### Oregon Spars.

"One of the interesting features of modern railroading is the manner in which the great spars of pine from this part of the world, destined for shipping on the Atlantic ocean, are carried across the continent," said F. A. Hendricks, a prominent contractor of Philadelphia, who is on this coast on a brief visit, says the Telegram. "In no part of the country save in the extreme Northwest does the Yankee shipbuilder find masts of the proper size to spar the great five,

six and even seven-masted schooners which he is now busily engaged in putting afloat. The problem of getting these spars to the Atlantic sea-board was some time in being worked out. Formerly some sizes of them were carried in sailing ships around Cape Horn. The puzzle of handling the largest sticks, however, was finally solved by transporting them on flat cars, using three cars for each load. Recently five spars, which were destined for the five-masted schooner Jennie C. Dubois, a large vessel

about completed in one of the shipyards at Mystic, Conn., were shipped from this state. The sticks were each 112 feet long, 24 feet in diameter, with two inch taper, and free from knots. They were shipped hewn in hexagonal shape, and carefully slung by a steam donkey engine from the cars into the river at New London, Conn., to be towed to the Mystic spar yard near by.

"In order to permit of the riding of this awkwardly-shaped load on its transcontinental journey, its weight rested entirely on wooden bearings, one of which was fastened across the center of the first and third cars, respectively. The second car of the three acted as a double-jointed hinge, holding the other cars in place, and giving the necessary flexibility to the train as it passed around curves and up and down steep grades. But for this arrangement, permitting the cars to follow the windings of the ordinary railroad and its switches easily, the cars would have been quickly thrown from the rails by the unyielding character of their cargo, and the long journey of the spars would have been rendered impossible. The friction of the great sticks upon their bearings as the train moved along at a rapid clip was so marked, as a result of their weight, that it was necessary to keep each bearing well greased, to prevent the car-rending sounds and damage incident to so much heavy grinding action. Even with the amount of greasing done some of the bearings were badly chafed before the journey was ended. The spars themselves, however, arrived without a blemish.

"The work of rounding out the spars when they have reached the yards is interesting, and is a delicate task. The square edges are hewn off and then comes the work of planing and sand-papering. It sometimes takes several weeks to get the stick finished. When first stepped the masts have a beautiful appearance, but after they have been 'slushed down' a few times their appearance is much changed. Shipbuilding on the Atlantic coast is experiencing a boom, and the demand upon the forests of the Northwest will probably be enormous this year."

### Swine Plague.

From all accounts there is a herd of hogs in Marion county affected with swine plague. A section of a hog's lung was received at the college Friday with a request that the bacteriological department diagnose the case. The specimen came from a veterinarian at Salem, who said that on the farm from which it came 100 hogs had died. In the investigation at the college the disease was certainly located as swine plague. The malady is highly infectious and there is no remedy for

an animal once attacked with it. The sample is the third of the sort received at the station, the others having come from Eastern Oregon. —Corvallis Times.

### THE HOME GOLD CURE.

An Ingenious Treatment by which Drunkards are Cured Daily in Spite of Themselves.

It is now generally known and understood that Drunkenness is a disease and not weakness. A body filled with poison and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing and eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "HOME GOLD CURE," which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upright men.

**WIVES CURE YOUR HUSBANDS! CHILDREN CURE YOUR FATHERS!** This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate by having the cure administered by loving friends and relatives without their knowledge in tea or coffee, and believe today that they discontinued drinking of their own free will. **DO NOT WALK.** Do not be deluded by apparent and misleading "improvement." The HOME GOLD CURE is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effectual than others costing \$25 to \$50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of One Dollar. Address Dept. E 485 EDWIN B. GILES & CO. 2330 and 2332 Market St. Philadelphia.

### BRIGHT'S DISEASE.

The largest sum ever paid for a prescription, changed hands in San Francisco, Aug. 30, 1901. The transfer involved in coin and stock \$112,500.00 and was paid by a party of business men for a specific for Bright's Disease and Diabetes, hitherto incurable disease.

They commenced the serious investigation of the specific Nov. 15, 1900. They interviewed scores of the cured and tried it out on its merits by putting a dozen cases on the treatment and watching them. They also got physicians to name chronic, incurable cases, and administered it with the physicians for judges. Up to Aug. 25, eighty-seven per cent of the test cases were either well or progressing favorably.

There being but thirteen per cent of failures, the parties were satisfied and closed the transaction. The proceedings of the investigating committee and the clinical reports of the test cases were published and will be mailed free on application. Address John J. Fulton Co., 450 Montgomery St., S. F., Cal.

### Pullman Ordinary Sleepers.

The tourist travel between the east and the Pacific coast has reached enormous proportions in the last few years, and calls for a special class of equipment. To meet this demand the Pullman Co. has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleeper, being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, combs, brushes, etc., requiring nothing of the kind to be furnished by the passenger. Each car has a stove for making coffee and tea and doing "light housekeeping," and each section can be fitted with an adjustable table. A uniformed porter accompanies each car, his business being to make up berths, keep the car clean, and look after the comforts and wants of the passengers. In each of the trains which are dispatched daily from Portland by the O. R. & N. Co. is to be found one of these "Pullman Ordinary Sleepers." The car is attached to the "Chicago-Portland Special," which goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City without change. Passengers in this car for Chicago change to a similar car at Granger. Much of the first class travel is being carried in these cars, the rates being lower, and the service being nearly equal to that in the palace sleepers.

