THURSDAY, JULY 25, 1901.

Don't forget that collars are wilted both from hard work and from snoozing.

Since 1898 Porto Rico has increased its purchase from the United States by 300 per cent and its sales to the United States by 75 per cent. Under free trade, these figures will no doubt be greatly increased.

Its curious that the populists should get so angry because the republicans are making estimates of Mr. Bryan's fortune. They do not hesitate to make remarks about the wealth of J. Pierpont Morgan and the rest of the millionaires. Turn about is fair play.

Consul General Stowe at Capetown has followed the lead of the late Adelbert Hay and resigned, having found his salary altogether inadequate to live on in war times. If Uncle Sam wants to keep good men he must at least pay their living expenses.

Senator Simon proposes to climb Mt. Hood and investigate the Crater. If the senator will read the "Last Days of Pompeii", he can get an idea how it feels to be buried out of sight without either braving a volcanic crater or waiting for the next senatorial campaign.—Eugene Register.

The fact that Russia does not really understand our tariff system is shown by her offer to rescind her objectionable duties, if Secretary Gage will rescind his sugar decision. Russia does not comprehend that Secretary Gage is merely obeying the law and has no more power to alter it than any bootblack.

The Valley papers are bringing out their candidates by the wholesale for nearly every state office and some of them are very good men, but we are of the opinion that a large part of these candidates will perish from off the face of the earth, in a political way, long ere the state convention is held. Why these papers should take such an early start in the campaign is hard to understand, as there is plenty of time for all such work when the weather gets cooler, and, presumably, the people will also be cooler and see things in a better light.

A matter for the consideration of our city council is the purchase of a suitable hook and ladder truck and equipment. There is at present a sort of make-shift truck and a couple of small ladders that are entirely inadequate to the needs of the department. In case a fire should break out in one of the taller buildings in this town there is no way to reach the top of such a building except by climbing up monkey fashion which would be exceedingly disagreeable to say the least. A suitable truck and full equipment ought to be had for not exceeding \$600, and each an outlay of cash at the present time would be a very wise investment. With

the great risk attendant on a lot of wooden structures densely built up as are those of Prineville, there should be extra precautions taken to guard against a possible outbreak of fire, also to furnish every available aid to the volunteer fire department. We hope to be able to announce at an early date that the city government has made arrangements for the purchase of a hook and ladder outfit for the boys.

Among the possible candidates for state printer, we see the names of F. W. Chausse, of Grants Pass, and J. R. Whitney, of Albany. Fred Chausse is a good printer and a fine fellow and would carry a strong delegation from southern Oregon into the convention. Joe Whitney could pull a good following from the Valley counties and is well worthy the support of the party and aside from an eastern Oregon man, there is not a man in the state we would rather see get the place.

J. K. Weatherford has been elected president of the board of regents of the Corvallis agricultural college. A good selection for the best interests of the state. We had the pleasure of being one of the gentleman's pupils when he was a giddy youth and we a guileless urchin and he has the distinction of being the first and only teacher that ever licked us.

Resolutions of Condolence.

Once more the dark wings have soared over our Fraternal Order and we are again called upon to mourn the loss of a beloved Brother of our Order. Bro. P. M., M. A. Moore departed this life on the 9th day of July, 1901, at his home in Prineville, Oregon; To those who knew Bro. Moore, he was a man of business integrity, truthful, honest and kind to every one; therefore be it Resolved, that we extend our sincere and heartfelt sympathy to the bereaved wife and children in this their hour of deep sorrow.

Resolved, that a copy of these resolutions under the seal of the lodge be sent to the wife and children of our deceased Brother and that a copy be furnished to each of the city papers.

Resolved, that these resolutions be spread upon the minutes of this lodge and that the Charter be draped in mourning for 30 days.

Chris Cohrs,
 Wm. Draper,
 Joe Hinkle.

Ochoco Lodge, No. 101, A. O. U. W.

For the Sick Room

Very often ice cream is prescribed when the patient has been forbidden to eat all other dishes. Ice cream is then a necessity; probably a means of the patient's recovery, if made of the proper materials. Made at home in a

PEERLESS ICELAND FREEZER (One Motion.)

You know it contains nothing that would harm the patient. All parts that come in contact with the cream are coated with pure tin. The freezing only takes three minutes, and is no trouble at all.

Sold only by
Elkins & King.

Pease & Mays
SHANIKO OREGON

Trunks, Telescopes and Traveling Bags for your summer trip.
