A GOOD-SIZED BLAZE.

unham's Barn Goes Up in Smeke -No lusurance--Loss About \$2000.

On last Friday evening about 7 o'clock the clang of the fire bell aroused our citizens, many of whom were yet sitting at their evening meal, and a rush was made to the fire companies' houses to get out the apparatus, as a large blaze extending high upwards could be seen emerging from some building in the north part of the city, which proved to be the large barn of Dunham's which was enthrely filled with hay. The fire and two lines of hose were soon filled with water playing upon the building, from which the fire was emerging from all parts. At first it appeared like the fire would ial chair, having leased the paper spread to the other buildings to A. H. Kennedy who have which stood some thirty or forty to A. H. During the past year our circulation has almost doubled, and daily new subscribers are being added, proving beyond any doubt the esteem the Review is held in.

Men were stationed with buckets where years were alighting, which in a very short space of time they had under perfect control, and all breathed easier, as what appeared a few moments before would be a large conflagration was now confined to the one building.
