Garrett Manpin, whose residence was burned a few weeks ago, is putting up another house, and expects to have it completed before cold weather sets in.

Vine Creek bought a fine span of gray mare of Knox Hoston the other day. One weighed 1475 pounds and the other 1223. The purchase price was \$333.

Dr. Belknap and his brother Harvey bought eight head of grade Galloway cattle of Mr. Sharp. In a few days they will have a fine herd of black cattle.

Remember the Thanksgiving dinner to be given at Firemen's hall by the ladies of the M. E. church. Come and eat some turkey and various other good things.

Next Friday Wm. Prime will sell forty head of fine stock horses at public auction in Prineville. Every one who wants horses will find it beneficial to be at the sale.

High Hater, of Beaver, was in town Tuesday buying supplies for the winter. From the amount he bought it looks as if he intended to have some one to help him out there.

A good portion of Prineville's inhabitants were taken by Samwell's dog show last Saturday; that is, they patronized it expecting to see something and were gloriously bilked.

A. Hackleman and J. J. Brown crossed the Cascade mountains from Albany last week, arriving here Friday. They found no snow in the mountains and the road in excellent condition.

C. Rogers, dealer in lumber, hides, grain and flour, north of Chococo, on Main street.

Notice—All persons knowing themselves indebted to the late firm of Stewart & Davis will please call and settle immediately and save costs as we will not wait any longer. STAWACK & DAVIS.

J. H. O'Kelly and family, of Hay creek, were in town this week. While here Mr. O'Kelly presented this office with a turpentine which weighed 16 pounds which was raised on his ranch at the head of Hay creek.

This week Surveyor Hoston and the viewers appointed by the court viewed and surveyed the new road from Henry Gray's down Eagle creek. The route viewed out is said to be an improvement over the old route.

This week G. Springer bought five full blood and grade Galloway cattle of Mr. Sharp. Mr. Springer already had some of the best horses in the county, and the cattle he has bought are as good as there are in Eastern Oregon.

Sheriff Booth was over to Mitchell last week and says that place appears to be thriving. Bob Misner is building a fine new house, and others are making numerous improvements. Every dwelling in the town except one is occupied.

Notice—The personal property belonging to the estate of David Prime will be sold on one year's time with approved security, interest 10 per cent, or 10 per cent discount will be allowed for cash in hand. Wm. Prime, Administrator.

Mr. Sharp will remain in Prineville a few days, not having disposed of all his cattle. Anybody wanting any of these excellent cattle should buy before Mr. Sharp leaves, as he will probably not bring another lot here for sale for some time.

Another pow-wow was held yesterday at the agency by the Indians to consult regarding their lands. It is said they want to keep the mountains to themselves for pasturage, and are dissatisfied with the lines of the diminished reserve.—East Oregonian.

Some time since a medium-sized canvas, leather-tipped valise was forwarded from Sweet Home to F. M. Amerson at Prineville. The valise has not been delivered. The parties who have it will please leave it at this office and receive pay for their trouble.

Eleni Faught, who has been in the sheep business in this county for a number of years, says sheep are doing better than he has ever seen them before at this season of the year. He has moved his sheep to the fall range and says they are increasing in flesh every day.

We are told that the Rock Point road is in condition for travel by all kinds of teams, but Ed Glenn wanted to haul a pound, sitting crosswise of his wagon, to Beaver, and went by way of Horsehaven rather than take the chance of getting across the gulch at Rock Point.

Geo. Millican arrived here from Eugene this week and is looking after his stock interest here. He reports having sold a number of cattle owned by Dr. Gosner and others living in this vicinity, forty miles on the other side of the summit of the Cascades on the McEnnis.

For the information of some of our readers we desire to state that the editor of this paper is also responsible for all articles that appear in these columns under a signature, and all articles not signed either by a real or fictitious name are either written by him or borrowed from some other paper. Also in justice to Mr. Geo. W. Barnes we don't want him to suffer for our sins or be accused of writing what we have written; we desire to say that he has not furnished an article for this paper, except in the shape of a communication, since the election of 1883.

