#### "An Infamous Liar."

A copy of a newspaper, Rushmore, Minn., Enterprise, containing a communication from J. R. Dewey, has been handed us, says the Oregon City Enterprise. It is so plainly on its face a tissue of falsehoods that is really wasting time to give it attention. As old a man as Mr. Dewey, who spent three months here last summer, should know better than to inform the intelligent people of Rushmore that in Oregon there is no money, no bread, no meat, and a large

#### POWERFUL MEN OF THE EAST

An Interesting Explanation of their Unusual Strength.

The Secret of their Marvellous Vitality and Nerve Force Jealously Guarded

Women of the Harem Compound a Potion Whose Rejuvenating Effects are Almost Miraculous and Astonish the Most Skeptical

The fondest hopes of ancient and modern seekers after the Fountain of Perpetual Youth, can scarcely have aimed higher than the results achieved by the marvellous compound, known throughout the East as EL MOKKIB.

Travelers returning to Europe have, from time to time, brought astonishing tales of the rejuvenating effects produced by this Wonder of the Orient.

Crudely compounded by the Women of the Harem, from formulas handed down orally from generation to generation, the secret of this preparation thus jealously guarded and known only to the inmates of the Harem and the Court Physicians, EL MOKKIB has been practically unobtainable, excepting by the favored ones for whom it was intended.

Recently, however, a prominent native Arabian Physician, banished from his country for political offense, and deprived of his vast possessions, has availed himself of his knowledge, to earn a livelihood befitting his station, by supplying this marvellous compound, EL MOKKIB, to the nobility and wealthier classes of all Europe, who have cheerfully paid him large fees in return for the benefits received.

Content with the large income derived from this practice, this aged physician has repeatedly refused very liberal offers made to him for the formula of his remedy, but he has finally agreed with the importing house of THE NOYES-FULLER COMPANY, of Philadelphia, to put it up in convenient form for sale exclusively in the United States, and this firm having the exclusive agency, now offer it for the first time to the American public.

This remedy must not be confounded with the numerous nervous exhaustion, lost manhood, and self abuse remedies which are advertised under a variety of names, as there is absolutely nothing which scientific chemistry has been able to produce, which can even approach the powers of EL MOKKIB, a pure vegetable compound, extracted from rare tropical roots and herbs.

EL MOKKIB is a remedy for one specific purpose, which is to strengthen the vital force and prevent decay in men, its marvellous effects in arresting decay of the vital principles, especially in the male, being unparalleled and never failing, and as its use is universal all over the

amount of destitution; that it is mostly mountainous, little level farming land, sagebrush plains, not even fit for cattle to graze on, inferior fruits, nothing except strawberries and plums, farms of 10, 15 and 20-acre lots, no hogs to speak of, plenty of fleas and jiggers, and the only city, Portland, is the most beautiful on earth—its beauty being simply marvelous. Of course this city is very rich. Where does she get her money? Simply from her shipping ports. Ships are in Portland

East, where strong virile men with large families of descendants are the rule, there must be no doubt, either as to its efficiency or benefits to the general system.

While it is an absolute specific and positively guaranteed to cure the worst cases of nervous debility, lost manhood, or similar weakness due to excesses or youthful errors, it is also used with the greatest success as a vitalizer, giving power to all weak parts, and developing and maintaining the full natural vigor of manhood.

It is put up for the American trade in tablet form, and though extremely powerful, it is perfectly harmless and easily taken, one tablet being a dose and doing the work at once, and so evidently as to leave no doubt in the mind of the patient. It will cure you so as to stay cured.

Every package is opened and carefully examined by the importers when received, and is then repacked under their seal and positively guaranteed to cure. It will be sent prepaid, under plain cover, with full and complete directions, on receipt of the price, \$1 per package, or six packages for \$5. Address THE NOYES-FULLER COMPANY, Market and 24th Sts., Philadelphia.

