By the provisions of an act of congress approved March 11, 1902, filings and final proofs for land under the Timber and Stone acts may now be made before U. S. Commissioners. Timber claims promise to be very valuable in the near future and as these lands are being rapidly taken by eastern people, parties here who desire land of this description should not fail to take advantage of the opportunity to secure claims before they are all gone. For all information as to prices, terms, and location of timber land, apply to A. C. Palmer, U. S. Commissioner, Prineville, Oregon.
