Local unemployment ticks up, construction, mining, logging strong

The Salem metropolitan statistical area's (MSA) unemployment rate increased to 4.1 percent in June, up from its revised May rate of 3.8 percent, according to data recently released from the state employment department.

Oregon's statewide unemployment rate was 3.7 percent in June, essentially unchanged from its revised rate in May of 3.6 percent. The national unemployment rate was 4.4 percent in June.

Salem's June employment gains were more than normal. Salem added an estimated 1,200 jobs in June when an increase of roughly 200 would be expected, meaning seasonally adjusted non-farm employment increased 1,000. Salem's employment was nearly 11,000, or 7.1 per-

cent, above its pre-recession employment peak, which occurred in February 2008.

Employment in the Salem MSA grew 3,300 over the past year, a 2 percent increase. Salem's growth was outpaced by the state, but not the nation. Oregon's employment grew 2.9 percent over the past year.

Nationally, employment was up 1.5 percent over the past 12 months. Salem's private sector added 2,600 jobs over the past year, growing 2.2 percent. The public sector added 700 jobs, growing 1.6 percent.

The fastest-growing major private-sector industries over the past year included: construction (added 900 jobs, grew 9.6 percent); and mining and logging (added 100 jobs, grew 8.3 percent).
