## Dignities of Office.

This story—which is perhaps true and perhaps not—is being told in many Italian mess rooms. On one of his royal tours King Victor Emmanuel spent the night in a small country town, where the people showed themselves unusually eager in caring for his comfort. So when he had gone to bed he was surprised to be wakened by a servant who wanted to put clean sheets on his bed. However, he waited good-naturedly while it was done, and wished the servant good night. He had dozed off to sleep when he was roused for the second time by a rap on the door and the servant reappeared, asking to change the sheets again.

Naturally the King asked why the change was made so often. The servant answered reverently: "For one's self one changes the sheets every week, for an honored friend every day, but for a king very hour."

## Cruel.

A young man who has theatrical aspirations loves to boast of his connections with the stage business. In company with some traveling performers in the lounge of a hotel, not long since, the young man carelessly observed:

"Oh, yes, I took a show out once." But the wind was knocked out of his sails when one of the actors asked him:

"Who brought it back?"—Philadelphia Public Ledger.

## FERNS ARE GOOD TO EAT. SAY UNIVERSITY JAPANESE

Considered Great Delicacy by Nipponese, Who Eat Puget-Sound Plant Like Asparagus.

University of Washington. — The common fern or brake that grows in the Puget Sound country is good to eat, according to University of Washington Japanese students. Several Japanese families have been gathering the stems of the plant on the campus recently. They are boiled and eaten like "fuki," the Nipponese rhubarb, or the American asparagus.

To take out the acid taste of the fern, the stems are boiled in water, to which ashes are added. When nearly cooked the water and ashes are poured off. Clean boiling water is then poured on and the cooking is called "warabi" and is considered a great delicacy. Warabi may be eaten at once or it may be dried and stored away for winter use. When mixed with oysters it is called "sho-yu," which means oyster sauce. The food can be mixed with most meats, shellfish and vegetables.

## YOUNG WOMEN MAY AVOID PAIN

Need Only Trust to Lydia E. Pinkham's Vegetable Compound, says Mrs. Kurtzweg.

Buffalo, N. Y.—"My daughter, whose picture is herewith, was much troubled with pains in her back and sides every month and they would sometimes be so bad that it would seem like acute inflammation of some organ. She read your advertisement in the newspapers and tried Lydia E. Pinkham's Vegetable Compound.

She praises it highly as she has been relieved of all these pains by its use. All mothers should know of this remedy, and all young girls who suffer should try it."—Mrs. MATILDA KURTZWEG, 539 High St., Buffalo, N. Y.

Young women who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should take Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by this root and herb remedy.

If you know of any young woman who is sick and needs help, give her this advice, ask her to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass. Only women will receive her letter, and it will be held in strictest confidence.

## The Ex-Minister.

A member of the corps of the British legation said at a dinner in New York:

"Some funny stories come from the front about our volunteer army. "Two young swells in the uniform of private soldiers were overheard by an officer conversing in a trench.

"I was intended for the ministry," the first swell said. "Believe me or not, old chap, I was on the point of being ordained last August."

"I say! And what stopped you, then?" inquired the other. "This—war, of course," was the reply."

## The Scoundrel.

Dr. Lyman Abbott, the famous "anti," said at a luncheon in New York:

"Some people think, because I oppose universal suffrage, that I am very severe and harsh on the subject of woman."

"These people liken me, in fact, to the man who was asked: "Do you believe in clubs for woman?" "Sure I do!" the man replied. "Clubs, sandbags, hairpins, any old thing."

## OF HISTORIC INTEREST

### TOWN OF GORIZIA RESTING PLACE OF ROYALTY.

Among Many Others, it Contains the Tombs of Charles X and "Henry V" of France—Known as "Austrian Nice."

Mentioned almost daily in the war dispatches from the Italo-Austrian front, the little town of Gorizia has gained considerable prominence of late.

Besides being the center of important military operations, Gorizia is of interest because of its historic associations. Lying between Venice and Trieste, not far from the Adriatic, Gorizia has a population of about 20,000.

The town has been an Austrian possession for more than five centuries, and its pleasant climate has earned it the name of "the Austrian Nice."

