FORD

THE UNIVERSAL CAR

Don't Depend on Spring Deliveries

Spring deliveries of Ford cars have never been certain, and they should not be depended upon. Demand has always been greater for Ford cars than the supply or production. So, if you would be sure of having a Ford car, buy it now while deliveries are possible. Don't wait—even next month is an uncertainty.

Only a limited, specified number of cars has been allotted to this territory. That allotment cannot be increased, because the demand all over the country is greater than the supply of production. Get your order in now, and you will be one of those who is sure of a Ford car out of our allotment.

It's first come—first served. All orders are filled in rotation. So, if you would be forehanded, if you would be certain of having a Ford car when you want it—then you will buy a Ford car now. A signed order with us is your protection. It is the result of the wisdom of looking ahead.

If you buy a Ford car now, don't think you have to "store" it. The Ford is a car made to serve its owner for business or pleasure throughout the entire year. Ford owners have long since come to recognize the fact. It is no longer popular to "lay up" your car for the winter. Buy a Ford car now, and use it now.

CARPENTIER GETS CHAMPIONSHIP CUP?

Europe's sportmen has some funny ideas of things. First of all, here is a man, Promoter Cochrane of London, presenting the Gent who has defeated Joe Beckett, British champion, in one round, at London recently. The cup is all right and the idea of awarding, fine as they are, is in it. "Heavyweight Champion of the World," American sport followers say the real champion, Jack Dempsey, will sure "junk" that cup when he gets Carpentier into a ring.

Make a Trap!

Kiddies! Do you want to catch a mouse? Here's a simple diagram for a trap which gets 'em every time. A cardboard box—round hat box preferred. A piece of common wrapping paper for a top—ties with a string. Then cut a square X—(No. 5) and hang a piece of cheese or cake directly over the center. A thin board or strip runway for Mr. Mouse to get up to the top. He walks out to get his supper, the paper bends under his weight and he slips down into the box—trapped.

BROUGHT DACK PYGMY HIPPO

Hunter Spent Weary Months in Jungles to Prove That the Species Really Existed.

It seems incredible, but there exist hippopotami that do not exceed 30 inches in height. For a long while nobody believed that there were any pygmy hippos in Liberia. The natives insisted that the Hippopotamus Liberiensis lived deep in the forests; but that was another reason why explorers and hunters shook their heads in incredulity. The hippopotamus lives along the rivers, they said, and this talk about pygmies of this species in the forests is nonsense.

Nevertheless a pygmy hippo was caught as far back as 1873, and brought from Africa to the zoological gardens in Dublin. It might have convinced the world, only it arrived in a dying condition, and perished before it could be exhibited. After that, people took to doubting it again, and considered the one recorded specimen as a freak. But Carl Hagenback, the famous animal man, made up his mind, at last, that the pygmy hippo could be, and should be, introduced to man. He sent an intrepid hunter, Schomburgk, after it, and Schomburgk, after spending a year and a half in the jungle, reappeared with three pygmy hippos, two of which were at once brought to the New York zoo and placed on exhibition.—New York Herald.
