4-way stop planned at River-Quinaby

By ERIC A. HOWALD
Of the Keizertimes

Marion County Public Works is planning a four-way stop intersection where River Road North meets Clearlake Northeast/Quinaby Road Northeast.

The plan is to try to get it installed by the end of August, said Brian Nicholas, director of Marion County Public Works (MCPW).

While a fatal crash at the site in late July gave the planned changes added momentum, it was not the sole factor in MCPW moving quickly in response.

“Each of the stop signs will have a flashing red light on top of the sign and there will be temporary signs placed ahead of the intersection warning drivers of a traffic change,” Nicholas said. The warning signs will also include flashing lights to get drivers’ attention.

MCPW had to order some additional parts needed for the change, but planned for a rapid deployment.

On July 28, a 39-year-old Sheridan woman died in a crash at the intersection. She was driving a Ford Taurus and an investigation determined she had failed to stop at a stop

sign while traveling eastbound on Clearlake Road Northeast.

In response to the crash, the Keizer City Council planned to ask for changes at a meeting of the Marion County Area Transportation Commission Thursday, Aug. 6. MCPW announced the changes before that meeting was held.

Mayor Cathy Clark cited line-of-sight and alignment issues among the problems that caused crashes at the intersection.

Nicholas said the county monitors crash data at all county roads and intersections, and the River Road/Clearlake/Quinaby junction falls under its Rural Intersection Safety Program. MCPW adjusts traffic controls based on what the data reveals.

“The county has already installed advance warning signs, enhanced pavement markings and other safety features at the River Road/Quinaby Road intersection. The next logical step in that progression is to change the intersection to a four-way stop with enhanced signs, enhanced pavement markings and flashing beacons to increase driver awareness of the traffic control change,” Nicholas said.

Netflix doc series deemed worthy of *Unsolved Mysteries* mantle

Everybody loves a good mystery. There is something irresistibly tantalizing about the unknown that drives all discovery as well as an undeniable rush when the answers one is looking for are finally unearthed.

Mysteries can also be frustrating, heartbreaking and disturbing, however, particularly when they go unsolved. I, for one, like my mysteries in books and television to be tied up in nice little bows at their conclusions because real life’s mysteries are often a bit more complicated. I do it for the escapism; in other words, at the end, Sher-

lock Holmes concludes that the mastermind is Moriarty, Rosebud turns out to be a sled, and the ghost chasing Scooby and the gang is unmasked and happens to be the owner of the decrepit amusement park.

Going into Netflix’s first “volume” of *Unsolved Mysteries*, I therefore had to prepare myself for the fact that these are, well, unsolved mysteries. I for sure wasn’t going to solve them as an audience member, and I would have to be content with the questions without the eventual answers.

I’m glad I set this doubt aside, because *Unsolved Mys-*

teries turned out to be engaging, if not perfect, television.

The name of the show might be familiar to some: Although marketed as “Vol. 1,” Netflix’s first six episodes of *Unsolved Mysteries* is actually a continuation of a long-running series that has already had 14 seasons spread across NBC, CBS, Lifetime and Spike TV. This time there is no narrator and each episode focuses on a single case, but the legacy is still obvious to those who have seen past seasons. In the case of theme, however, this

turned out to be a bit detrimental. Those familiar with past iterations of *Unsolved Mysteries* can

tell you that the show featured a combination of grounded true-crime stories and those that are supernatural in nature. At first, it appears as if the Netflix version has decided to buck the latter and stick with the former, but then the UFO episode starts five hours in and you realize this is not the case. I’m not a fan of the combination, personally; I occasionally enjoy true-crime stories and am an admitted

sucker for anything that talks about the possibility of aliens, but putting the two together just didn’t sit right with me.

Although I had some issues with the organization, preferring that each episode have a stronger hook at the beginning to get my attention instead of just jumping into a backstory with no indication of what the case actually is, *Unsolved Mysteries* is, overall, not boring and actually enjoyable. Shot in documentary format, each episode includes small reenactments of events (I was worried that they might be silly and overdramatic, but they turned out to be quite understated and respectful) and

also does an admirable job of giving the viewer enough information to think they cracked the case before tossing in new information that throws those assumptions out the window. It makes the viewer feel as if they’re discovering the evidence themselves bit by bit, engaging the armchair detective in all of us. As previously stated, I do not expect to “help solve a mystery” as the tagline says, but that’s not the point, is it? We like to be tantalized, and consider me tantalized.

Unsolved Mysteries Vol. 1 (or season 15, depending on how you look at it) is now available on Netflix.

public notices

NOTICE TO INTERESTED PERSONS

IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR THE COUNTY OF MARION

Case No.: 20PB03073
NOTICE TO INTERESTED PERSONS
In the Matter of the Estate of: CHIEKO GROSSMAN,
