Since the state taxes for 1932 have been paid, Sheriff Booth will probably be able to accept a greater proportion of obligations to the county in scrip, as the county cannot well refuse to accept its own paper in payment of debts owing it.

description, will be sent free by the Chicago Weekly Inter Ocean to anyone who will send one 2 cent stamp for postage. Address: Librarian, Inter Ocean.

It seems that we were in error last week in saying Elder Crouch had borrowed 150 from members of his congregation. We are now informed the money he received was in payment of his salary. But this even does not excuse his hasty exit from this place, however it will not leave the reproach on his character of having obtained money by fraud.

The directors of this district are considering the advisability of having a month or two of free school, beginning with the first of the year. The district is entitled to about \$150 from the state fund, if it is apportioned by the state treasurer as was proposed when the August apportionment was made, and if this is received, a free school for a short time will be possible.

Prineville is certainly the best place in the world to dispose of "chips and shorts." If a person has anything he wants to get rid of, here, all he has to do is to put it up at rates and away it goes. Almost every conceivable thing has been disposed of here within the last year, and the last was a pair of elk horns put up last Monday night for \$10 and raised off.

John Templeton got home Monday from his duck hunt at Silver Lake, disgusted with himself and with the lake as a hunting ground. He don't want to go there any more. His companions, the Paulester boys and Leslie Vanderpool, were not satisfied with the result of their hunt on the lake and returned by way of Upper Deschutes. They were expected home last night.

Last Sunday Davil Young, the old gentleman who has been a county charge for the past twelve months, died at the residence of Mrs. Ford in Prineville. Nothing is known of the old gentleman's history more than he was a Scotchman by birth, and had followed sheep herding in Eastern Oregon for a number of years past. He was suffering from paralysis, and for nearly a year had not been able to walk on himself.

The parents of little Gladys Miller, who was supposed to have been stolen from her home near Summerville by a couple about two years ago, believe they have heard of the little girl in Ohio. The child is in possession of a band of eyeglasses who can give no satisfactory explanation of her presence with them, and photographs resemble the last child. Mr. Miller has gone to Ohio to recover her if she proves to be his lost daughter.

J. D. Parrish, proprietor of the Dallas and Prineville stage line, has received orders from the department allowing him to carry the mail direct from Lakeview to Prineville, leaving Antelope to be supplied by a side line. This will insure a more certain service, as during the winter months the road by way of Antelope is liable to become impassable at any time, and cause delays in the delivery of the mails here.

George Bolshaw, an Oregon planter, aged 75 years, died November 29th, at the home of his son in Farmington, Wash., where he had been for a short visit. Mr. Bolshaw was one of the best-known wheat growers of Oregon. His wheat took the first premium at the world's fairs at Philadelphia, New Orleans, Paris and Chicago. He had also several medals and diplomas from state fairs and other exhibitions.

Whiskey did a bad job in the case of R. L. Metcay, who was found dead at Salem Friday morning from the effects of his Thanksgiving carousal. The Metcays—there are six little children, one scarce 2 months old—had their Thanksgiving dinner happily together, although they are poor. Home wasn't good enough for Metcay, so he went down to the saloons, and the next time his wife saw him was when she stood, babe in arms, weeping over his body at the morgue. He had a job promised this week, but now the family is sadly destitute. There's a condensed temperance lecture for you.

A series of lectures on the prophecies and other Bible truths are being given in Union church, meetings every evening at 7 o'clock. The following are some of the subjects that will be considered: "Second Coming of Christ," "Signs of His Coming," "Is the End Near?" "Conversion," "Life in Christ," "The Law of God," "Sabbath of the Lord," "Who Changed the Sabbath, and When?" "Our Own Country in Prophecy," "Union of Church and State," "Religious Legislation and its Results." Come and hear.

The good work of prosecuting smugglers still goes on in the isolated court at Portland. Nat'lum has confessed his guilt, and having executive clemency, will get a long term in the penitentiary. William Dunbar, Blain's partner in the business, has been convicted on a number of counts, and in time Jim Lotan and the rest of the gang will have an opportunity to explain why they should not put on the stripes. If U. S. District Attorney Murphy don't lose his grip, he will eventually bring all the opinion strongholds to justice.

