Cletrac TANK-TYPE TRACTOR

20 Horse-power at the pulley—12 at the drawbar

Can't pack the soil. Works perfectly over soft ground. You work when ready, not when the weather dictates. Small and easy to manage, but with power galore. You plow, harrow, disc, plant, etc., at the proper speed with a big load behind. Turns close. You get the corners. It's the tractor you have always wanted.

Large Timken roller bearings in all track wheels. Dust-proof motor. Air clarified by water. New tank-type, 3-inch-wide, single-grooved track.

Let us demonstrate the Cletrac on your own place, doing your own work. There's no obligation attached.
