### PRINEVILLE REVIEW.

THURSDAY - FEBRUARY 26 1903

#### LOCALETTES.

A slight fall of snow occurred Sunday night.

John Combs arrived in Prineville Monday from San Francisco, where he has been combining business with pleasure for the past month.

Ed White, who has been spending the winter at Eugene, returned home Sunday, looking if possible better than ever from his visit in the Willamette valley.

C. B. Don, after a trip to Moro and other points, has at last fixed on Silver Lake as a place of future greatness, and will shortly leave for that point to make it his home.

Suits and trousers, ready to wear, at Gormley the Tailor's.

Dick Dove, accompanied by his family and Ernest Doty, was in Prineville Monday to prove up on his timber claim and lay in supplies. Dick has a comfortable farm on the Agency Plains.

The Modern Woodmen gave a very lively ball Friday evening last which was well attended and enjoyed. None of our lodges ever do anything by halves, and the Woodmen are not by any means an exception.

Some one—name unknown—threw a stove through the front window in Prof. Orton's residence on Sunday night, and reduced the fine plate glass to fragments. It is hard to believe that anyone clothed in his right mind could do such a piece of vandalism. They should not be allowed to run at large.

Jim Sharp was out yesterday, after a tussle with his arch-enemy, the rheumatism. Jim looks rather attenuated from his suffering, but seems to be getting along nicely.

The new planing mill presents quite an imposing appearance just now, which will be further enhanced when the city artists decorate it with mineral. One of the largest buildings in the city, and filled with all kinds of machinery for woodworking.

School books and school supplies at the New Brick Drug Store. D. P. ADAMSON.

Saturday week Dick Koopman lost by fire two stacks of hay, 60 tons, on Newson creek, together with cabin and barn. As the fires occurred on the same night and were four miles apart, no other conclusion than that they were of incendiary origin can be arrived at. This seems to be the outcome of the war between the sheepmen and the cattlemen, which, though quiescent now, breaks out virulently at times. Mr. Koopman has our sympathy in his misfortune.

Rev. E. A. Child announces that there is a strong probability of having a large gospel tent and one of their best singing evangelists here as early as May. Let as many in the county as desire this, write or see Mr. Child soon and say how much they are willing to subscribe toward it. It is possible to buy the tent and have it for our use throughout the county. About \$200 will pay all expenses and we shall have a tabernacle that will last us several years and be a great help in establishing work in the county. It will do for work also during any political or public rally in the city. Let all subscribe freely to this enterprise.

C. G. Cornell was in from Paulina Monday looking after his stage business.

Edwards & Atwood have bought the steam wood saw, and commenced operations today. Notice their ad elsewhere in this issue. Send orders to P. O. box 55, and they will be promptly attended to.

The lady who was the fine four hundred dollar piano we are going to give away will have something she may well feel proud of. It is worth working for.

Mr. Cumul, of the Dalles & Prineville marble works, wishes to say to the people that he will soon be in Prineville, all parties wanting any tombstones, vault work or fences will do well to hold their orders for him. He is doing a rushing business in The Dalles, but will be in Prineville as soon as he is possible can. So hold your orders. People are beginning to realize that the Dalles & Prineville marble works is a business that is reliable and trustworthy.

Many persons suffer all their lives with headache and neuralgia, taking medicine until their digestion is ruined, not knowing the trouble is in the eyes, or perhaps one eye. Their vision is perfect, perhaps very acute, yet still the trouble is the eye. These are cases for the oculist. St. Vitus' dance is in almost every instance an ocular trouble alone. No nerve specialist will attempt to diagnose a case without examining the eyes. Headaches are unnecessary. Call on Dr. W. W. Taggart at the Poindecker Hotel for all ocular troubles.

REDUCTION OPERATES.  
On and after March 1, 1903, my prices will be as follows:  
Visit in city (night or day) \$1.00  
Treatment in female complaints, per treatment 1.50

And all other surgical or medical work at reasonable rates.

Forty-five timber loggers arriving at Shaniko last week while there was a slight fall of snow at that place, and imagining the snow was the same or worse right up to the timber line, they turned Portlandward till warmer weather. We hear that their fears were further played on by some sympathetic bystanders, who were very careful to have deeper snow up this way. As a matter of fact there was a little snow, and some cold weather, too, in the timber from the 9th to the 12th, but that has now passed into ancient history, and the air is springlike and balmy, and the ground clear.

