In looking over government and other statistics we find that something like 100,000 auto drivers were of the opinion, last year, that they could push a locomotive and a train of cars off the track, but none of them did it. Probably if they could return to earth they would tell their fellow autoist that it can't be done.

A letter from R. J. Kusey, who left here last fall for a trip to North Dakota and Wisconsin, have returned to Idaho where they have located at Cambridge. PHILIP WEISENBERGER IS VICTIM OF APPENDICITIS

Philip Weisenberger, of West Stayton, died at the Salem Hospital on Thursday February 19, 1920. He was the only son of Mr. and Mrs. J. F. Weisenberger and was 17 years, 10 months and 17 days old.

He was a student of the Stayton High School and was also a member of the basketball team and was considered as one of the best players and played in most of the games and always held down his part of the game.

He was stricken with appendicitis last week and his condition was such that when he was taken to the hospital there was very little hopes of his recovery. He passed away Thursday.

He realized that he could not survive and requested that his body be laid to rest at Stayton among his many friends and where he has been attending school.

The funeral was held Sunday afternoon, at Stayton with Rev. White officiating. Interment was in Lone Oak Cemetery.

The pallbearers were his schoolmates and members of the basketball team and were: Norval Fisher, Leo Willings, William Smith, Wallace Smith, Ernest Aegerter and Edmund Klecker.

Card of Thanks

We wish to extend our sincere thanks to the kind friends and neighbors and to the teachers and the Student Body of the Stayton High School for their kind sympathy in the hours of sorrow, during the short illness and death of our beloved son, also do we wish to thank the young ladies for the beautiful singing and for the floral offerings.

Signed—
Mr. and Mrs. J. F. Weisenberger

Cletrac

TANK-TYPE TRACTOR

20 Horse-power at the pulley — 12 at the drawbar

Does the work of 6 to 8 horses at less than one-third the cost. Pulls big loads, yet moves along at the right speed for perfect work. Built to stand the "gaff." That's why it costs so little for upkeep and so little to operate. Doesn't pack the soil. Works on soft or mucky ground without miring or loss of power.

Large roller track-wheel bearings. Dust-proof motor. Water air-clarifier. New tank-type, 8-inch-wide, single-grouser track. The Cletrac is the tractor you've always wanted.

Let us put the Cletrac through its paces right on your own land, doing your own work. No obligation.
