Mining Laws Need Revision.

Speaking of the vast number of mining claims being located these days, and the great amount of money being expended in development work on mines in this state, a mining man said yesterday that the mining laws of Oregon were much in need of amending, being away behind the times. As litigation is constantly springing up over mining properties, he says this matter should be looked after by the next Legislature. County Recorders should refuse to record notices of mining locations unless the same give an accurate and complete description of the claim to be located, which should be defined by monuments, so that the location cannot be shifted to suit the convenience of the locator, as is sometimes done, thereby causing a great deal of trouble and litigation. When a man has located a claim, and another has located an adjoining claim, and one or the other of them shifts his stakes in order to follow a lode, there is bound to be trouble.—Oregonian.

The best friend of the "country editor" is the man who comes around the print shop when he hears anything of a news nature and imparts it to that individual. A good many people on the contrary seem to make a point to keep all the news possible away from the editor and though often in a position where they have opportunity to hear and observe much that would help to fill the news columns with interesting reading, have never been guilty of communicating an item of news to the print shop drudge, the editor. We have often accidentally stumbled on to an important item and found, when we came to run it down, that it had been a matter of common knowledge about town for a week and had been discussed by everybody—when we weren't around. The newspaper is always to be found doing what it can to advance the interests of the town and community and it would it be but a fair return for the citizens to make the work a little easier by contributing what they can in this line without making the printer run himself down looking for an item and use a stomach pump to get it out of them. It's no use inquiring for news after people form the habit of answering that they "don't know anything"—Ex.

The senate cannot deal with Tillman because of lack of precedent. This might be a fairly good time to establish a precedent.

THE HOME GOLD CURE.

An Ingenious Treatment by which Drunkards are Cured Daily in Spite of Themselves.

It is now generally known and understood that Drunkenness is a disease and not weakness. A body filled with poison and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing and eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "HOME GOLD CURE," which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upright men.

WIVES CURE YOUR HUSBANDS! CHILDREN CURE YOUR FATHERS! This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate men by having the cure administered by loving friends and relatives without their knowledge in tea or coffee, and believe today that they discontinued drinking of their own free will. DO NOT WAIVE. Do not be deluded by apparent and misleading "improvements." The HOME GOLD CURE is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effective than others costing \$25 to \$50. Pullman Ordinary Sleepers.

The tourist travel between the east and the Pacific coast has reached enormous proportions in the last few years, and calls for a special class of equipment. To meet this demand the Pullman Co. has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleeper, being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, combs, brushes, etc., requiring nothing of the kind to be furnished by the passenger. Each car has a stove for making coffee and tea and doing "light housekeeping," and each section can be fitted with an adjustable table. A uniformed porter accompanies each car, his business being to "make up" berths, keep the car clean, and look after the comforts and wants of the passengers. In each of the trains which are dispatched daily from Portland by the O. R. & N. Co. is to be found one of these "Pullman Ordinary Sleepers." The car is attached to the "Chicago-Portland Special," which goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City without change. Passengers in this car for Chicago change to a similar car at Granger. Much of the first class travel is being carried in these cars, the rates being lower, and the service being nearly equal to that in the palace sleepers. For rates and full information, including orders, write to A. L. Craig, G. P. A., O. R. & N. Co., Portland, Ore.
