

Recent Changes In Veterans Deferment Rules

Under direction of the Office of War Mobilization and Reconversion, National Headquarters of elective Service made public today the following memorandum sent to all local boards:

Local Board Memorandum No. 115-I.

Issued 12-12-44.

As Amended 7-7-45.

Subject:

Registrants Who Leave Employment for Which Deferred in Class II-A or Class II-2.

1. **General.**—It is in the national interest for registrants who are occupationally deferred in activities in war production and in the national health, safety, or interest, to remain in their employment in such activities.

2. **Actions requiring change in procedures.**—This memorandum has been amended to comply with the following actions of the Director of the Office of War Mobilization and Reconversion and the War Department:

(a) On June 29, 1945, the Director of Selective Service received a letter from the Director of the Office of War Mobilization and Reconversion in which he directed attention to a copy of his letter of June 27, 1945, to the Secretary of War, reading as follows:

"I have considered the issues raised in your letter of May 30, concerning the induction of men under 33 'who leaves essential industry, who change jobs in essential industry without the authority of local boards, or who do not work in essential industry'.

"It is my understanding that you propose to continue the induction of such men provided they meet physical standards

prevailing at the time the registrant is presented for examination. Your proposal would merely discontinue the induction into the Army of men who are not physically qualified according to existing standards.

"In my judgment, the developments in both the civilian and military manpower fields since VE-Day warrant the change you propose, and it is therefore approved."

(b) Pursuant to the letter from the Director of the Office of War Mobilization and Reconversion, the War Department has notified the Director of Selective Service and Service Commands that the secondary call for July has been cancelled, and that any registrants who on or after July 1, 1945 may report at armed forces induction stations for induction in response to this call will be rejected and returned to the local boards from which they were forwarded.

3. **Procedures on and after July 1, 1945.**—In order to comply with the actions set forth in paragraph 2 above, section 622.22-2 of the regulations will be applied in the following manner:

(a) If a registrant in Class II-A or Class IIHB, except a registrant whose classification is identified with the letter "F" or "L", voluntarily leaves the employment, for which he was deferred without securing a deter-

mination from his local board favorable to such leaving, the local board shall take the following actions:

1) Reclassify him in the manner described in and subject to the provisions of section 622.22-2 of the regulations;

2) Forward him for preinduction physical examination in the manner described in section 629.2 (2) of the regulations;

3) If he is found, upon preinduction physical examination, to be qualified for general military service, the local board shall forward him for induction along with other registrants being forwarded on the regular call for men for general military service, and in accordance with the provisions of section 623.4 of the regulations, or assign him to work of national importance;

4) If he is under 26 years of age and is found upon preinduction physical examination to be "physically fit, acceptable for military service under the provision of AGPR-I 327.31 (26 May 45)" the local board shall forward him for induction on the separate call for men found to be "physically fit, acceptable for military service" in accordance with the provisions of Local Board Memorandum No. 77-F

and section 632.4-1 of the regulations, or assign him to work of national importance.

(b) If a registrant in Class II-A or Class II-B identified with the letter "F" or the letter "L" voluntarily leaves the employment for which he was deferred without securing a determination from his local board favorable to such leaving, the local board shall take the following actions:

1) Apply the provisions of Lo-

cal Board Memorandum No. 77-A or Local Board Memorandum No. 7-E, which ever is applicable, a local board believes that the registrant may be qualified for military service, it shall reclassify the registrant in the manner described in and subject to the provisions of section 622.22-2 of the regulations and forward him for preinduction physical examination.

3) If he is found, upon preinduction physical examination, (Continued on page 3)
