New hours for MHS next fall

Starting in the fall, all schools in the Salem-Keizer School District will have new bell schedules. In addition to the new schedule, all students will start an hour late on Wednesdays due to staff meetings.

McNary High School and a few of the other high schools will start at 8:30 a.m. and release at 3:20 p.m., except for Wednesdays which will begin at 9:30 a.m.

"We believe that the new bell schedule will better serve the needs of students across the district and lead to improved outcomes at all levels. We are engaging our parents and families on any unintended barriers around these changes and will work to find solutions," said SKPS Superintendent Christy Perry.

Families are encouraged to talk to their student's school about any questions they may have related to the new bell schedule. A list of the all new schedules can be found on Salem-Keizer district website: tinyurl.com/2021bells.

Celt CTEC grads head into workforce

Seven McNary seniors were recognized for their decisions to enter the workforce in the industry they have studied at Career Training Education Center (CTEC) in a signing day ceremony on Wednesday, June 2.

"What you guys are doing is really important and it should be acknowledged and valued. We are so proud of you," McNary principal Erik Jespersen said.

Listed below are the seven students

that will be entering the workforce, the companies they will work for, and the CTEC programs they graduated from.

Colby Brooks: Elite Auto Glass (Auto Body and Repair Painting); Jose Martinez Reyes: Hyacinth Collision Centre (Auto Body Repair and Painting); Micah Summerfelt: Hill Brothers Machine Corporation (Manufacturing, Welding and Engineering); Spencer Schauer: Southtown Glass (Residential Construction); Marcos Tornez: MDR

Construction (Residential Construction); Jaime Flores Barajas: Hard Core Contractors (Residential Construction); Eli Meuchel: Parr Lumber (Residential Construction).

The school is planning on making this an annual tradition.

"I know that the community we live in and the city of Keizer will be better for the future because of young professionals like you," CTEC principal Rhonda Rhodes said.

Reuse is an easy, yet effective way to reduce waste and make a positive impact on our environment.

At Work

Drink from reusable bottles.

On the Go

Bring your own shopping bags.

At Home

Repair before throwing out.

You really can make a difference!
Choose to Reuse!
