OCHOCO REVIEW.

SATURDAY, MAY 21, 1892.

LOCAL, PERSONAL AND GENERAL.

Salmon bellies at the Brick store.

Bacon wanted. Enquire of M. Siebel & Co.

Thomas Lister was on our streets this week.

The spread of diphtheria is feared in The Dalles.

The long looked for warm weather has come at last.

Henry Carlin, of Deschutes, was in town during the week.

Miss Mary Taylor, of Squaw creek has been in town this week.

Call at Fuller & Co's if you want fine crockery or glass ware.

Trout flies and fishing yarns are making their appearance in conjunction.

This season bids fair to be a repetition of last in the way of bounteous rains.

Billie Palmer and Ora Poindexter went to Pickett island on Deschutes this week.

A number of wool buyers are in The Dalles, but the market has not opened yet.

This week Nye & Allen turned over to Watson and Martin 500 head of mutton sheep.

Last Tuesday Mr. Carmical completed 2 rods of the Prineville Irrigation Co's ditch.

Jas. Circle, who has been quite sick for some time past, is again able to be about.

Miss Ilma Dodson was compelled to close her school this week on account of sickness.

Mrs. G. W. Slayton went over to Squaw creek the first of the week to spend a few days.

Rev. P. W. Rhoads will hold divine services at Union church Sunday at 8 p. m. All are cordially invited.

Go to Conly Bro's saloon if you want to get a schooner with cidebourds, accompanied with an excellent lunch.

Frank Wheeler returned from a fishing excursion on the Deschutes this week, and reports having good success.

This week B. F. Nichols and his granddaughter, Miss May Hulbert, went to the Deschutes for a few days outing.

Mr. J. F. Moore, democratic candidate for prosecuting attorney, is in the city today interviewing the faithful.—*Dalles Chronicle.*

On May 12th there were 400 sacks of wool received at Moody's warehouse, and the export trade may be said to have fairly begun.

Jno. Colver, who is running the Provence saw mill, was in town this week. He says the crops in that neighborhood are very backward.

James Stuart, of Upper Crooked River, was in town last Saturday, and says that the increase in his flock of sheep amounted to about 85 per cent.

The races this week were viewed by many spectators, some of them wending their way homewards with nothing out a winter lot of experience.

A fine farm of 160 acres located on Willow creek for sale on easy terms. For particulars call at this office. See advertisement in another column.

A. M. Kennedy, of Texas, who is looking over Wasco and Sherman counties with the view of locating, says the rain making scheme is an absolute failure.

W. H. Fuller and D. F. Stewart and family starts to Pickett island on a fishing excursion today. We expect to hear a truthful report on their return.

W. A. Booth and Geo. Gibson returned from Salem last Saturday where they had been to introduce Thomas Pooler to his new home, the Oregon penitentiary.

Last week Mr. Douglas, the mutton buyer, started to Nevada with a band of 700 head of mutton sheep. The sheep were purchased of the B. S. & L. Co. of this county.

The well known Springer horse, Douglas Clyde, will make the season at Hines & Dillon's feed yard. Terms reasonable. Mares left in our charge will be taken care of at reasonable rates.

J. J. Shafer, Oliver Powell and family, who have been at this place during the week past attending the baptist association, left last Sunday for their respective homes in Sherman county.

The county seat fight in Sherman county bids fair to be hotly contested, but from what we can learn Moro will be satisfied to wear the victor's crown, as it should, after the 6th of June next.

John Stevens informed us that the sheep belonging to himself and brother, Henry, had been sheared and that they averaged something over 7 pounds to the head, and their increase was about 75 per cent.

Jack Splawn and Courtney Myers, of Yakima, Wash., will be here about the 10th or 15th of June to purchase cattle. Those who have cattle to sell will doubtless meet with an opportunity to dispose of them to these gentlemen.

