There has been some discussion and a small effort made to locate a naval base on the Columbia river somewhere between Portland and the sea. If not a naval base then at least a Submarine Base. It would seem to us that the entire states of Oregon and Washington are asleep if they do not put forth a united vigorous effort to secure this base. This is one of the most strategic points between the sound and San Francisco Bay and with no protection to speak of we would be at the mercy of any foreign foe. Let us arouse ourselves from our Rip Van Winkle sleep and shake off this lethargy and get busy. If an opposing fleet was to attack and force its way into the Columbia river basin, this vast Inland Empire would be sufficient to maintain the army for time immemorial. So while there is no desire to arouse the people unnecessarily or to cry war when there is no war yet there is a great preparedness program before the U. S. Congress and it is just as well for us to press our claims.

Our readers have no doubt grown tired of reading buy at home editorials and the editors have also grown tired of writing eternally on the same subject.

but there seems to be need for the continual reminder to buy at home. First because there is a tendency seemingly inherent in the human family that seems to think because merchandise came from some far off place it is better than that bought at home. This is not always the case. Come now and let us reason together. When you are making up an order for a mail order house did you ever take the same amount of cash, plus freight on your order and go to your local dealer and see what he could do for you on the same size order. How much have the mail order houses given to build our school houses, our churches, our public roads. How much have they contributed to the upbuilding of our community. How much taxes do they pay in our county. When you want something that our merchants don't happen to have in stock did you ever give him the opportunity of sending for it for you. If you must have something that comes from afar give your local merchant an opportunity to get same for you and you will be doing him, yourself and the community a lasting good.

**SUBLIMITY**  
Mrs. L. J. Schott and son, Bernard, who have been visiting over Thanksgiving at the home of her parents, Mr. and Mrs. B. Prange, left Sunday for their home at Eugene.

A very pleasant party was held at the Peter Barkmeyer home about one-half mile north of Sublimity Sunday night. The time was spent in dancing and playing cards. About midnight refreshments were served to which ample justice was done. Following this, dancing and card playing was resumed until a late hour.

The following were present: Messrs. Frank Roeser, E. J. Bell, Joseph, Frank and Ed Pieser, Ed and Sim Etzel, Wallace Smith, James Ripp, Joseph Susbauer, Wm. and Philip Albus, Geo. Odenthal, Geo. Welter, Eugene Ditter, Dan Kintz, John and Nick Heuberger, Wm. Duchateau, Lawrence Van Handel, Tony Schulte, Isidor Bell, Misses Katie and Mamie Van Handel, Thekla Roeser, Rose Hottinger, Angeline Kintz, Margaret Schulte, Hannah and Theresa Heuberger, Theresa Ditter, Mr. and Mrs. Albert Weidner, Mr. and Mrs. Frank Bell, Mr. and Mrs. John Zuber and the host and hostess, Mr. and Mrs. Peter Barkmeyer.

## The High School Gymnasium

The High School Gymnasium Committee, consisting of G. L. Brown, Henry Smith, A. D. Gardner, Geo. Keech, J. W. Mayo, W. C. Gauntt, Geo. Tate, and Lynn Neal, met in the office of the High School building Tuesday evening at eight o'clock to decide upon the type of building kind of material etc., to be used in the construction of the Gymnasium.

Previous to this tentative plans had been submitted to Mr. Lampman, in order to secure definite information as to the cost of construction. Mr. Lampman submitted a bill for lumber approximating \$600. After considerable discussion the board made some changes in the size of the material to be used.

At this period ensued a lively discussion as to the shape and type of building to be erected. It was finally decided to build a building similar to those built by the State on the State Fair Grounds, which admit light through the sidewalk, between the first and second division of the roof.

On a motion, Mr. Gardner was instructed to have a carpenter word out a new bill of lumber, to conform with the changes made. It is the intention of the board to have these plans completed within the next two three days; and to submit the contract for lumber and supplies to the lowest bidder.

There was a great deal of discussion as to the kind of foundation to be used, whether poured or a solid wall. However the consensus of opinion was that a solid foundation would be used if the state of finances permitted.

The committee expect operations, and believe that building can be completed within thirty days.