W. A. Bell returned Monday from a visit to the interior.

Congressman-elect Williamson is now on his way to Washington to be sworn in on March 4.

Editor Kelsay, of the Shaniko Leader, was in town on his way to Bend the first of the week.

Miss Cornett is in town this week from Shaniko, looking after his many business interests in Prineville.

Quite a number of timber men were in Prineville this week from Bimidi, Minnesota's lumber city, or one of them.

C. E. McDowell is having his wine cellar rebuilt. A force of men started to work on it yesterday morning digging and framing. Revival meetings are in progress in the Methodist church. The attendance is large and the interest keen. Crowds attend every evening, and much good work is being done.

The ladies of the D. of H. gave an interesting entertainment and ice cream social Tuesday evening. On account of the revival meetings in progress at the M. E. church the program was cut short, and ice cream reigned supreme until it ran out. The lodge cleaned up \$28, and had the ladies had more cream they would have taken in nearly that much more. All agree in saying the social was an enjoyable affair.

#### Concerning Mail Service.

WASHINGTON, D. C., Feb. 8, 1903.  
MR. GEORGE SUMMERS,

DEAR SIR:—Referring again to the application of the petitioners for service on route No. 73181 to Fife, I quote herewith a copy of a letter just received from the Honorable Second Assistant Postmaster General concerning the status of that case.

"Referring to the letter from the postmaster at Prineville, Oregon, filed by you in this office, together with a petition recommending that the service on route No. 73181, Prineville to Crook, Oregon, be extended to Fife, the receipt of which has been acknowledged, I have the honor to inform you that, after a very careful consideration of the matter, this office decided some time since that the circumstances in the case were not sufficient to warrant the establishment of service between Coldspring and Fife, but in order to furnish the postoffice at Coldspring with regular mail service under contract, an advertisement was issued inviting proposals for carrying the mail from Crook by Price (n. o.) to Coldspring, twice a week. The only bid received under said advertisement is at the rate of \$800.00 per annum, and as that was considered entirely too high for the service required, the bidder was written to by this office on December 24, 1902, to see if he and his sureties would agree to perform the service at the rate of \$600.00 per annum. As no reply has been received from him, an advertisement has again been issued, this day, inviting proposals for carrying the mail between Coldspring and Crook, by way of Price (n. o.). If a reasonable bid be received, award of contract will probably be made to begin April 6, 1903, and the present special supply to Coldspring be discontinued."

From this it would seem that the Department had done their part towards securing adequate mail service for the residents thereabouts, and now if the people interested will bring about reasonable proposals on the service advertised for, it will undoubtedly be authorized.

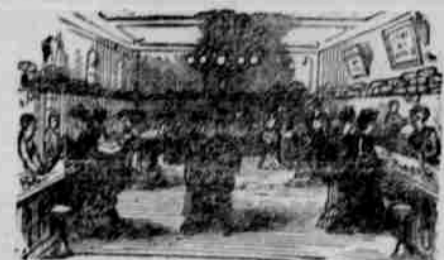

Yours truly,  
MALCOLM A. MOODY.

Born  
In this city, Feb. 22, 1903, to the wife of A. G. Scoggin, an eight-pound boy. Mother and child doing well. As this is Avery's first, and having the double distinction of being born on Sunday and Washington's Birthday, or two legal holidays in one, Avery in his delight had off two trips of the Sisters run this week.

#### A Directory For Prineville.

Mr. Child is collecting facts and figures for a Directory of this city which he will issue soon. He expects to put into it a historical sketch of the earliest beginnings of this county and also collate other facts of interest to all. It is now the purpose to put a copy of this publication into every one's hands free of charge. A plat of the city and also cuts of certain of the finest residences and pictures of the prominent business men will be inserted if they can be had without too much cost.

The business men will be asked to place their card or "ad" in the work to help pay the cost of the printing. Mr. Child is doing the work for the sake of obtaining a thorough knowledge of the city and gaining systematic access to the homes in his pastoral capacity.

#### Crook County Stock Growers' Association Meeting.

There will be a meeting of the Association at the Courthouse in Prineville, Saturday, February 28, 1903, at 10 o'clock A. M., for the purpose of filling out application blanks for grazing stock in the Cascade Forest Reserve, and the transaction of any other business that may come before the meeting.

It is desirable that the annual reports and annual election of officers be made at this meeting.

A full attendance of all stockmen is expected.