Anyone desiring to purchase thoroughbred Short Horns or Herefords, will find just what they want by calling at the ranch of S. M. Johnson at Alkali flat this county. These cattle came from A. H. Johnson's herd of Portland.

Perry and Frank Poindexter returned from a fishing outing last Sunday. They reported having have very good luck, succeeding in hooking something over 350 of the wily trout family, though their catches were all of the juvenile order.

Minor Lewis and family left Prineville last Tuesday. They will go to Dayton, Wash., and will perhaps locate there. The numerous friends of Mr. Lewis and family hope they will have pleasant surroundings wherever they may locate.

Grant Mays, of The Dalles, came into town Wednesday evening, changed his raiment, went to the dance, had a pleasant evening and left the following morning. Mr. Mays is a pleasant, affable gentleman and readily makes friends everywhere he goes.

From the Fossil *Journal* we learn of the largest sale of wild horses that has been made in the bunchgrass region for some time. The sale was made by Jno. Switzler of Umatilla county, to an Iowa buyer. He sold 18 car loads at an average of $20 per head.

Last Friday evening the friends of Gardner Perry gave him a pleasant surprise party at the residence of his father. It will be a happy remembrance to Gardner on his long, dusty trip to Reno, Nevada, where he goes with Mr. Douglas with a band of mutton sheep.

The engagement of Lorchen Siebel, sister of the Siebel Bros. of this place, and Leo Bertls is announced. Both the contracting parties live in Bavaria, Germany. M. will soon start back to the old country, to be present at his sister's wedding and we confidently expect to be able to announce another engagement.

Jay Gould's mother-in-law is said to be living in a poverty-stricken district of Portland, Or. She is poor in all that the word implies, but is too proud to apply to her grandchildren for aid. She came from Missouri to Oregon with the early tide of immigration and has resided here ever since.

J. D. Labilliet returned from Lakeview last Monday. He says the weather is very cold out there, and that vegetation is very backward in that county this spring. Mr. Labilliet was informed by a number of sheep men of that county that the increase in their flocks would not exceed 55 per cent.

Try Dr. Grant's Syrup of Wild Grape, the great blood purifier and system builder. This preparation is composed principally of native herbs and roots grown in our Oregon soil. It is purely vegetable in its composition, and will thoroughly cleanse all impurities of the blood. For sale by all druggists.

Proclamation to all who suffer from dyspepsia and its kindred ailments: Know all ye, that there exists a sure, [illegible] wonderful remedy, Cuxalo, will positively effect a cure in all cases wherever used [illegible]. Every bottle is sold under a positive guarantee. It will be found invaluable in all stomach troubles. Signed, CUXALO, King of Dyspeptics.

A force of men are working in Moody's warehouse baling wool. Arrangements have been made for the baling of [illegible] the [illegible] of Gilliam county clip. It is claimed by grading the fleeces and placing them in compact bales, they are put opened in the Boston market, and there is a saving in freight. The bales will weigh about 550 pounds, and are much convenient to handle than the sacks.

There is going to be trouble and delay in the Australian system of voting. Every worker at the polls ought to have copies of tickets and the names numbered so that when a man, who don't know better, is going to vote, he can use a memoranda and make his mark opposite the number according to copy—otherwise there will be many a ticket lost for marking the wrong name.

Lum Woods and Wm. McMeekin are on the Deschutes fishing, or rather overseeing Steve Jones whom they are paying $2.50 a day to catch the fish for them. When they return they will regale their listeners by the hour on the science of trout fishing, and the wonderful luck they always have. Remember gentlemen that we have reporters in all parts of the county.

Hogs are in demand around Oak Grove, as they are used as an exterminating agent on the myriads of crickets that infest that country. The hogs are kept in close, dry pens over night so that when they are released in the morning they have ravenous appetites and devour the crickets voraciously. In many instances farmers have [illegible] droves of hogs of their neighbors to wage war on these little pests.

