THURSDAY, JULY 24, 1902.

A remarkable instance of the spontaneous expression of admiration occurred last week when the President's name was cheered at the Missouri state democratic convention.

The announcement that the President is preparing to secure to legislation, which will permit of federal supervision of the trusts, has robbed the democrats of their last campaign issue.

A Poor Millionaire.

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him.

Through the efforts of the republican party, peace and civil government have been established in Cuba and the Philippines.

She Didn't Wear a Mask.

But her beauty was completely hidden by sores, blotches and pimples till she used Bucklen's Arnica Salve. Then they vanished as will all Eruptions, Fever Sores, Boils, Ulcers, Carbuncles and Felons from its use.

Secretary Moody's determination to force naval officers, who have demonstrated their proficiency in ball rooms, to endure the perils and discomforts of ocean service may seem heartless, but the Secretary's absorption of some of the President's admiration for "men who do things" will not lessen his position in the estimation of the people.

Summer complaint is unusually prevalent among children this season. A well developed case in the writers' family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

In the Metropolis.

A letter to the editor from C. L. Shattuck informs us that he has served his time out in the pen and asylum and is now on a visit to his wife's people.

The convicts who work in the

shops leave their cells at 6:35 in and remain until 11:45, when they line up by twos and are marched to their cells where dinner is served.

Charley did not escape the inevitable experience with fire while in Portland. He said that an alarm of fire caused him to get up rather suddenly and open the door to investigate, when he found the hall full of smoke and people in all kinds of fashionable night clothes.

He sends regards to all friends and says that Portland is no place to find work at present. Plenty of work, but a dozen waiting for your job if they can get it away from you.

Hay Creek Happenings.

Although the weather is very warm, the farmers are very busy making hay in this section.

Mr. J. G. McCoy, of Pine creek, accompanied by his daughter Zella, passed through Hay creek, Saturday, on their way to the Agency, for the benefit of the warm springs at that place.

Mrs. H. M. Lane, of Shawaiko, is visiting at Mr. Parrish's.

The crowd that went to the Indian celebration, claims to have had a very enjoyable time, and judging from their version of it, we do not doubt it in the least.

Misses Florence and Grace Parrish and Rosa Allen, returned a few days ago from a trip to Hood River, where they went after strawberries. They report a very pleasant trip and strawberries plentiful.

Arthur VanHouten has taken a position as clerk in the Hay creek store. All are glad to see his smiling face there.

Hay creek, July 19, 1902.

The Same Old Story.

J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and retold by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entirely satisfactory results."

Keep Out of "Thunder."

A number of our people are becoming enthusiastic over the Thunder mountain craze and contemplating making a trip in. For their benefit we have previously given the opinion of several who have made the trip and we now give that of Joseph Merchant, an uncle of Mrs. J. P. Lucas, of this city, who has just returned to Walla Walla from "Thunder" evidently not very enthusiastic over the richness of the country. He says:

"My advice to a laboring man would be to keep out of Thunder Mountain. I left Walla Walla on May 21, and remained at the mining center about 10 days. There is nothing at the present time to induce one to take much of a stoek into the county although the place may be all right for business in another year. Parties going into the region to remain any length of time, take a large amount of provisions with them. After reaching the big camp if they go into the mountains prospecting they generally dispose of the bulk of their supplies and the small stores at the present time get a great deal of stuff in this manner, cheaper than they could transport it in from the outside.

"The whole country for forty miles around is staked out although at the present time there is little or no development work going on notwithstanding reports to the effect that everyone is busy. A Spokane paper of the 10th contained an interview with a recent arrival from Thunder who claimed there were 4000 men at Thunder and Big creek. I failed to see them. There is little doubt but there are many prospectors scattered throughout the entire region."

Mr. Merchant is of the opinion that some at least will find paying property before they leave. A laboring man, he said after his board was paid cleared about \$2.25 per day. "He can make that much at home in the harvest fields," he continued, "and live in civilization and eat something besides beans and bacon too."

There is plenty of game in the country and Mr. Merchant says that for a hunting trip that region cannot be surpassed. Elk and deer are very plentiful and smaller game in countless numbers inhabit the mountains and grassy plateau. "Outfits can be secured at any of the Idaho towns at little cost." - Dalles Chronicle.

Aspenwood Gleanings.

From the Prospector. Dan Evans left last Thursday evening for Prineville. H. G. Kibler of Hay Creek was in town last Friday.

Wade Huston and wife were in town last Friday, and filed upon valuable timber tracts.

Pete Lehman has his blacksmith shop about complete and is now ready for business.

Mrs. Etta Battenburg, of Prineville, is visiting her mother, Mrs. Breeding, at this place.

Thron Thronson and Perry Maupin are prospecting this week over in the Muddy country.

Jim Robinson and Louis Tomlinson are working on the Gold Hill claim, owned by J. W. Robinson.

Knox Huston was down from the timber to-day, and says he can still locate 150 to 200 men looking for timber.

Mr. J. G. Edwards, of Hay Creek, was here last Sunday, accompanied by Mr. Bates, of the American Sheep-Breeder. Mr. Bates spent several days here, the guest of Mr. T. S. Hamilton.

To All Whom It May Concern. Notice is hereby given that my wife, Laura Zell, has deserted and left me and that I will not recognize nor be responsible for any bills, debts or other obligations which she may contract after this notice.

W. H. ZELL. Prineville, Oregon, July 16th 1902. Jul. 17, 6w.

ADAMSON & WINNEK CO.
