Died.

On last Monday morning, May 19th, Wm. McVay died of spinal meningitis after an illness of only 38 hours.

On Saturday afternoon Mr. McVay came to where he was staying near Howard, in this county, and said he "was just done up" and would lie down for awhile. He did not stay in bed long before he jumped up screaming in great pain which continued until death came to his relief. Help was at once secured as they saw something serious ailed the man who hitherto was so full of health, and a messenger sent to this place for medical aid. Dr. Morrison went to the sick man's relief and stayed with him until death came, doing all in his power to relieve the sufferer but to no avail.

Mr. McVay came to Oregon in 1851, being then but a child of 6 years of age. When he was but 19 years of age he enlisted in a volunteer company and came to Eastern Oregon and served through the Indian disturbances of 1864 and 1865. For the past thirteen years Mr. McVay has worked at the blacksmith trade in Prineville, most of which time in the Salomon blacksmith shop.

Mrs. McVay died just two months and eleven days prior to Mr. McVay's death. He leaves a son, who resides in this county, a daughter, Mrs. Addie Henderson, of Sinnett, Benton county, and a brother, Chas. McVay, of Eugene, together with a host of friends to mourn his loss, as he was a man well liked and respected by all those who knew him.

Mr. McVay was buried in the Union cemetery at this place on Tuesday morning, Rev. H. C. Clark conducting religious services at the grave.

A Small Blaze.

On last Thursday evening at about 11:30 the loud clang of the fire bell aroused our citizens from their slumbers, and soon the Prineville fire department was on the scene to stop the devouring elements. The fire was at the north end of town and was a small shack about 12x14 feet that had been occupied heretofore by Mrs. Turner, (who had the smallpox and is now at the convalescing hospital awaiting to be released.) The fireman did not try to extinguish the flames owing to the house being all on fire inside, and let it burn to the ground, however, carefully guarding the surrounding property.

The building undoubtedly was set on fire by some one with the object in view of entirely destroying any and all chances of contagion from the infected premises which the fire surely did.

An amusing incident occurred during the fire and that was when an individual in some manner or other got mixed up with the hose boys, and he got a beautiful bath from the end of the nozzle which would have drowned an ordinary man.

Returned to his First Love.

Our foreman, Mr. Clemens, left for Seattle last Friday morning to take a position as one of the players in the league base ball team of that city.

Ever since Mr. Clemens has been with us the crack base ball teams of the coast have been trying to secure his services, but he withstood all their tempting offers and blandishments until last Friday morning when the love of the sport which he had followed so long got the upper hand of him and so he went.

Mrs. Clemens will stay in Prineville for a while and until she moves to where her husband is will look after our job department, as she is one of the best printers in the state.

We are sorry to lose Mr. Clemens and our best wishes go with him wherever fate takes him.

A Sad Case.

We clip from the Cottage Grove Leader the following heartrending piece of news.

Eddie Lundy aged seven years, was committed to the insane asylum today. It is a sad case. When the child was but two years of age the father, William Lundy, struck him on the head with a strap. The child grabbed the strap and to quiet it was allowed to retain the piece of leather. He became a drivelling idiot, but in all the five years since the father struck him has never allowed the strip of leather which destroyed his mind to leave his grasp. He gnaws it continually during his waking hours. The parents live in Malheur county.

A Rich Mining Belt.

The new mines being opened up on Scissors creek near Howard in this county from all indications will prove to be very rich. A few nuggets have been picked up that have eight or ten dollars worth of gold in them besides many smaller ones. From the grass roots down there is gold. The company has only been working the ground but a few weeks and are more than pleased with the outlook. The section of country surrounding Howard is filled with precious metals, and some day we predict will be one of the best mining

The Mayflower mine which is now owned by Thron Thronson and others is located in this section and as soon as the machinery arrives active work will begin in opening it out and sinking a 300 foot shaft. During past years this mine has had some work done upon it in a rather desultory way, and the ore shipped out had high values, yet the character of the work done was not such as would produce any appreciable results; but now it has fallen into mining men's hands who are experts in the work of mining, and rich results are looked forward to from their operations.
