Williamson For Congress.

In casting about for an efficient man to represent them in Congress, the eyes of the people of this district are resting on Hon. J. N. Williamson. During his public career in the legislative halls of the State he has shown himself to be a man of marked ability and undoubted sincerity, and the people are properly pointing him out as a masterful man to represent them at Washington. If Mr. Williamson is nominated and elected, it will be a case of ability recognized, and when he arrives at the nation's capital he will be heard from with no uncertain sound.—Portland Journal.

The matter of erecting a number of arc lights on Main street by private subscription has been under discussion for some time past, but no definite action has yet been taken. The city should be lighted up by all means and it can be done for a small expense. Klamath Falls is lighted with fifty lights similar to the one that has been burned at intervals in front of the JOURNAL office, for \$50 per month. Mr. Gates has given us to understand that he will duplicate the Klamath Falls contract at this place, which we consider a fair proposition, but think that a compromise may be effected by taking a number, say four, arc lights on Main street and about 20 incandescents on the other streets, which would light the town nicely.

The arbitrary methods employed by chairman Newell of the Harney county central committee, in naming the delegates to the state convention remind us of some of the acts of ancient despots. No more utter disregard for the wants of the party at large, was ever shown. Not even in the time of King George was tyranny more wantonly displayed. The seven men who asked Newell to resign should be honored for all time to come by the party in that county. They should also ask him to resign his position in the land office.

We are unable to give a writeup of the candidates for want of time and space.

Ex-County Judge C. E. Brainard, of Union county, has been adjudged insane and sent to the State asylum. He has been acting very strangely for some time and this action was deemed necessary by his friends.

A Misconstruction.

The Wasco County sheepmen who have made such a hard fight against J. N. Williamson may find that it has been a boomerang when they come to herding all over the country in a promiscuous manner.—CROOK COUNTY JOURNAL.

Yea, what God is this the JOURNAL would make all men bow down to. This must also be a warning to Harney county sheepmen and to all sheepmen that they have no right to open their heads as to who they wish for Congressman. Perhaps they have no right to an opinion? If this sheet expresses Mr. Williamson's views, and they are so little and narrow contracted as the above article would make them he is a very little man to place in the position as representative of the Eastern Oregon people in our national assembly.—Burns Items.

This is the comment of the Newell organ after misquoting the JOURNAL. We didn't say "country", but county. This after Williamson was largely instrumental in getting the reserve thrown open and then it was usurped by the Wasco county sheep men. This sheet expresses its own views, which by the way are its property and not like the Items, owned body, soul and breeches by a government official who utterly disregards the orders of President Roosevelt regarding the conduct of such officials politically. This nameless nincompoop presupposes that M. A. Moody is the Holy Trinity and therefore bows down in abject servitude before his shrine. If the Items will attend to business near at home it will have its hands full and then some. This paper is not making a god of Williamson, but is simply trying to place him before the people of this district as he is, it is also trying to call attention to some of the reasons why he should be supported instead of a man whose personal interests overtop all else. When Newell steps down and out, which will not be long, then the Items will wilt and decay for want of sustenance and a freckle will be removed from the face of nature.

Grant county will try for a High school at the June election the same as this county and Morrow county people are agitating the matter in that county. It is only a matter of time when every county in the state will have its High school and there will not be so much money spent in sending pupils to Normal schools in some distant part of the state.

Brother Shutt, of the Heppner Times, has been nominated for sheriff on the republican ticket in his county. We hope the brother will be successful, as newspaper men need all they can get in this world.

Hon. H. B. Miller, our consul at NinChwang, Manchuria, has been doing some experimental work in the shipment of apples to China. He finds the Ben Davis is the only variety of those tested which stands the trip sufficiently well to enable it to be sold in China at a moderate price. The choicer varieties must find their market among the Europeans and Americans there, but the Ben Davis can go onto the Chinese fruit stands where its attractive appearance commends it to the natives and its quality is sufficiently good to tickle their palates. Mr. Miller sees the possibility of developing a large demand for Ben Davis apples in China.—Oregon Agriculturist.