People of Lakeview are good judges of human nature. Jas. Labilliet informed us that he was sized up as a republican while in that town, and that a certain senatorial nominee took it as a foregone conclusion that he belonged to the same political persuasion as did he. Jalmoth has all the symptoms of a republican, but he affiliates with the democratic party, caused no doubt by coming in contact with so many of that faith in this county.

Sheriff Booth returned from Mitchell Thursday with the information that a young man herding sheep for the B. S. & L. Co between Bear creek and Bridge creek, had accidently shot himself with a pistol. It seems that he dropped the pistol on the ground and the muzzle being up when it was discharged, the ball entering the leg just above the ankle and ranging upwards lodged in the thigh, where it was removed by Dr. Coulter of Mitchell.

Two carloads of Russian immigrants arrived recently in Endicott, Wash., where a number of their countrymen had already settled. There were 63 of them, all members of the same family. They confirmed the reports of starvation and distress in Russia. The United States, they heard, had sent meat for their relief, but only bones reached the people—the rest was stolen by officers. The party was four weeks making the trip, and when they left Russia there were six feet of snow.

School Superintendent McElroy, who has in charge the Oregon educational exhibit at the World's fair, has appointed the following officers of the executive committee: Professor I. W. Pratt, of Portland, president; J. B. Hawthorn, of Eugene, secretary. The Oregon exhibit will occupy 3380 square feet of floor space and be under eight heads as follows: Department blanks, kindergarten work, elementary schools, specimens from all institutions from intermediate and high schools, from commercial schools, from normals and from academies and universities.

The Races.

A large crowd had gathered on the race track by 2 o'clock Tuesday afternoon to view that day's races, which consisted of a saddle horse race and the trotting race. In the saddle horse race there were four entries, Pluto, Billie O'Neil and Jeff being the competing horses. The start was delayed and there were several break-aways. When the flag was dropped for good, Pluto hove to the front winning easily.

Three entries were made in the trotting race. Siebel's horse Ben romped away from his two competitors shutting them out in the first heat.

The most interest was probably taken in the three-eighths race which was run on Wednesday. The horses entered were Wm. Tell, John Hall, Bird and Foster. After several breaks the horses were sent away with a very good start. On the first turn had, the big plow horse from Harney, showed a wonderful burst of speed, surging to the front, but the pace was too rapid for him, and to the financial sorrow of many, he was the caudal appendage of the race from that on. Tell came to the front with Foster a close second and when they entered the stretch both riders took to the whip. A short distance from the finish Foster began pressing Tell hard finally shoving him [illegible] hands, when the superior riding of Backus in the last few strides sent Tell home a winner, by a few feet, amid the wildest cheering from the spectators.

The last day's race—onehalf mile dash—was easily won by Prince. In this race three horses faced the starter's flag Foster, Prince and Pansie. Some time was spent at the starter's stand, Foster evidently remembering the punishment he received, and not caring to have a repetition of it, was hard to bring to the score. They were finally sent off, Prince at once going to the front and continued to widen the gap between him and his competitors from the start to the finish. It was a surprise to many to see the speed shown by Hamilton's horse, and many of our local sports will remember in the future that he is indeed a race horse.

A Close Call.

One day last week Wm. Barnes, of Silver Lake, while fishing on Deschutes came to a place on the river that he could not pass without climbing a rocky bluff. In ascending this bluff he placed his hand on a projecting rock, and upon bringing his eyes upon a level with the rock, he saw a cougar lying secreted among the large boulders not three feet from him. Needless to say Mr. Barnes was greatly startled on discovering the close proximity of his companion and he did not discuss the right of possession with him. Mr. Barnes stated that he showed his molars in a very unfriendly manner, so much so, that he called to Frank Poindexter, who was on top of the bluff, to engage the animal's attention while he finished the ascent of the bluff. The last seen of the cougar he was entering a cave among the rocks.

A Mystery Cleared Up.