J. H. White, the "Nationalist" lecturer (7) sent in a communication from Moway, and from what we can make out of his hieroglyphs we judge he wants to jump on to Postmaster Palmer's with both feet because his mail did not reach him on time. He also wanted a few copies of the Review containing his article to send to the postmaster general in order to have Mr. Palmer removed. No doubt what Mr. White would say would have "great" influence with the postal department (two-bit lecturers are usually influential—in their own judgment) and Mr. Palmer would be removed on his recommendation, but White neglected to enclose a check to pay for translating and publishing his communication, so his effort will be confined to the waste-basket.

A Clever Robbery. Last Tuesday night Andy Noble was robbed of \$17.50 in a way that showed the thief to have been both bold and clever. He went to bed about midnight in a room at the Cary House in which Vine Circle, Chas. Raquin and Wm. Hardin were sleeping. Before retiring he put his pocket book containing \$100 under the pillow of his bed, and put \$7.50 in silver, which was loose in his pocket, into a purse with \$11 in it, placed this purse in his pants pocket, threw them on without fastening the door. The next morning on arising he proposed to the other gentlemen that they all go and take a drink, but when he left for his parsonic and his pocket knife were gone. Some one had entered the room during the night and rifled Mr. Noble's pockets, but had been very cautious as none of the inmates of the room had been disturbed by the thief's visit.

Terrible Railroad Disaster. Shortly after 8 o'clock Wednesday evening of last week the overland Southern Pacific passenger train, going south from Portland, went down with the north end of the long trestle crossing what is known as Lake Labish, about five miles north of Salem. The engine was overturned and the engineer and fireman, John McFallen and "Fis" Neal, were killed. Three passengers were injured and nearly everybody on the train was injured, many of them quite seriously. About 120 passengers were injured, some of them having broken limbs and others being badly bruised. The disaster is supposed to have occurred from a rail having been removed from the track by wreckers bent on robbery. The matter is being investigated by the state railroad commission.

Our Wood Supply. Where Prineville shall get its wood in the future, is a question well worthy the consideration of those who expect to make their home in years to come. Already good juniper wood is becoming a scarce article, wood haulers being compelled to go out on the desert from ten to sixteen miles in order to get a good article, and at the present rate of consumption, about 1500 cords a year, this supply will soon be exhausted. Then the people of this town will have to either burn pine wood, which is an inferior fuel, or coal will have to be discovered in this vicinity. A small vein of coal has been discovered near the head of Chococo, and it is not unlikely that coal in larger quantities exists somewhere in the country, so let somebody go to prospecting.

Agency Notes. The following bits of news from the Warm Springs Indian agency are taken from a private letter dated Nov. 13: The Indian teamsters are keeping the road warm between the Dalles and the agency landing in government supplies for the year.

Dr. Smith, late agency physician, has been succeeded by Dr. A. W. Bothin, of Mt. Taber, a young man of much promise.

Rev. Joseph Alter and family, of Colfax, Wash., have recently arrived, being a missionary sent out by the U. P. board of Home Missions to labor among the Indians.

Always Enterprising. The West Shore has made marked improvements in its style and size during the past year, and is now everywhere recognized as one of the leading illustrated papers of the country. It is prospering so well that a fine building is being erected by the company to meet the demands for increased facilities for transacting business and getting out the paper. It will be in its new quarters early in the year, and further improvements will be made in the paper. This publication is so representative of the growing Northwest and so thoroughly identified with the progress of the country that every one ought to take it regularly. Special incentives, interesting to every one who reads, are offered by West Shore subscriptions. Apply to the postmaster for important particulars.

Entirely Satisfied. Hay Creek, Or., Nov. 14, 1893. This is to certify that Toll Thompson, special agent of the State Insurance Co., has adjusted my loss entirely satisfactory to me. GARNETT MAVER.

Hay Creek, Or., Nov. 14, 1893. This is to certify that Toll Thompson, special agent for the State Insurance Co., had adjusted my loss entirely satisfactory to me. C. MORGENTHAU.

