STAYTON WILL CELEBRATE INDEPENDENCE DAY

Stayton Will Celebrate The Fourth of July In Right Royal Style

A Fourth of July celebration will be held in Stayton this year that will make the celebration of the signing of the Armistist fade into significance by comparison.

This is the sentiment that has been expressed in town this week by our enterprising citizens.

Monday evening a number of business men met at the city hall and talked over the plan of celebrating and it was decided to appoint a committee to go out and interview the business men and citizens and see what money could be raised for that purpose.

A committee composed of W. F. Klecker, J. H. Thoma, Forrest Mack, Harry Humphreys and V. Dare Sloper interviewed the business men Tuesday and reported that evening that the largest amount ever subscribed in the history of the town was signed up for and all that remained to be done was to get busy and put on the fun.

Wednesday evening another meeting was held and was attended by a large number of the townspeople. An executive committee was elected composed of George Keech, chairman; V. Dare Sloper, Harry Humphreys, George Smith and W. F. Klecker who have full power to carry on the work. Sub-committees will be appointed soon and the program will be arranged as soon as possible.

The celebration will embody all the time-honored customary amusements, together with many so new and startling as to jolt into frenzied activity even the octogenarians among us.

There will be a big parade in the morning, with all the fraternal orders, school children, etc.,

in line headed by a brass band. The speaking will be held in the Masonic grove which will be put in shape to accommodate the crowd. Seats will be erected to make it comfortable for all.

The committee is figuring on an airplane flight, swimming and log rolling contests, athletics and other sports. There will be races for young and old and prizes will be given for all of them.

On second thought there will be a baseball game and the lovers of that sport will be given an opportunity to flaunt their ignorance of the national pastime and yell at the pitcher and probably "His Umps" will come in for a merciless fusillade of milk bottles and ice cream cones and sundry other containers now universally used in dispensing beverages of the more or less soft kind which have superceded those "delightfully exhilarating and slightly intoxicating" concoctions so much in vogue prior to the advent of July thirty-first last. When the casualties have been given first aid and all bets have been settled, the fat man's race run, the largest families counted and the greased pig caught it will probably be time to start dancing.

More details will be forthcoming next week. The celebration will be held on Saturday, July 3rd.

Everyone will have to help, work, talk, agitate and attend in order that Stayton may once again be the place where all stages stop and where the people can come and have the time of their lives on the Fourth of July 1920.

ENCOUNTERS SOME VERY ROUGH ROADS

While going to Silverton on a motorcycle lately, L. E. and R. R. Harold encountered some very rough roads. R. R. who was riding the tandem, got his overcoat tangled up with the foot rest. While trying to free the coat he was thrown from the machine. L. E. did not miss him at the time, and after two or three unsuccessful attempts at conversation discovered the loss of his passenger. On returning R. R. was found about a mile back with a badly torn pair of trousers, a scratched knee and saying things that wouldn't look good in print.

SHOOTS HIMSELF WITH GOPHER GUN

Elmer Ferry, the 5 year old son of Mr. and Mrs. Frank Ferry, of West Stayton, had the misfortune to shoot himself in the hand with a gopher gun last week, badly lacerating the hand. Dr. Brewer, found it necessary to amputate a part of the hand. At last reports the little fellow was getting along nicely.

The annual meeting of the Alumni Association of Stayton High School will be held on Saturday evening, May 29th. This meeting is to be held in Streiff's hall and efforts are being made to secure a 100 per cent attendance. The committees in charge are arranging accommodations and entertainment for these former Stayton High School graduates and teachers, as well as the graduates and teachers of this year. The program for the evening will begin with a banquet at 7 o'clock.

Fifteen Thousand Dollar Bonding Measure Defeated--Old Waterworks Pump Continues to Groan on Account of Old Age and Overload

The primary election passed off quietly in Stayton and out side of a little skirmish by those who were opposed to the bonding of the city for \$15,000 with which to improve the water system, it was a quiet affair.

Some of our citizens claimed that the council were trying to put something over on them, claiming that the council did not let the voters know about the bonding deal before the election although copies of the proposed measures were printed in book form and a copy placed in every home in the city a week before election. But it takes all kinds of people to make a world and according to the election returns we will have to be satisfied with the same old water system.

Hi Johnson carried the town over Leonard Wood by a small margin, the same councilmen were re-elected, Oscar Steelhammer got more votes than Ben West for Assessor, some of our favorites were nominated and some were not, but we won't know anything about it in a hundred years from now anyway, so what's the use raving about it? Let us pray:-

Lord, please don't let this town grow. I've been here for many years and during that time I've fought every public improvement. I've knocked everything and everybody. No firm or individual has established a business here without my doing all I

could to put them out of business. I've lied about them, and would have stolen from them if I had the courage. I have done all I could to keep the town from growing and never have spoken a good word for it. I've knocked hard and often. I've put ashes on the children's slides and have made the marshal stop the boys playing ball on my vacant lot. Whenever I saw anyone prospering or enjoying themselves I've started a reform to kill the business or spoil the fun.

I don't want the young people to stay in this town and I will do all I can by law, rule and ordinance to drive them away. I am against building a new church—even though I gave nothing. I have always fought ball playing, shows, dancing, amusements on the Fourth of July. It pains me, O Lord, to see that in spite of my knocking, the town is growing and some day I fear I will be called upon to put cement walks in front of my place and who knows but what I may have to help keep up the streets that run by my premises? This would be more than I could bear. It would cost me money though I have made all I have right here. Then, too, more people may come if the town grows, which would cause me to lose some of my pull. I ask, therefore, to keep this town at a standstill, that I may continue to be one of the chiefs.—Amen.

Mehama Schools Closed for Vacation

The Oaksdale school Dist. 90 gave their closing exercises last Friday evening, May 14th. That the affair was one of unusual success and pleasure, is attested to by the many who were there from all parts of the country around. W. W. Mokler, who was employed in the mechanical department of the Mail about a year ago, has purchased a newspaper, the "Skomania County Pioneer," at Stevenson, Wash. and the first number under his management reached our exchange table the first of the week.

The paper is newsy and well edited and we congratulate the citizens of Stevenson for being lucky enough to get a man of Mr. Mokler's ability at the head of their newspaper.