The editor of a paper at Storm Lake, Iowa, is now taking in a swamp near that place in consequence of the way in which up to the reports a cattle show and a cement. His paper said: "The cement given last night by sixteen of storm Lake's most beautiful young ladies was highly appreciated. They sang in a charming manner, winning the plaudits of the entire audience, who pronounced them the finest best short ladies in the country. A few are of a rich brown color, but the majority are spotted brown and white. Several of the heiress were able-bodied, fine limbed animals, and promise to prove good property."

Have You a Back Ache? If so, Dr. Grant's Kidney and Liver Cure will cure you. It will also cure Bright's disease, diabetes, inflammation of the bladder, yellow water, enuresis or bed wetting, burning urine, back ache, neuralgia, and all diseases of a like nature. It truly is the greatest gift to the aged, and sold by Templeton & Son and Belknap & Son.

Two Little Ones Gone.

This week it is our sad duty to chronicle the death of two little household treasures—two little flowers that were permitted to bloom and grow for a time as one oasis in the desert of life, but who were cut down all too soon, and have left only an aching void in the hearts which once they lighted.

On Sunday, December 3d, Herman, youngest son of Mr. and Mrs. L. W. Woods, aged 2 years, 5 months and 5 days, closed his little life, and was laid to rest on Monday. The funeral services, conducted by Rev. Edward Baker, were held at the M. E. church.

And on Monday, December 4th, Mr. and Mrs. D. A. McDowell's little daughter, Cynthia Emmaline, aged 2 years and 4 months, departed this life, the funeral taking place from Union church on the following day.

It is sad indeed that the convictions should thus be taken from prisoners, and leaving behind a void which is never filled. The little ones are gone, never to return, but the memory of their bright faces and childish prattle will ever remain fresh in the minds of the beloved parents.

A Comparison.

Eastern Oregon has many draw-backs, but most of them can be overcome by man. Nature has done much for this country, and it will stand the test of comparison with other places which are considered favored. Especially is this true as to climate. Last Saturday was almost like a spring day in Prineville, while they were experiencing very severe weather in places east of the Rockies. A dispatch dated at Chicago, Dec. 2d, says of the weather: "The heaviest snow storm for many years began this morning, and still continues. The total fall at 10 o'clock was nine inches. Street car travel is greatly interrupted. The storm is general in Southern Wisconsin, Iowa, Missouri, Eastern Kansas and Illinois."

And a Burlington, Ia., dispatch of the same date repeats the following severe storm: "A terrible blizzard and cold wave has struck Iowa at an unfortunate time. There is no water for stock and no probability of getting any with the ground frozen a foot deep. The thermometer indicated in day below zero yesterday, and reports of suffering among stock are coming in. Joseph Fleet was frozen to death here last night. Teams are crossing the Mississippi on the ice."

Both Chicago and Burlington are further south than any portion of Oregon, yet while at those places they are experiencing such severe weather as is reported above, here there is but little snow in sight, green grass on the hills is luxuriant, and the coldest weather we have yet had was 10 degrees above zero.

Another Shooting in Mitchell.

S. Berger, of Portland, arrived here yesterday from Mitchell, and reported that J. T. Chamberlain was shot by the marshal of that place last Sunday evening and dangerously wounded. Mr. Berger says as near as he could learn the marshal had arrested Mr. Chamberlain for creating a disturbance in a saloon and was taking him to the calaboose, when he shot him. The ball entered the knee cap, shattering it badly. When Mr. Berger left Mitchell Tuesday morning, the physicians were preparing to amputate the limb, and Mr. Chamberlain being in a weak condition physically, it is doubtful if he survives.

Married.

Last Sunday evening Miss Fannie Ketchum, daughter of Mr. and Mrs. L. L. Ketchum, was united in marriage to Mr. Columbus Johnson, a prosperous cattle raiser of the southeastern part of the county. Rev. Edward Baker officiating. Only relatives and intimate friends of the family were present, yet those who were there, as well as the many friends of the contracting parties were profuse in their congratulations to the happy and well-matched pair.

Mr. Johnson is one of the solid men of the county, as well as the most popular resident of Harbin precinct, and is worthy the prize he drew in the matrimonial lottery, one of the most accomplished and highly respected daughters of Crook county.
