## YOUR POLITICS

By G. C. Walker

### CAMPAIGN ISSUES

Contrary to the general belief, this campaign will probably be fought without any of the major issues involved. The two political parties are as one on many of the moral problems that affect racial or religious groups. Neither is willing to exercise its maximum strength to upset the long standing tradition of racial and religious behavior in America, principally because of the broad interpretation given the Bill of Rights declaring freedom of activity as a condition to our democracy.

The Republican party will try to introduce appeals based on Abraham Lincoln's administration in some sections of the country to get the Negro vote. They can never cite their record in office since the time of 1865 as reason for support to their party. In the South they will defend state rights. This has an appeal to the South because the state is the agency that can be used independently of the Federal government to insure segregation. On Wall Street the Republicans will defend the rights of the big monopolies, will charge the government with too much interference. This course can be accepted as the one the Republicans will pursue with its many contradictions and counter contradictions.

The Democrats are certainly occupied with their dilemma — are very adamant about human rights in Europe. They have recruited and equipped the largest fighting force America has ever had to insure the democratic rights of the peoples in Europe with force of arms, while in America they reel and cringing at the very thought of passing laws to insure equality of persons. This is the arch contradiction of our time.

You must make a choice between these two parties and work for your ideals in one or the other.

## SPARE STAMP 25, BOOK 4, NOW GOOD FOR TEN POINTS LAMB.

To permit immediate marketing of surplus Northwest spring lambs, the Office of Price Administration today announced validation of a spare 10-point ration stamp for lamb purchases in the Pacific Northwest over a 49-day period beginning Sunday, September 3, and through October 21.

The action was made public here by McDannell Brown, Portland district director, who said the OPA national office at Washington, D. C., had authorized validation of spare stamp 25 in war ration book 4 for the purpose.

Today's action, OPA officials said, will permit extra lamb purchases of an average of approximately two pounds each by Pacific Northwest residents during the 49-day period. Point values of lamb vary according to cut.

The point dividend will apply to the Portland, Seattle and Spokane OPA district areas, which embrace all of Oregon except Malheur county, all of the state of Washington, and the ten counties of Northern Idaho.

The dividend, Brown pointed out, will provide livestock men with immediate markets for surplus lambs over the entire normal shipping range for Northwest soft-fed lambs, which cannot be shipped to distant points for sale.

"The action of the national OPA office", Brown added, "is gratifying, for it recognizes the special problem of the Northwest livestock industry and provides quick and effective relief."

In announcing the lamb point dividend, the OPA emphasized that the spare stamp will be good for purchase of lamb exclusively.

OPA officials here pointed out that with the point dividend becoming effective September 3, the livestock producers will be able to begin moving their surplus lamb immediately from pasture to market.

## BEAUTY SHOP ADDS NEW PERSONNEL

### New Operators Fill Great Need in Portland

Mrs. Arthur A. Cox, owner of CHARLENE'S BEAUTY BOX, 1409 Williams Ave. (across from Fraternal Hall) announced this week that she had secured the services of three very efficient Beauty Operators. All three having had at least six years experience. With the addition of these cosmetologists, Mrs. Mallie Buckner, formerly of Chicago, Mrs. Kennedy of Los Angeles, and Mrs. Ophelia Clarady of Oklahoma City, a great need in the Portland area for the Ladies has been filled. The dearth of good operators has caused Mrs. Cox to go to a lot of trouble and expense to bring them here.

Each one is a specialist in her field. Mrs. Buckner intends to introduce to the ladies of Portland a new curl,—a Cold Curl that will not require any heat. Mrs. Cox is attempting to get for her shop a new kind of wave equal to the much publicized Permanent Wave. This new "Permanent" will have to be given only three or four times a year, which will mean a great saving. All that will be necessary for the ladies to get after once having been given this wave is a shampoo and curl.

Further improvement in service were also announced, the Beauty Box will be open from 10 a. m. to 7 p. m. every day except Sunday and holidays, with plans for the future, as soon as more operators are available, to remain open until 12 midnight.
