Mr. Chamberlain insists that the governor's salary should be \$1500 a year, no more and no less; that he should receive no additional salary as member of commissions. Then why should Mr. Chamberlain want to give up his salary of \$4000 a year as district attorney of Multnomah county to accept \$1500 a year as governor. Is the honor worth the difference of \$2500 a year and can Mr. Chamberlain, who persistently insists that he is a poor man, afford to throw away \$2500 a year. Mr. Chamberlain figures that the governor now receives a total of \$6900 a year under present arrangements and it is highly probable that if he did not expect the same remuneration he would not be a candidate for governor. In fact he has not yet resigned as district attorney of Multnomah and perhaps he figures that if elected governor he can hold both offices. At any rate Chamberlain is looking out for George, the thing he condemns in men like Furnish.—Register.

A report comes from Managua, Nicaragua, that leprosy has developed to such an alarming extent among the people of Western Nicaragua, particularly in Leon and Chinendega, as to cause a prominent newspaper of Leon to warn parents against permitting their children to go on the streets of the towns for fear of unknowingly coming into contact with lepers, all of whom are licensed to go where they please and beg. About fifteen years ago it was established that the number of lepers in Nicaragua was 200. At the present time their number in and beyond the secondary stage of the disease is placed at from 1500 to 2000.

**Shudders At His Past.**

"I recall now with horror," says Mail Carrier Burnett Mann, of Levanna, O., "My three years of suffering from kidney trouble. I was hardly ever free from dull aches or acute pains in my back. To stoop or lift nail sacks made me groan. I felt tired, worn out, about ready to give up, when I began to use Electric Bitters, but six bottles completely cured me and made me feel like a new man. They're universal to regulate Stomach, Liver, Kidneys and Bowels. Perfect satisfaction guaranteed by Adameson & Winnek Co., Only 50 cents."

**Remember The Holocaust.**

Silver Lake is an Eastern Oregon town whose people have not celebrated Christmas seven years, according to Z. M. Brown, a Crook County stockman, who has just returned from that part of Lake County.

An expensive monument, standing in the village cemetery, he says, tells how 42 residents of Silver Lake met a horrible death by fire through the upsetting of a coal-oil lamp at a Christmas-tree festival seven years ago. That number of persons taken out of a small community leaves vacancies in the homes that will not be filled in this generation. Silver Lake will not permit a saloon license to be issued since that tragic event, and so it is the one absolutely "dry" town in the state.

A drunken man overturned the lamp Christmas eve, 1895, that resulted in a tragedy which caused a thrill of horror to pass over the entire Northwest and cast the County of Lake into the deepest gloom.—Telegram.

**The Wiser Way.**

Our true policy is to hold fast to the advantages we have secured under our Protective policy and not to fritter them away in unwise and needless concessions to foreign interests, which are ever seeking a larger market in this country, at the expense of our industries and working people. It is far from certain that opening our markets wider for the admission of foreign manufactured products would procure a larger market for some of our products abroad, for no European country is taking from us to-day more of our commodities than it needs, and would never take more than what is actually needed for immediate consumption; and any concession that we make in our Tariff rates to foreign interests will only serve as a precedent for other demands of the same kind. Under all the circumstances we have only to follow the rightful policy of conserving our own interests to continue masters of the industrial and commercial situation within our own borders.—New Orleans "Item."

**Too Many Geese.**

Geo. Shaw informs us that the geese and cranes are about to get away with his meadow and, while he is a law abiding citizen, and would not advise anyone to kill game out of season, he has no trespass notice on his premises. The local nimrods are at liberty to go out and scare(?) them off the meadow as often as they desire. It is not generally known outside of our ranchers that geese are very destructive to a meadow during the spring overflow. They can ruin a meadow in a remarkably short space of time, being even worse than hogs.—Burns Times-Herald.

**Supplies for Alaska.**

Twenty-five carloads of mixed merchandise, summer supplies for the various Government stations along the Alaskan coast, have just left Portland for the Sound, where it will be loaded on vessels for distribution. The shipment is a very valuable one, and includes everything that may be useful in keeping body and soul together. Butter, to the value of about \$5000, was included in the shipment.

**It Saved His Leg.**

P. A. Danforth, of LaGrand, Ga., suffered for six months with a frightful running sore on his leg; but writes that Bucklen's Arnica Salve wholly cured it in five days. For Ulcers, Wounds, Piles, it's the best salve in the world. Cure guaranteed. Only 25c. Sold by Adameson & Winnek Co.

If the Democratic party has any great principle to promulgate what is it? In Jackson County they are playing for the Prohibition vote. In Portland they are trying to work the saloons and the dives, and have formed a collusion with the bolting element of the opposite party. Mankind has some respect for religious or political principles, but those who go forth for plunder, spite or position only, will never gain the confidence of the masses of the people.—Ashland Town Talk.
