The Benefits of a Creamery.

To show the community benefits to be derived from creameries, we reprint the following dispatch to the Oregonian from Coquille City, under date of May 25th: "A careful estimate of the product of the creameries on the Coquille river, not including the butter and cheese turned out by factories at Gravelford, Fairview, Lee and Sumner, is as follows: The amount of butter made every day is 2000 pounds. To make this requires about 80,000 pounds of milk. There are also made about 800 pounds of cheese for which is required about 9500 pounds of milk. This means a monthly product of 60,000 pounds of butter and 24,000 pounds of cheese, requiring for a thirty days' run a total of 2,655,000 pounds of milk. As this butter and cheese will average 15 cents a pound, the average income to the farmers and dairymen of the Coquille river alone is about \$12,000 per month. The larger creameries start up in April and run until December, and sometimes through January."

The girl who expressed so much sympathy for the poor farmer because of his cold job in harvesting the winter wheat, is equal in agricultural knowledge to the one who expressed a desire to see a field of tobacco when it was just plugging out. But the damsel who asked which cow gave the butter milk is entitled to the whole bakery. And a girl on her return from the country who was asked if she ever saw anyone milk a cow, replied: "O yes, indeed I have; it just tickles me to death to see uncle jerk two of the cow's faucets at the same time.—Ex.

Those who complain about the advertising bills of their local paper should glance over the following figures: "A column, one insertion, in the Youth's Companion, cost \$800. In magazines like The Century, the rates run from \$100 to \$300 a page. A column in one of the leading New York papers, taken by the year, costs from \$46,000 to \$58,000 a year, according to position.—Ex.

A well known traveling man who for years has made Willamette valley towns is passionately fond of honey, and the proprietor always has some on hand for him. On one trip the traveling man took his wife along, and as he approached this particular town he mentioned to her that he was getting to a place where he would have honey. When the pair were sitting at the supper table that no honey appeared, and the knight of commerce said sharply to the head waiter: "Where is my honey?" The waiter smiled and said: "You mean the little black haired one? O she don't work here now."—Ex.

"NERVE WASTE."

One of the most helpful books on nerve weakness ever issued is that entitled "Nerve Waste," by Dr. Sawyer, of San Francisco, now in its fifth thousand. This work of an experienced and reputable physician is in agreeable contrast to the vast sum of false teaching which prevails on this interesting subject. It abounds in carefully considered and practical advice, and has the two great merits of wisdom and sincerity.

It is indorsed by both the religious and secular press. The Chicago Advance says: "A perusal of the book and the application of its principles will put health, hope and heart into thousands of lives that are now suffering through nervous impairment."

The book is \$1.00, by mail, post-paid.

One of the most interesting chapters—chapter xx, on Nervines and Nerve Tonics—has been printed separately as a sample chapter, and will be sent to any address for stamp by the publishers, THE PACIFIC PUB. CO., Box 2658, San Francisco, in plain sealed envelope.

Pullman Ordinary Sleepers.

The tourist travel between the east and the Pacific coast has reached enormous proportions in the last few years, and calls for a special class of equipment. To meet this demand the Pullman Co. has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleeper, being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, combs, brushes, etc., requiring nothing of the kind to be furnished by the passenger. Each car has a stove for making coffee and tea and doing "light housekeeping," and each section can be fitted with an adjustable table. A uniformed porter accompanies each car, his business being to make up berths, keep the car clean, and look after the comforts and wants of the passengers. In each of the trains which are dispatched daily from Portland by the O. R. & N. Co. is to be found one of these "Pullman Ordinary Sleepers." The car is attached to the "Chicago-Portland Special," which goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City without change. Passengers in this car for Chicago change to a similar car at Granger.

Much of the first class travel is being carried in these cars, the rates being lower, and the service being nearly equal to that in the palace sleepers.

For rates and full information, including folders, write to A. L. Craig, G. P. A., O. R. & N. Co. Portland, Ore.

Carnival of Ballots

Appreciating the great work of our common school educators and desiring to demonstrate that appreciation, we have decided to offer in connection with this paper a fitting testimonial of worth to the most popular teacher in this county.

Balloting may begin at any time after the publication of this issue of the Journal and will continue until 8 o'clock p. m., September 30, after which time no ballots will be accepted.

Rules.

The rules governing the contest will be as follows: All paid-in-advance subscribers to the Journal will be entitled to receive at the time of paying their subscription a printed coupon or ballot worth 150 votes, which will have blanks wherein to write the name of the teacher voted for. Every issue of the Journal during the life of the contest will contain a coupon good for three votes. No free samples of the Journal will be distributed during the life of this contest and no clubbing offer will be accepted where ballots are given out.

All persons voted for MUST be Crook county teachers and so accepted by the county school superintendent, and must now be engaged in teaching in this county, or have taught in this county during the past eighteen months, and must not have lost their residence in the county, i. e. they must not have removed from the county to remain permanently.

The right to modify these rules at any time is reserved.

The Prizes.

Two prizes will be given; one for the most popular teacher, and the other as a consolation prize will be given to the one receiving the second largest number of ballots.

The first prize will consist of a fine gold watch, any standard make, with 15 jeweled movement and warranted for 20 years; the same guaranteed by a local dealer. The consolation prize will be a 4x5 camera of standard make. Both of these prizes will be bought in Prineville and be strictly first class articles. They will soon be on exhibition so that every one can see just what they are.

Distribution of these articles will take place on October 1, or as soon thereafter as the votes can be counted. Three prominent gentlemen of Crook county will be asked to help count the ballots.
