

DAN KOHLER

for Keizer

City Council

My focus—

★ Keep Keizer Keizer

We do not want to become Salem or Portland... or anywhere else. The Keizer Way is the good way. Change will come, but as we look to the future, we must value the great work of the past and remember that work as we move forward to ensure Keizer retains its quality of life.

★ Transportation solutions

I want Keizer to take a proactive and thoughtful look at our aging infrastructure—mainly our transportation systems. As we look toward the future of what Keizer can be, as a city we must make the right decisions now for the short term as well as the long term.

★ Keep our kids safe

Safety in our schools, in our neighborhoods and in our community is a top priority. All of Keizer's kids deserve to feel safe and I want to continue to ensure our Police have the tools and resources needed to do so.
