Mart Bailey is seen with us, having returned from Silver Lake on last Saturday's stage.

We learn the child of A. G. Soogins is very ill at Sisters. It is to be hoped the little one will recover.

L. Clingan, of Haystack, was in Prineville last Friday attending to some business matters.

Appraisers will go out to appraise the damages on the Casey road. This is a road over which more sentiment has arose than any road in the county.

On next Sunday the Prineville hunting club will have another rabbit shoot for the gold medal, and we look for some crackerjack scores. The hunting will be for blood, as each one of the boys are going to do their best.

Bob Smith who for the past several weeks has been in the Deschutes country locating timber seekers arrived home the fore part of the week for the purpose of renewing acquaintances with his family and spending the fourth. John Geiger brought into our office on last Tuesday a head of lettuce which measured 17 inches across. We do not believe the equal of that head is in Crook county, and it was good too, for John made us a present of a mess and it was nice and crisp.

Presentation of Flag Deferred.

The ladies of the fourth of July committee of 1900, having a surplus of money on hand have bought a flag with same which they intended to present to the city on the coming fourth of July, not being able to procure a proper flag staff, will defer the presentation to some future date. The flag however will be displayed on the flag staff of Wurzweiler & Thomson's store, on the coming fourth, as the procession passes, waving its colors to the breeze, for the first time to the gaze of the happy throng.

A Rabbit Hunt.

Champ Smith, Dr. Gesner, Ed White and John Combs, a few days ago spent an afternoon hunting rabbits. The party separated shortly after the hunt began, John Combs going on one side of a hill and Messrs. Smith, Gesner and White on the other. After hunting quite a while and shooting a number of rabbits, the three returned their course so that it would take them to Combs when they suddenly heard a perfect fusillade of shots from the direction Combs had taken. Thinking he had got into a place where millions of rabbits were the three hurried onward and soon saw Combs standing perfectly still and shooting away for dear life. Coming up to him they asked what he was shooting at. Combs without turning his head or taking time to stop shooting said, "You see that gosh damned rabbit over there? Well I guess I have shot near a hundred times at it and I am never going to leave here until it is dead."

Dr. Gesner to relieve the strain calmly put his gun to his shoulder and Mr. Rabbit was no more.

Married.

On Tuesday the 16, at the residence of the bride's parents at Rich Hill, Douglas County, Orange Hodges of this city and Miss Bessie Parker were united in marriage.

On the following Thursday Mr. and Mrs. Hodges left for this city which will be their future home.

The Review together with a host of friends extends congratulations to the newly wedded couple, and wishes their journey through life may be one of continual sunshine, pleasure and prosperity.

Good Shearing.

The Knox sheep shearing crowd which have been at work in this county during the past season finished up last week. The crew consisted of nine men as follows: Walt Knox, Horace Knox, George Adams, Oscar Crain, Ed Gerow, D. A. Mode, Henry Crabtree, Bud Hinton and Ed Henderson. The last band to shear were those of Williamson & Gesner, consisting of 5200 head, which the boys cleaned up in just four days of ten hours work, giving them each an average of over 144 sheep a day. This showing is an excellent one, and is hard to equal.

N. J. Lambert, of Sisters, spent last Monday in our city on business. Mr. Lambert informed us that last Friday and Saturday another nice rain visited his section and that the grass has not been as good in years as it is this season. Grain of all kinds also looks fine and the yield will be excellent.

W. F. Hammer, formerly county clerk of Linn county but now a resident of Haystack country made our office a pleasant call last Monday. Mr. Hammer informs us that grain of all kinds is doing fine the recent rains coming just when needed, and that the yield will undoubtedly be good.

The Ribbon State Fair.

The premium list of Oregon's "Blue Ribbon" state fair is now out and being distributed throughout the state. The premiums offered aggregate \$12,000 in cash, and are for everything grown on the farm, including live stock, poultry, dairy products, agricultural and horticultural products, domestic and liberal arts, etc. Everyone is invited to bring something to the fair this year, and help advertise the state's resources. If you have not received one of the premium lists yet, M. D. Wisdom, secretary, Portland, Ore., for one.

An Entertaining Firm.

The trade of A. H. Lippman & Co. is increasing so rapidly that it is impossible for them to handle their large stock of goods in their present quarters, and in consequence will begin immediately the construction of an addition of 30 x 100 feet to their already large building.

When the addition to their new building is completed they will have a large show, and salesroom expressly for their furniture department, another large room for their stoves and ranges, while yet another handsomely fitted up expressly for their undertaking parlors, which will be the best in the state.

Their manufacturing plant will also be greatly enlarged, and will be the most complete of anything of the kind in central Oregon.

It is a pleasure to note the enterprise of this popular house which has built up a business of great magnitude from a very small beginning in a very few years, by giving the purchaser full value for his money and goods the superior of which are not to be found in any house elsewhere.

LOVE
Often leads to poverty. No real woman ever sold her heart for the luxuries of life. But many a woman who has gladly faced poverty for the man she loved, may well doubt her wisdom when pain becomes the mate of poverty. If she were rich, she thinks, she could find a way of cure. Dr. Pierce's Favorite Prescription is within the reach of every one. It lifts the burden of pain which weighs down those who suffer from womanly diseases. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"You have my heartfelt thanks for your kind advice to me," writes Mrs. Geo. Fisher, of Victoria Avenue, Calif., Ontario. "I was troubled with stomach distress for over a year. The doctor said I would have to go through an operation, but I commenced to use Dr. Pierce's Favorite Prescription and after using a few bottles I am completely cured. I am glad to say his medicine has made me a new woman."

Weak and sick women, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce by letter, free. All correspondence is held as strictly private and secretly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.
Dr. Pierce's Pleasant Pellets are easy and pleasant to take. A most effective laxative.

We have a client who wants to go into the stock business and would like to trade an elegant eight-room cottage for good range horses or stock cattle. The property is situated three blocks from The Dalles High School; has two lots; bath, hot and cold water; nice lawn; fine basement; all kinds of fruit and berries; also has a good barn, corral, chicken house and lot, carriage house and other necessary outbuildings. The property is nearly new and was erected at a cost of about \$2500.00. Would make a very desirable home for some one wishing to retire from business or wishing to give their children the benefit of a high school education. For further particulars see or write to HUDSON & BROWNHILL REAL ESTATE & INVESTMENT CO., Washington St., The Dalles, Oregon.

IN BABY'S THROAT.
A Nail was There—Was Believed the Little One had Asthma.

Of peculiar character is the ailment with which the two year old child of Mr. and Mrs. Shriver of Job's addition has recently suffered. The child wheezed almost constantly, and at times had violent coughing spells. It was treated for several weeks for asthma, the symptoms causing the family to believe that to be malady with which the little one suffered.

The other day the child was seized with a violent fit of coughing. The mother, as in costume of mercurianity, laid the babe across her arm and patted the little back gently. In the midst of the child's exertions a wire nail was thrown from its mouth. The nail was two inches in length, and was half eaten away with rust and possibly with the fluids of the child's body. It had apparently laid embedded somewhere in the little breathing apparatus, where it provoked the wheezing and caused the violent coughing. The child has since improved much, and it is believed that with the removal of the ugly obstruction, complete recovery may be expected.

There is only conjecture as to the length of time the nail may have been in the babe's throat.—Corvallis Times.

J. F. Circle returned from the Calgeria country last week and favored us with a description of the country which we could not publish this week owing to the crowded condition of our columns, but will do so in our next issue.
