## German Rye on Arid Lands.

R. C. Judson, industrial agent of the O. R. & N. Co., has returned to Portland from Walla Walla, where he has been conducting experiments with grasses for arid lands. He brought with him several specimens of Shangstead and Pitkus rye, grown from seed imported from Germany by the United States agricultural department. These are unusual varieties, and their characteristics are that they grow with little or no rainfall. They have been tested in a small way on the experiment farm near Walla Walla with wonderful results. The stalk grows luxuriantly in the most unfavorable soil in the coldest weather. In the opinion of Colonel Judson and President Mohler, these varieties will solve the problem of regrassing and reforming the arid lands of Eastern Oregon and Washington. The rye will grow on lands now unclaimed, and when it gets to growing over a wide territory will furnish winter fodder for sheep and cattle, and when these herds are driven off, the rye will grow up, head, and can be harvested for a full crop.—Pendleton Tribune.

Yesterday we published an editorial regarding the spread of smallpox in the United States. Well, if every state in the union is as reckless concerning the quarantine laws as Oregon, it is not to be wondered that it is over running the country. So far as we know there is no state quarantine law whatever, and when out of the city limits a patient can do just as he pleases so far as any restrictions being placed on him are concerned. The actions of many of the people in the outlying country about The Dalles are proof of the fact. For instance, we have heard of a postmistress in one of the small towns near here whose child had the disease, and while attendant upon the child she was also handling all the mail that passed through the office. Tuesday Mrs. Sherar, postmistress at the bridge, telephoned to the postmaster here asking his advice. She says that many families out there are afflicted with it who are continually sending letters and papers through the mail. For her own safety and that of others she asks what is to be done. Mr. Patterson suggested that a fumigating process be instituted, and it is likely it will be made compulsory in all districts so afflicted.—Dalles Chronicle.

The Roeburg Plainealer is informed that a gigantic land slide occurred in the vicinity of Hon. G. W. Riddle's mill, a great mass of earth and rock coming down the mountain side filling the ravine or flat below with debris to the depth of 60 feet or more. About 200 feet of his big flume was covered up and considerable work will be re-

quired to reconstruct it and carry it over the great mass of debris. It seems peculiar that such a great slide would occur in that vicinity after the heavy winter rains were over and the earth on the hillsides had become dried and settled. There was little timber on the site of this great slide.

## He Kept His Leg.

Two live years ago J. W. Sullivan, of Hartford, Conn., scratched his leg with a rusty wire. Inflammation and blood poisoning set in. For two years he suffered intensely. Then the best doctors urged amputation, "but," he writes, "I used one bottle of Electric Bitters and 1-1-2 boxes of Bucklen's Arnica Salve and my leg was sound and well as ever." For Eruptions, Eczema, Tetter, Salt Rheum, Sores and all blood disorders Electric Bitters has no rival on earth. Try them. Adamson & Winnek Co. will guarantee satisfaction or refund money. Only 50 cents.

## Pullman Ordinary Sleepers.

The tourist travel between the east and the Pacific coast has reached enormous proportions in the last few years, and calls for a special class of equipment. To meet this demand the Pullman Co. has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleeper, being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow cases, towels, combs, brushes, etc., requiring nothing of the kind to be furnished by the passenger. Each car has a stove for making coffee and tea and doing "light housekeeping," and each section can be fitted with an adjustable table. A uniformed porter accompanies each car, his business being to make up berths, keep the car clean, and look after the comforts and wants of the passengers. In each of the trains which are dispatched daily from Portland by the O. R. & N. Co. is to be found one of these "Pullman Ordinary Sleepers." The car is attached to the "Chicago Portland Special," which goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City without change. Passengers in this car for Chicago change to a similar car at Granger. Much of the first class travel is being carried in these cars, the rates being lower, and the service being nearly equal to that in the palace sleepers.

For rates and full information, including orders, write to A. L. Craig, G. P. A., O. R. & N. Co. Portland, Ore.