Better Than a Gold Mine. Ten acres to fruit when in a bearing condition will yield an income of from \$2000 to \$4000 per year and requires no expensive machinery to operate it. A fruit raiser in Willamette valley requires but a small outlay, has all the advantages of civilization and cultured society, has good and convenient markets and receives a better income from the same investment than can be had from any other line of business. You can get this land from \$50 to \$75 per acre from the Oregon Land Company of Salem, Oregon.

Card of Thanks. Mr. and Mrs. Garrett Manpin desire to thank their neighbors for their kindness and assistance during their recent misfortune caused by the burning of their house.

The World Enriched. The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figa was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

Will Felted Felted. The other day a gentleman whom we know to be a warm personal friend and also a friend of our business enterprise, expressed the opinion that our stand against certain actions of the county court would injure the business of the Review. Possibly it may, but if telling the truth or taking a stand in opposition to what we believe is a wrongful and extravagant appropriation of money collected from the people as taxes will injure our business, then we are ready to lock up our office and suspend publication. If the acts of the county court are to be considered sacred that they must not be criticized, and if a paper cannot criticize them without suffering financially through the loss of patronage, we have no further desire to edit a paper in this community. Policy has never been the guiding star for us to follow. Whenever we have known of a public wrong we have exposed and condemned it, and this shall be our course in the future. Of all the public servants in any county the county court is most amenable to the people, and their acts should ever be open to criticism. They have the loving of the taxes and the expending of the county's money. If they are just in their actions no one suffers; if they are not the taxpayer has to suffer for their inebriety, and if a paper must suffer for lacking the people's knowledge of the county's inebriety, then we must suffer for the sake of consequences, we will let the truth be known.

Post Items. November 18, 1893. Plenty of fall grain is being sown. Col. and Mrs. Nye were visiting on the creek this week.

R. E. and Joan Darsey sent to the desert horse ride this week. Prof. White's lecture was not well attended on Newsum creek.

Mr. Knox started to Wolfcreek this week. The turn-table at the new bridge is finished. If a man has not too much grain aboard he can turn.

Messrs. Knox and Newman are both building new houses. Jas. F. Cox has become a resident of Newsum creek.

ITEMS OVER THE MOUNTAINS. Coyotes have killed one-tenth of W. D. Castle's band of sheep.

The dance at Ben Hinton's was a success. There were about 50 of the boys and 112 of the girls present. The half was Jiff Woods. He was an ape on the strings and was too short. He can't play Boley worth a penny.

ADVICE TO MOTHERS. Mrs. Winslow's SOOTHING SYRUP has been used by mothers for children teething for over fifty years with perfect success. It relieves the little sufferer at once, produces natural, quiet sleep, soothes the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste, soothes the inflamed gums, relieves pain, and relieves the mother's anxiety, and is the best known remedy for diarrhea, whether arising from teething or other causes. Twenty-five cents a bottle.

Notice. After this date I will be in Prineville only during the week following the first Monday of each month. Persons wanting dental work done will govern themselves accordingly. C. A. CLINE, October 23, 1893.

NEWS SUMMARY. Diphtheria is raging in Grant county, along the John Day river, and at Long Creek.

Sarah Althea Terry is again in trouble. She slapped her attorney's face in the court room at Fresno the other day.

James Scott, of Eugene, was knocked down and run over by a bicycle rider the other day and one of his ears nearly torn off. What became of the bicyclist is not stated.

The assessment roll of Linn county for 1890 gives the gross value of all property to be \$9,027,740; indebtedness, \$1,964,946; exemptions, \$563,766; taxable property, \$6,499,028; number of polls, 1835.

The Sumpter Valley Railroad Company will soon commence the erection of their sawmill in Baker county, with a capacity of 1,000,000 feet of lumber per day. They will also erect a box factory and planing mills.

The farmers of the Palouse country find it impossible to sell their wheat, all the elevators and warehouses being full, and the railroad company it is said will not be able to move all the grain from that country before January, 1892.

Messrs. A. H. and Allie Quain, of Seio, and G. P. Warner, of Albany, have perfected and received a patent upon a principle for high grade water power, which is intended to utilize such falls as the Willamette at Oregon City or the Niagara.

