The telephone service in this part of the state is anything but what it should be. The rates are excessive and the assessment should be raised in order to get back at the company. One can't look a long distance 'phone in the face without it makes a charge for the look. No concessions are granted the press and taken altogether it is a far worse monopoly than the telegraph. It might be a good way for the city to raise revenue to place license on each phone in town.
