Coroner,  
J. L. McCULLOCH, of Prineville.

Take a look at the republican county ticket and say if there is anything wrong with it. Can any county in the state produce a better or more competent person for county clerk than Carey Foster? Follow the remainder of the ticket on down and ask the same question. As for the county Judge his record is what he must make the race on and any candid minded individual will give him credit for all he has done. If the democrats want to throw all the blame on him for any mistake or neighborhood ill feeling occasioned by some order of the court, we are perfectly willing they should do so, but also give him credit for bringing the county out of debt under adverse circumstances.

A copy of a long communication to the county court has been handed us for publication, but is too lengthy, besides it seems to us to be more a matter of neighborhood strife than anything else. Anyway as the matter will come up for hearing before the board of commissioners, and a majority being democratic, it will no doubt receive the consideration it merits. If, at any time, the county officials grossly violate their official pledges we will cheerfully take up the matter and give it all the prominence possible and also aid in having such officials retired from public view, but in the present case we will leave the matter with the county court for the present.

The national debt is now \$997,732,332, this being the first time it has gone below the billion dollar mark in years.

Don't forget that you can save 50 cents on your winter reading by subscribing for the Oregonian with the JOURNAL for \$2.50.

**Why Not The Commissioners?**

In last weeks Review there was a communication, presumable from the Warm Springs, but no doubt written in town, in which the writer takes Judge Wills to task for not granting a terry license to an Indian. As to why the license was refused one need but to refer to the published proceedings of the county commissioners court. The writer fails to take into consideration the fact that there are two democratic members of the court who should be able to outvote the judge even if they cannot out talk him. We think the views of the writer are too narrow and should take in the commissioners as well as the judge. After having done the right thing by the court then get down to facts and if there has been anything wrong give it to the democrats twice to the republicans once and we will be satisfied.

A cartoon in the Sunday Oregonian represents George Chamberlain viewing the democratic platform as it is unveiled by Miss Democracy. His expression is very sad at the thought of having to run for governor of this great state on such a structure as that and no wonder, for it contains but one plank and that is "scuttle."

We believe that investigation will reveal the fact that the worst mistakes are made by democratic officials; why this is so we do not attempt to explain, but suppose it is in the nature of things. We believe there are just as good democrats as republicans, but some how they fail to get to the front.

The Booth-Kelly Lumber Company succeeded in bringing down from the upper Mackenzie river Tuesday to the boom at Coburg a drive of logs of between 5,000,000 and 6,000,000 feet.
