There is going to be a big fair held in the city of Portland in 1935, and there are going to be crowds of people there, too, but where they are going to find room to sleep is to us a mystery, unless they erect new hotels. Perhaps some enterprising citizen will rent a lot and put up tents with banks therein to accommodate the people. It is high time for these people to get some kind of a move on themselves in regard to this matter.

A Lucky Escape. Last week during the thunder storm Mike Brown, while assisting with some cattle at the Meyer and Brown ranch on Crooked river, had a taste of lightning. Mr. Brown was on the outside corral and wishing to get inside commenced to crawl through a crack in the fence where a barbed wire had been strung across, and while under the wire a flash of lightning came, following the wire until it struck Mr. Brown's shoulder, passing through his body and entering the ground at his feet. Where the lightning first struck Mr. Brown on the shoulder it left a large sprawling red mark with pustules raised all around it. For some time he was partially paralyzed but soon recovered from the effects of the stroke.

It was a narrow escape and he is to be congratulated with getting off as lucky as he did.

Derham Sawmill Burned. On Wednesday morning, June 13, the sawmill owned by Mr. Derham and which is located some 20 miles northeast of Prineville was entirely destroyed by fire, together with about a half-million feet of lumber. This is the second fire Mr. Derham has had within the past five years, and is a serious loss to the owner who, however, is not discouraged by his bad luck and intends rebuilding again.

It is to be sincerely hoped that when the new mill is built that a season of prosperity and success will follow the owner.

Wool Sales at Shaniko. The wool sales at Shaniko last week were attended by a large number of buyers and the prices received were at the top notch this season, ranging from 13 to 16 1/2 cts. per pound. Geo. Young & Sons sold part of their large clip for 15c, and the B. S. & L. Co. got the top and beautiful price of 16 1/2c, and on the whole every person that offered his wool for sale was more than satisfied with the prices.

The past years have placed Shaniko in the first place as a wool market in the United States and which place she still continues to retain. At the Shaniko warehouse nearly a million pounds were sold and to the warehouse company, in a great measure, is due the good prices obtained as the wool in their house was so stored that the buyers could easily tell the quality of almost every sack.