In the outskirts on a hill is a Franciscan monastery, the road to which is marked by the 14-station way of the cross. From the esplanade in front of the monastery church an extensive view of the surrounding country is obtained.

Below spreads the town, with the ancient chateau of the counts of Gorizia and the Villa-Boeckmann, once the winter residence of the count de Chambord, towering over the less pretentious houses. A little further off one can trace the capricious course of the Isonzo river, the bed of which is said to be the burial place of Attila, the Hun chieftain.

In the distance lies the Carso limestone plateau, sheltering the magnificent castles of Duino, belonging to the house of Hohenlowe, and Miramar, which used to be the favorite residence of Archduke Maximilian, later emperor of Mexico.

The horizon is bounded by Trieste, a chain of snow-covered Alp peaks, the Venetian plain and the Adriatic.

In the little chapel of St. Louis, in the right wing of the Franciscan church, the bodies of King Charles X of France, the duke and duchess d'Angouleme and the duchess of Parma had their resting place until 1883, when they were removed to a large vault under the high altar.

In this vault there are six sarcophagi, three on each side of a marble crucifix, raised on a high pedestal. Charles X has the duke d'Angouleme on his right and the duchess on his left.

In the other group the sarcophagus of King Henry V (the count de Chambord) has been placed between those of the countess de Chambord and the duchess of Parma.

On a black marble slab behind the sarcophagus of the count de Chambord is the following inscription: "Here rests the high born and very excellent Prince Henry, fifth of the name, by the grace of God king of France and Navarre. Born in Paris, September 29, 1820. Died at Frohsdorf August 24, 1883."

Over his tomb is raised an immense white banner emblazoned with the royal fleur de lis, in compliance with the order given by the count in his manifesto of July 5, 1871, where he expressed a wish "that the standard of Henry IV, of Francis I and of Joan of Arc, which had floated over his cradle, should also throw its shadow over his tomb."

Manhattan is Flat-Footed. Little old Manhattan is flat-footed, wears poor shoes and stands up at its work, according to figures compiled by Capt. Frank E. Evans of the recruiting office of the United States Marine corps. Captain Evans is authority for the statement that approximately 18 per cent of all applicants who applied for enlistment in the marine corps at its Twenty-third street office during the past year, were rejected for "pes planus," or flat-foot. He puts the blame on the cheaply constructed, poorly made shoes the average toiler wears at his work for the epidemic of falling arch, and on the fact that the majority of victims claimed they were forced to stand on their feet for long stretches while at their employment.

Motormen, conductors, subway guards, policemen, machinists, waiters and clerks are the principal sufferers from "pes planus." Captain Evans says.—New York Times.

What to Do for Your Itching Skin. Eczema, ringworm and similar itching, skin eruptions are so easily made worse by improper treatment, that one has to be very careful. There is one method, however, that you need not hesitate to use, even on a baby's tender skin—that is, the resinol treatment. Resinol is the prescription of a Baltimore doctor, put up in the form of resinol ointment and resinol soap. This proved so remarkably successful, that thousands of other physicians have prescribed it constantly for over 20 years.

Resinol stops itching instantly, and almost always heals the eruption quickly and at little cost. Resinol ointment and resinol soap can be bought at any druggist's, and are not at all expensive.

## HOT WATER AND "ANURIC" BEFORE MEALS--AND HEALTH

All people in America and especially those who are past middle age are prone to eat too much meat and in consequence deposit lime-salts in their arteries, veins and joints. They often suffer from twinges of rheumatism or lumbago, sometimes from gout, swollen hands or feet. Such people are not always able to exercise sufficiently in the outdoor air or drink enough pure water in order to sweat freely and excrete impurities thru the skin. Dr. Pierce has conducted experiments and thoroughly tested a uric acid solvent at his Invalids' Hotel and Surgical Institute which he is convinced is many times more potent than lithia—his he named "Anuric." It can be had at almost all drug stores by simply asking for Dr. Pierce's Anuric for kidneys or backache. It will overcome such conditions as rheumatism, dropsical swellings, cold extremities, scaling and burning urine and pleasurable due to constant need of getting out of bed at night. Our grandmothers have told us mothers and our mothers have in turn
