Freighters' Attention.

A great many claims are being taken in the timber lands near Summit prairie and it will only be a short time until all the timber is gone from this county.

The cold wave that we have been enjoying for the past few days has not been confined to this part of the world, but has been almost universal. Tuesday the weather became more like summer and we may now prepare to shed our winter garments.

Monday night the Artisans had a very pleasant meeting. The newly elected officers were installed after which an adjournment was had and ice cream and social converse prevailed. This is one of the best informal and beneficiary orders and has a large membership in this place.

R. W. (Dick) Broese was down from his farm the first of the week and located on a piece of timber land for domestic purposes. He finds it necessary to have a few acres of wood for home use and as the timber is all going very fast, he thought it high time to secure a share of it.

GORMLEY TAILOR.

All the blacksmith shops in town are working over time getting haying machinery in repair for the work that must be done soon. It seems to an unsophisticated individual that it would be a good scheme for the farmers to get their haying machinery rebuilt earlier in the season when there is little work in the shops so there would not be the rush that usually comes about this time of year.

Mrs. W. H. Gulliford and son Sam, and daughter Grace, are in the city visiting relatives and friends. Mrs. Gulliford is the mother of Mrs. G. M. McCord, Mrs. Jim Price and Mrs. Poe Lalonde. Enoch Cyrus was over from his farm in the Squaw creek country and reports the alfalfa growing nicely. It was thought for a long time that alfalfa would not grow over there to do any good, but those who had faith in the country sowed a lot last fall and this spring and their faith is likely to be rewarded with an ample crop. That is the class of settlers we want and will have before long as the country becomes better advertised.

C. L. Shattock and wife left Saturday for McMinnville. It is reported that Charley is enroute for the penitentiary, where he has been sentenced to serve a term at the pumps. The reason for this sentence is that Charley is the only man in the state that can do the work to the satisfaction of the state officials. There will be some needed improvements added to the water system and they will be made to conform to the system now in use in the waterworks at this place. Our old friend Gates has the contract for the improvements.