For rates and full information, including orders, write to A. L. Craig, G. P. A., O. R. & N. Co. Portland, Ore.

### THE NEW WAY

### COMMON SENSE FOR WOMEN

Ladies Should Read of the Latest and Most Successful Importation from France.

All-Womankind May Possess Fair Skin, Bright Eyes, Strength and Hood Health.

So says Dr. LaBord, the famous French practitioner who has devoted his whole life to the study of women, and has won the highest distinction through his wonderfully successful practice among the first families of Paris.

### WOMAN A HEROINE.

Woman is a heroine, says the Doctor, and her remarkable endurance and ability to withstand the most trying ordeal compels admiration. She is a slave to the natural modesty of her sex which so often causes her to endure the greatest trials, and suffer in silence, rather than consult even her Family Physician, fearing to expose herself to necessary questioning and probably examination.

### A LIFE STUDY

Recognizing this fact in his early practice, Dr. LaBord has, by years of study and close application, evolved an entirely new method of treatment for all ailments peculiar to women, which has met with unbounded success, and has Branch Offices, managed by skilled physicians under his personal supervision, now located in every large city in Europe.

By his superior methods each patient receives, absolutely free of charge, full and detailed advice especially adapted to her case, thus avoiding all embarrassment or inconvenience, and as Dr. LaBord's remedies are put up in the form of small, dainty wafers, they are easily and taken at any time or place, without attracting attention. This insures regularity in treatment which is most important to a cure, and generally impossible with liquid remedies.

Liquid remedies always contain a large proportion of alcohol, whiskey or other liquors, to preserve them from spoiling. Dr. LaBord's Wafers are a "dry medicine" and are positively free from intoxicants or narcotic drugs of any kind.

### MODERN METHODS.

Dr. LaBord's greatest success has been achieved by the use of the "CARONIA WAFER." This is not a Patent Medicine, but a scientific preparation of "Viburnum" or "CARONIA" (commonly known as Blue Hawsberry), and other well known herbs, whose curative properties have been known to herbalists for centuries. "Viburnum" or "CARONIA" is recognized and prescribed by the leading physicians of the world as the best known specific for Female trouble. The extremely disagreeable taste of these drugs has been overcome by skilful manipulation, retaining however all of their virtues and strength, and these specifics have been so combined and prepared as to form a dainty wafer, easily taken, yet exhibiting the most accurate and efficient cure for Female Weakness, Nervous Prostration, Painful and Suppressed Menes, Irregularity, Leucorrhoea or Whites, Sterility, Ulceration of the

Uterus, Change of life in Matron or Maid, Chronic Deafness, Urinary Troubles, Nervous Debility, Profuse Flow, Threatened Miscarriage, Palpitation of the Heart, Pains in the Left Side, Cold Hands and Feet, Bearing Down Pains, Backache, Shortness of Breath, Scalding of Urine, Soreness of Breast, Neuralgia, Uterine Displacement, and all those symptoms which make the average woman's life so miserable. It makes child birth easy and saves doctors' bills.

### A VALUABLE FEATURE.

"CARONIA WAFERS" have proven a blessing to thousands of suffering women who have been made well, strong and happy in a surprisingly short time by this wonderful treatment. They will not only cure the most obstinate cases, no matter how long neglected, but are also the only known remedy that can be absolutely relied upon to prevent those monthly recurrences of extreme pain and suffering, needlessly endured by so many of our women.

### PURE AND EFFECTIVE

"Dr. LaBord's CARONIA WAFERS" are purely vegetable, containing no injurious chemicals or drugs, and are positively guaranteed to cure even the most neglected cases, if directions are carefully followed, and the medicine honestly taken.

This valuable remedy, "Dr. LaBord's CARONIA," is now on sale in America by the importing firm of Noyes-Fuller Company, who have contracted with Dr. LaBord for the exclusive agency of the United States. Consultation Departments, under the supervision of Dr. LaBord are maintained and special advice furnished absolutely free to all who take the treatment. Ladies ordering "CARONIA" are invited to write all about their particular case, in detail, and are assured the most sacred privacy as to their correspondence, as no testimonials or letters from ladies are ever published by us.

One box of "CARONIA WAFERS," containing a month's supply, will be sent, securely packed and prepaid to any address in the U. S. or Canada, on receipt of One Dollar, accompanied by the details of your case. Full and complete treatment, including all necessary medicine, and our written guarantee, Five Dollar payable in advance.

This charge covers all expenses, including free advice and full directions. There are no additional charges of any kind, thus placing the treatment within the reach of all.

Address Consultation Dept., THE NOYES-FULLER COMPANY, Market and 24th Sts. Philadelphia.

### A Fireman's Close call.

"I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. W. Bellamy, a locomotive fireman, of Burlington, Iowa. "I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Electric Bisters and, after taking it, I felt as well as I ever did in my life." Weak, sickly, run down people always gain new life, strength and vigor from their use. Try them. Satisfaction guaranteed by Adams & Winnick Co. Price 50 cents.