#### Gives Up a Rich Pocket.

C. M. Casady, of Quartsburg, who is joint owner with L. M. Woods, of John Day, was most agreeably surprised on Sunday last when a workman on the property reported to his employer with specimens of the contents of a pocket he had found about six feet under the surface, while following a seam. Further investigation discovered the fact that the pocket yielded at least \$150 in gold—probably more, for the pocket had not been entirely robbed of its precious contents when Mr. Casady left for this City. Only assessment work was being done at the time the pocket was struck. The seam which the workman was pursuing is from four to five inches wide. The find will probably excite the owners of Dame Fortune—which is the name of the claim—to more spirited pursuit of the "stringer." Mr. and Mrs. Casady were in Prairie City yesterday, en route to John Day to visit at the home of the latter's parents. Mr. Casady carried with him samples of the contents of the pocket and expressed more confidence than ever that the mine is well named.—Prairie City Miner.

#### Plow Grinding.

Ed Harbin desires to announce that he is prepared to do all kinds of grinding in the latest approved fashion. Chilled plow share grinding a specialty.

from all parts of the world." Mr. Dewey had to give some sort of excuse for returning, and he had to resort to reversing the order of everything but Portland. He fails to enlighten the readers of the Enterprise how Portland got rich or how so many ships come to Oregon from all parts of the world. Mr. Dewey formed a different opinion of Oregon than did judges on exhibits at the Pan-American Exposition, Oregon having received a greater number of prizes than any other state.

#### Paying Off Volunteers.

Adjutant-General C. U. Gantenbein has commenced paying out back pay to the volunteer soldiers who enlisted for service in the Philippines upon the first call from the president. All told, about \$25,000 will be distributed among the ex-warriors in lots ranging from \$5 to \$25 per man. Some have claims for but one day's pay, which is \$1.50, but these are not many. Payments are made by checks that can be cashed anywhere in the state.

Particular care is being exercised to see that every man is properly identified before he is given his warrant on the bank. Up to a late hour Monday afternoon volunteers were lined up in a long line in the hallway leading to the adjutant-general's office in the Chamber of Commerce building, but despite the requirements of three or four signatures to every identification blank, the work progressed at a fair rate of speed.

As each man handed in his claim he was asked by Clerk Knapp if he was willing to subscribe 10 per cent of his claim to the soldiers' monument fund for the erection of a monument at the Second Oregon plot in Riverview cemetery. So far not one has refused to donate the 10 per cent.

#### Fossil Mining in Oregon.

Eastern Oregon seems to be a world's cemetery for the rarest of animal life in the long ago. The little three-toed horse—father of the equine race—is found in splendid fossil preservation, while monkeys, parrots, clams, crawfish and many other dwellers of the earth, air and sea, are found in the same stony perfection, muffled in Nature's morgue millions of years before Egypt, or her mummified Pharaohs came into existence. Our people will find that grandfather's clock and the old spinning wheel will give way to Oregon fossils in the halls of the wealthy, once they are brought to public attention. Fossil mining in Oregon ought to and will be a source of great profit.—Pacific Miner.

Judge George has decided that the \$500 reward offered for the apprehension of the murderers of

Jas. Morrow at Portland for which Dalton and Wade were executed, should be paid to Mrs. Whitlock who gave the first clue which led to the murderers' arrest. This is as it should be. Edward King, the other claimant, gave no aid to the officers in their search, in fact, was inclined to attempt to throw them off the track. King only gave information when he found there was no chance to shield the suspects.—Telegram.

#### Pullman Ordinary Sleepers.

The tourist travel between the east and the Pacific coast has reached enormous proportions in the last few years, and calls for a special class of equipment. To meet this demand the Pullman Co. has issued from its shops what is technically called the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleeper, being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, combs, brushes, etc., requiring nothing of the kind to be furnished by the passenger. Each car has a stove for making coffee and tea and doing "light housekeeping," and each section can be fitted with an adjustable table. A uniformed porter accompanies each car, his business being to make up berths, keep the car clean, and look after the comforts and wants of the passengers. In each of the trains which are dispatched daily from Portland by the O. R. & N. Co., is to be found one of these "Pullman Ordinary Sleepers." The car is attached to the "Chicago-Portland Special," which goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City without change. Passengers in this car for Chicago change to a similar car at Granger.

Much of the first class travel is being carried in these cars, the rates being lower, and the service being nearly equal to that in the palace sleepers.

For rates and full information, including orders, write to A. L. Craig, G. P. A., O. R. & N. Co. Portland, Ore.
