You Can Aid Your Government By:

WASHINGTON — The Government needs and asks its citizens in this second week of peace to:

(1) Continue to fight the danger of rising living costs by buying only what you need and at ceiling prices. Remember that 40 per cent of the price rise of the last war occurred after the armistice.

(2) Encourage merchant seamen to stay on their ships. Returning the soldiers, carrying supplies for devastated countries, and resumption of normal trade remain jobs ahead for the merchant marine.

(3) Stay at your post as a nurse's aide or return to professional nursing to help your local hospital handle record numbers of patients. Care of sick and wounded will require the services of military nurses for many months.

(4) Stick to your plans to help your local corps. Limited food supplies must not spoil, and farm labor will continue short until long after the harvest.

(5) Use your canning sugar economically. The Department of Agriculture will send you, on request, free directions for diluting it with safe substitutes. Sugar remains very short despite victory.