The Albany *Herald* recently contained an account of the disappearance of Sam. McElree, of Peoria, Linn county, from Portland on April 6th, where he had gone as a delegate to the state convention. After diligent but unsuccessful search of a month the mystery has at last been cleared up by the finding of his body in the river at Portland. It was found floating near the foot of Jefferson street Friday evening. McElree lived at the house of his brother-in-law, J. R. Campbell, during his stay in Portland and the last time he was seen there was on the morning of the 6th of April. About twenty minutes after he left the house, an old man who was fishing near the old city water works thought he saw a man struggling in the water some distance below him. The man he thought he seen was in all probability McElree. As McElree's watch and $57.25 were found on his person there is no suspicion of foul play. Mr. Campbell is satisfied he committed suicide, as he had been subjected to melancholy spells for some time. As he was a man in good circumstances, however, there is no reason why any thing should have troubled him. The deceased was 45 years of age and single. He was a Mason in good standing, and also a member of the G. A. R.

Why He Had to Sue the County.

In answer to a communication in last week's REVIEW signed "Voter," requiring why I had to sue the county for my salary as stock inspector, I have this to say: That the board of county commissioners considered that the duties of inspector did not justify the salary provided by law and refused to allow the same for the quarter ending April 1st, 18[illegible], I accordingly brought suit in the [illegible] court and received the lawful salary, with the costs of suit.

J. H. GRAY.

Prineville May 14, 1892.

A Conjugal Difference.

Last Sunday a warrant was placed in the hands of Sheriff Booth for the arrest of David Enyart, on the charge of assault with a dangerous weapon on the person of Mary Enyart, his wife. Sheriff Booth and Deputy Cohrs arrested Enyart near the McPherson place, about 35 miles north of Prineville, and arrived here Sunday night with the prisoner. Enyart was arraigned before Justice Bell last Monday, and from the evidence the following facts are gleaned: Enyart and wife, some time prior to his arrest, had been living near Bend, on Deschutes, and they had a couple of old, weather beaten ponies which were running in the pasture of a neighbor living in that vicinity. The worldly possessions of this man and wife consisted of the aforesaid ponies and a little spotted dog, for which they asked $1.50, but Mrs. Enyart seeing a calico dress pattern that suited her fancy, decided to take the same for her little purp, and the morning following the goods and chattles were exchanged. That same morning Enyart and his wife went to the pasture to catch their horses, when Mrs. Enyart seeing a favorable opportunity to give her lord and master the slip, started for pastures greener and scenes newer. Enyart, discovering the absence of his wife, hallooed to Mr. Zell, who was on the opposite side of the river, and informed him that his wife had run away and that she was subject to spells of insanity but would not be at all violent when found. Search was at once instituted for the missing woman, and after the lapse of two or three hours she was found secreted among the rocks on a steep hillside. The husband, when he arrived on the scene, did then and there draw a most villainous looking knife and ferociously threaten to cut her throat. They started up the hill, Enyart cutting a pine limb with which to accelerate her movements, and ever and anon smiting her with it, interspersing these blows with slight admonitions from the toe of his boot. This and much more was brought out in evidence and after the hearing of the same, Justice Bell held the prisoner in the sum of $500.

The prisoner became very wrothy in the court room, attempting to strike his wife with a large book, and threatened to do bodily harm to the man who informed against him, and give the court and attorneys a free lecture upon his ideas of justice. After finishing his tirade of blaspheming a revulsion of feeling came over him and he did most copiously weep because he was not allowed an interview with his spouse before she went on the witness stand. He will have an abundance of time to reflect over his misdeeds between now and next October. He is a very wicked individual, but methinks it would have been well to have let them gone in peace as they were leaving the country as fast as their quadrupeds could take them.

Close of the Willow Creek School.

