Wild West Band Coming.

Prater Kalana, leader of the Wild West Brass Band, of Warm Springs, has written to George Summers that he will be in Prineville with his company of musicians on the Fourth, and that the band will be prepared to furnish music for the celebration. This band is composed entirely of Indians belonging to the Warm Springs reservation, and they are said to be accomplished musicians. This will certainly form a novel and interesting feature of the celebration, as a brass band composed of Indians is something few have seen or heard. While the Indians are here an effort will be made to induce them to render the "ghost dance," indulged in by the Sioux last winter.

Considerable of a Breeze.

An infant cyclone visited Combs Flat on Friday afternoon of last week, and gave the school house in the Gray district quite a severe shaking up, lifting it off its foundation and moving it about three feet. It is a double-box building, 18x26 feet, and must have required a considerable force to have moved it. No material damage was done the building except to the floor and windows and a few of the desks. Charles Lewis, the teacher, was hearing a recitation at the time the wind struck the house, but had no time to dismiss the class before the pupils deserted. Fortunately neither teacher nor pupils sustained any injuries by the accident. The citizens of the district had the damages to the house repaired so that school could be held on Monday.

A Human Monstrosity.

A case was brought before the Lane County Medical Society Monday that puzzles all the physicians and there is not a similar case on record. It is a child four years old living at Cottage Grove. One half of its body is larger than the other, the right side being larger. The dividing line is through the center of the nose and through the entire body exactly in the center. One eye is larger than the other, one side of the nose larger than the other side, one arm and one leg larger and longer than the other arm and leg and one foot larger than the other. In addition to this peculiar growth is a tumor in the stomach, and by its growth the heart has been pushed up nearly into the throat and the liver has been pushed over to where the heart should be. The child has been in this condition since birth and as the doctors can do nothing for it, life will be short.—Eugene Register.

Outrage at The Dalles.

A horrible outrage was perpetrated on the person of Mrs. Poorman, a lady of The Dalles who is 70 years of age. The scoundrel who committed the outrage entered the house by breaking the sash of the window and the noise a raking of the old lady, she hastily got out of bed and seizing a pistol fired at him unfortunately missing; he then took the pistol from her and succeeded in accomplishing his fiendish purpose breaking her ribs in the struggle. He has been apprehended, and the evidence is very strong against him. Such outrages as this are getting to be of frequent occurrence, and men of that stamp should be branded "ravers" on the forehead so that helpless females cannot be deceived by their suave and affable manner.

The Best Company.

Every conservative man insures his property against fire, yet there are many who carry no insurance on their lives, the most valuable property they possess. The Northwestern Mutual Life Insurance Company offers the best rates of any responsible old-line company in the United States. It pays the highest dividends and its premiums are the lowest of all the mutual insurance companies. For further particulars inquire of J. A. Douth, local agent for Crook county.

Struck It Rich.

Last week John and Dave Elliott were rustating in the Ochoco mines, and discovered a ledge of decomposed quartz near the head of Watkins gulch which has been the richest prospect that has been struck in Crook county. An assay of the rock from the top of the ledge showed \$100.04 of gold to the ton. A prospect pan full of the decomposed rock taken a foot from the surface yielded about one-eighth of an ounce of gold. The ledge shows to be four feet wide at the surface, and is free milling ore. The discovery was a mere accident, the ledge having been uncovered by the washing of water that had come down the gulch from an overflowed ditch this spring.

An Exaggerated Account.

It is not often the Oregonian is caught by a visionary correspondent, and therefore caused to publish fictitious "news," but some one here has evidently led the great daily astray in furnishing it an account of the shooting of Allen Henry by B. Isenhoot. The Oregonian of the 23d is informed by a letter from Prineville as follows: "Thursday last Isenhoot walked into Templeton's drug store, and presenting a revolver, began firing on Henry without a word of warning. Henry was shot in the left side just below the heart, the ball lodging in the heart. Dr. Gesner extracted the ball and thinks that Henry will recover."

Whoever the writer of the letter is, he certainly has a fertile imagination, and he has credited Dr. Gesner with having performed a wonderful operation, that of removing a pistol ball from a man's heart. It is a big advertisement for Dr. Gesner's skill, but doesn't speak well for the truthfulness of the correspondent.

Beats Crook County.

Valley City, N. D., has a curiosity in horse flesh that is simply astonishing. He is a sorrel, stands full nineteen hands, or six feet four inches high, from floor to withers; his legs are three feet six inches before touching his body, and a small bronco can easily walk under him. A man six feet in height can't see over his back, even when standing on tiptoe. In length he is full thirteen feet, or seventeen feet from tip of nose to tip of tail. When standing with his head as ordinarily checked up a six-foot man, by standing on tiptoe, can just touch the base of the ear. This animal is a little larger than anything that has yet been produced in Crook county.
