Model Tenements for China

Dr. A. Hunley, a Baptist missionary, recently returned from China states that the American Baptist Foreign Mission Society will erect several rat-proof model tenements near Shanghai Baptist College in their fight against the disease-spreading rodent. All houses will be equipped with every modern sanitary and sanitary device.

"You have arms. You know how to use them. Will you, like slaves, use them in defense of your master, or will you use them to help your class be free? If the former, then you know that you will meet with determined resistance of the united revolutionary people of East and Central Europe, and History will be your judge. If the latter, then here's a hearty welcome into the ranks of in-

is that it tastes so good, and a little chew lasts so much longer than the old kind.

The good, rich tobacco taste stays right with this class of tobacco. That's why it costs you less to chew it.

Any man who uses the Real Tobacco Chew will tell you that.

The Art of Reading.

The printing press has helped liber-
size and free the people from tyr-
anny. Books and magazines and
newspapers have done much to dis-
seminate knowledge and bring infor-
mation into the homes of the people.
They have promoted the art of read-
ing and stimulated the desire to read
more.

At the same time the very multi-
tude of books and periodicals has cul-
tivated a desultory method of read-
ing, a desire to skim over everything
and digest little or nothing. Classic
writings, the great books of history,
biography and fiction have in a meas-
ure gone out of fashion. "Solid read-
ing," as it is called, is not often in-
dulged in, and the names of great
writers, whose productions will live
always, are unfamiliar to many of the
present generation.

The excuse is that we live in a very
rapid age, and there is no time to
read heavy literature. The reason is
that most persons have lost their
taste for history, for biography, for
good reading. They have partaken of
the froth for so long they have lost
the taste for the substantial.—New
York Herald.

Dundee Honors Beatty.

The Lockit Book of the bourgeois-
es of the city and royal burgh of Dun-
dee, Scotland, was opened the other
day, and to the names of high dis-
tinction already inscribed therein
the name of Earl Beatty was added, "in
recognition of his great services to
the empire and in testimony of the
high esteem entertained by the citi-
zens of Dundee for his distinguished
achievements in the service of the
state." Dundee received the distin-
guished Admiral and Countess Beatty
with all the exuberant enthusiasm of
a city on the borders of the North sea,
which was the theater of operations,
as it was the battle ground of the
grand fleet. Earl Beatty spoke of the
rapidity and efficiency with which the
ship-repairing resources of Scotland
had been converted to the services of
the fleet, and paid a tribute to the
bravery of Scottish seamen when
acting as minesweepers.

Inside Facts

It's what's inside your battery that makes it live long or wear out quickly.

Inferior insulation wears out before the plates do, and re-insulation is necessary.

Threaded Rubber Insulation eliminates the need of re-insulation, makes a battery last much longer under equal conditions, and reduces the liability to any other kind of repairs.

It's the one biggest battery improvement in ten years—demonstrated now by four years of use.

You can't afford not to know about it, for some day you'll need a new battery.

Call and let us tell you all about it.
