minnesota, and Senator W. S. Kenyon, Iowa, joint "fathers" of the packer bill, approved by the Federal Trade Commission, and which is regarded as the fruit of the commission's meat and live stock investigations. The bill provides for the government licensing of packing plants, excepting farmers cooperative plants and those doing business of under \$500,000 a year. Failure to obey the provisions of the license would result in the government taking over the offending packing plant. Under the provisions of the bill the packers must give up control of the refrigerator cars, retire from ownership of fruit, vegetable and fish canneries, from the grocery business, and from active control of the stockyards. They would be limited solely to butchering and preparing meat and its by-products. The Secretary of Agriculture is designated as the administrative officer under the license plan.

WOMAN CAN'T RESIST RESISTING FURS

Women can't resist these furs—but they—the furs—are fashioned and built to resist winter breezes—therefore opposites come together. At the top a cape of mole combines both fashion and warmth within 1 1/2 peits; second from the top a neckpiece of Canadian mart. stable for all occasions. Third from the top is the popular dark natural blue fox made into a scarf that most all women admit to be the most practical piece of fur sets. At the bottom—a bit of dress up fineness, in genuine neckpiece that simply takes one's breath away and is a real joy.
