Burglars now a days do not always sneak around and carry off the good house wife's silver ware and napkins, but are turning their

In Pennsylvania they have a law that if a man wishes to marry a woman who has been divorced, that all the particulars concerning the divorce would have to be laid before the officer authorized to issue the license before a license can be issued. United States Senator Heyburn, of Idaho, wanted a license to marry a Mrs. Yeatman, of Philadelphia, and could not answer the interrogation propounded to him by the clerk, so had to wait a day or two until he could procure the papers and testimony in the divorce proceedings so as to give the answers required.

Samuel Dungee, who came from New Brunswick this spring and purchased the Otto Gray place, brought a few potatoes along of a new variety to this section, but which were generally raised where Mr. Dungee came from, called "The Green Mountain", and which bring the highest market prices in Boston and other eastern markets.

Mr. Dungee planted these potatoes on the 29th day of May, and just two months and seventeen days from the time of planting dug up a hill and brought four of them down to the market of Foster & Ishman and put them on the scales and they weighed just two pounds and ten ounces. Mr. Dungee presented them to the Review editor and we had them cooked and found these potatoes to be of excellent flavor and as measly as any potatoes we ever saw. This variety is bound to be a great addition to the potatoes now raised in this section and we do not believe it will be many years until "The Green Mountain" potatoes will be the leader in our market.
