RUSSIANS COMMENCE NEW GALICIAN DRIVE
Lemberg is Main Objective in Determined Rush of Czar's Soldiers.
 London.—Reaping the fruits of the capture of Stanislaw, Russia's invading armies in Galicia have begun a whirlwind drive on the whole 150-mile front from the Brody region in the northeastern edge of the Austrian crown land, down to the Carpathian foothills. Using Brody as a base and pivotal point, the Muscovite army chain is swiftly rolling up the Teuton forces northward in the direction of Lemberg, the Galician capital, simultaneously widening the wedge they have driven by taking Stanislaw between the Austrian leader's main force and his extreme right wing.
 The Austrians' line along the Strips, which they have held since early in September, has crumpled and General von Bothmer is in full retreat along the whole front, according to latest information received by the Russian general staff.
 The Russians have successfully negotiated the last natural obstacle between them and Halicz, namely, the Bystritsa river, which empties into the Dniester eight miles to the south. The capture of Nadvorna strengthens the left wing of General Letchitzky, and completes the isolation of the Austrian army in southern Galicia. The Austrians were endeavoring to reorganize this army for the defense of the Pruth.

ITALIANS CAPTURE MORE POSITIONS
 Rome.—Italian troops have scored further victories south of Goritz, crossing the Valone and carrying the western slopes of Monte Nadlogem. It was officially announced. Italian detachments have occupied Oppachiasella.
 The Austrian stronghold, Goritz, has become an advanced base for the Italian forces to strike at Trieste, the principal commercial port of the dual empire.
 The Italian advance guard is now within 20 miles of Trieste, although doubtless the intervening hills have been carefully entrenched so that prolonged resistance may be expected.
 On the Carso plateau and to the east of Gorizia along the Isonzo front, the Austrians have suffered further reverses at the hands of the Italians.

BRITISH MAKE NEW GAINS
 Germans Seriously Menaced on Both of Their Wings.
 London.—Indications that a new general attack by the British toward Bapaume is near came in the news that they had gained 300 or 400 yards on a front of nearly a mile northwest of Postieres and that heavy fighting was going on all along the line.
 The British gains take them nearer to both Martinpuich and Courcellette, key positions on the Bapaume road.
 The allies now hold a strong grip on the German third-line trenches, the point of the wedge driven in a week ago having been broadened and deepened. The greater part of Maurepas is now in French hands, while to the south they are in the outskirts of Clerly. The Germans are now menaced on both wings, trying to hold Clerly and Combles, both of which are pillars of their lines.

Seattle Shouts for Prohibition.
 Seattle.—A mass meeting of Seattle citizens which filled the arena Sunday afternoon expressed with a unanimous vote approval of the Washington prohibition law and of the work of Mayor Hiram C. Gill and Chief of Police Charles Beckingham in enforcing the law. Governor Ernest Lister stated emphatically that the state was better off under prohibition. The meeting was called by the Seattle Ministerial federation to discuss more stringent enforcement of the law.
Demand Made on Railroad for Cars.
 Salem, Or.—Convinced that business interests in Oregon tributary to the Southern Pacific company face disaster and ultimate bankruptcy unless immediate measures to relieve the growing freight car shortage are adopted, the Oregon public service commission demanded that the company furnish needed facilities to Oregon producers and shippers.
Order to Move Militia Rescinded.
 Washington.—Orders for the re-mobilizing units of the national guard to proceed to the border have been suspended by the war department. No official explanation has been made, but it is known that the delicacy of the railroad strike situation has been the moving consideration.