Many tracts of land in this valley, says the Grant county News, which have been fenced and claimed along with other possessions of the rancher without being secured by title from the government, are being jumped by various parties, who will prove up on the same in due time.

The workmen have completed the false work for the Springfield bridge across the Willamette and are now putting up the iron work. Nine car loads of iron have been received and the remaining two are on the way. If there is no further delay teams can cross the bridge by the 1st of December.

It is said that a tall, broad-shouldered Irishman, with a cartridge belt and six shooter, made the rounds in Pendleton one night last week in search of Hank Vaughn, swearing he would shoot him on sight.

It is reported in Pendleton that a case of smallpox had been discovered at Mrs. Turrell's lodging house caused a brief sensation and was brought to the notice of some of the city council. They sent a physician to investigate, who found that the supposed case of smallpox was merely one of measles. The patient is a woman.

Last Sunday, at the Beaver Creek school house, near Wilhoit springs, during church services, James Inman got into a row with his nephew, Andrew Mezingo, and struck him over the head with a club, from which injuries he died Tuesday night. The trouble, says the Clackamas county News, was an outcome of an old feud for which "hell's half acre" is noted.

A man by the name of Carey stole a horse, valued at about \$200, from Jim Benson's ranch on Five Mile, Wasco county, on Monday night of last week. Tuesday morning the horse thief went to the Dalles and attempted to sell the horse for a small amount, this aroused suspicion, and after investigation it was discovered that the animal was stolen property, and the man was taken in charge by the sheriff.

The commissioners, consisting of O. M. Scott, R. F. Gibbons, and George H. Thompson, appointed by the legislature to ascertain the amount of Wasco county's indebtedness to be assumed and paid by Sherman county, which was cut off from Wasco, have agreed upon their report to be submitted to the county court of each county, and find that the amount due Wasco county from Sherman county is \$6696.86.

A case of speedy justice is reported by The Dalles Times-Montaineer: Tuesday of this week a man by the name of Bernard was arrested for horse stealing. The same day he was examined before a justice of the peace and held to answer the charge before the grand jury, and the latter body the same day found a bill against him. Immediately afterwards he was tried, convicted and sentenced to the penitentiary to a term of three years. So this crime was committed, conviction had and sentence passed within twenty-four hours.

FOR SALE. \$1500. Three hundred and twenty-five acres partly in sheep ranch. Here is a chance for a good sheep ranch; sales range in the country; one-half cash, balance on easy terms; must be sold. Address HENRY HAHN, Prineville, Ore.

\$2500. One hundred and sixty cattle and horse ranches in Crook county; absolutely controls the county; tract of 4000 acres, with water on a part of it; this is a grand opportunity to buy a choice range property; \$1500 cash, balance on easy terms. Address HENRY HAHN, Prineville, Ore.

\$1000. One hundred and sixty acres; partly timbered; best water in the county; plenty of good range surrounding it; one-half cash, balance on easy terms. Address HENRY HAHN, Prineville, Ore.

\$800. Eighty acres; fine land; magnificent spring of water; timber land and good range surrounding it. This is a desirable small stock ranch. One-half cash, balance on easy terms. Address HENRY HAHN, Prineville, Ore.

NOTICE OF FINAL SETTLEMENT. Notice is hereby given that the undersigned, administrator of the estate of Shields Loney, deceased, has filed his final account of his administration of said estate, and Hon. J. C. Sumner, Judge of the County Court of the State of Oregon for Crook County, has set 1 o'clock P. M. of Monday, the 23rd day of November, 1893, at the court house of said county, in Prineville, as the time and place for the settlement of said account, at which time and place any person interested in said estate may appear and file his objections to said final settlement. H. TAYLOR, Administrator. Dated October 23, 1893.

FARM FOR SALE. 150 acres of land located on the main road from Prineville to The Dalles, 15 miles from Prineville. All good rich soil with the exception of a few acres in the timber, nearly all under fence, good house and barn, living spring capable of furnishing water for 100 head of stock, convenient to timber and range. Price, \$2200, \$300 down and \$400 on one year's time, secured by mortgage. Address J. A. DORRITT, Prineville, Or.