Last Saturday was a day long to be remembered by the Willow creek school and its patrons. From half past eight in the morning until eight in the evening some one dressed in their Sunday's best could be seen coming to, or going from the school house, in order to witness the last day's exercises. The exercises of the forenoon were conducted in the usual form, in hearing recitations; but as the bell was tapped for noon, a few of the parents, who had been loitering around the house, unknown to its inmates, thought they would surprise the school, rushed in with well filled baskets, and took possession of the house and its inmates. A temporary table was hastily constructed and the contents of the baskets were soon spread. After dinner school was again called, a few recitations, and a short address by the teacher, when it adjourned until evening for the exhibition. By dark the house was packed to its utmost and about 9 the programme, which consisted of lessons, songs, dialogues etc., was exhausted. [illegible] Montgomery received a prize as the homeliest man in the house and Miss Leora Montgomery was voted the handsomest lady present. The exercises concluded with a broom drill by a number of young ladies in uniform.

Attention ladies! Eyes Front on this Local.

All who are affected with diseases and complaints peculiar to the female sex should use Dr. Grant's Native Discovery. It is sold under a guarantee to effect a cure. It possesses valuable tonic qualities, toning and building up the entire organic system. It is for sale by all druggists.

Use Dr. Price's Cream Baking Powder.

IF YOU WISH TO AVOID THE TWIN DRUGS, ALUM AND AMMONIA

Dr. H. Endemann, for twelve years chemist of the New York Board of Health, in his paper read before the **American Chemical Society** at Washington, in October, 1891, states that an ammonia baking powder acts on the gluten of the flour, altering its chemical properties, and cites numerous high authorities to prove its injurious effect on the stomach and kidneys.

Liebig the great chemist says: "The use of alum in bread is very injurious, and it is very apt to disorder the stomach and occasion acidity and dyspepsia."

The following powders are known to contain either ammonia or alum or both: *Royal, Chicago Yeast, Calumet, Bon Bon, Taylor's One Spoon, Unrivaled, Forest City, Snow Ball, Pearl.*

A Boon to the Afflicted.

Dr. Grant's Kidney and Liver Cure is a positive specific for the cure of Bright's disease, diabetis, billiousness, sick headache and all kidney and liver troubles. To the aged it is particularly adapted. It is on sale at all drug stores, is prepared with great care at the laboratory of Dr. Grant in Portland and it should not be compared with the many nostrums in the market, as it is the prescription of a physician of many year's practice in this particular class of diseases.

A fine stock and hay ranch on Upper Ochoco for sale on easy terms. Enquire at this office.

Entrance to be added to purse in all these races.

Shorthron Bulls for Sale

Four thoroughbred Shorthorn Bulls, imported from Kentucky by S. J. Newsom in 1890, will be offered for sale, and one of the herd will be stood in Prineville during the season of 1892. Following is the pedigree of one of the bulls, and the rest are similarly bred:

PRIMA DONNA'S DUKE.

Calved September 11, 1889, bred by R. M. Fisher, Danville, Kentucky, owned by S. J. Newsom, Prineville, Oregon.

[illegible]

Got by 2d Duke of Foggathorpe, [illegible]

Out of Prima Donna 11th, by 2d Bell Duke of Lyndale [illegible]

Prima Donna 7th, by Imp. 2d Duke of Wilton [illegible]
Prima Donna 2d, by Sir Giles [illegible]
Prima Donna, by Royal Oxford [illegible]
Priceless, by Prince of Oxford [illegible]
Peerless, by Grand Duke [illegible]
Imported Pearl, by Grand Duke [illegible]
Imported Pink, by 2d Duke of York [illegible]
Marigold, by Raspberry [illegible]
Bright Eyes, by Sir Richard [illegible]
Queen Bess, by F. Cabana [illegible]
by Admiral [illegible]
by Young Denton [illegible]

I hereby declare that the foregoing pedigree is true to the best of my knowledge and belief. R. M. FISHER.

Dated June 27, 1890.

Those desiring to breed cows to any of these animals, or wanting to purchase are requested to call on JERRY SCHOOLING, Manager, at Newsom's Feed yard.
