SUBSCRIPTION RATES—

IN ADVANCE

ONE YEAR \$1.50
SIX MONTHS75
THREE MONTHS50

THURSDAY, JULY 31, 1902.

The office chair, easy chair, table and looking glass used by Charles Dickens in the editorial office of "All the Year Round" were recently sold to a collector for \$425.

More irrigation canals have been constructed, and more money for irrigation plans has been expended in the state of Louisiana during the past two years than in any state in the arid region.

A Poor Millionaire.

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, promote assimilation, improve appetite. Price 25c. Money back if not satisfied. Sold by Adamsou & Winnek Co.

The statesmen of this country hope that Senator Spooner will find nothing in the Wisconsin platform to which he cannot assent, for it is realized that his retirement from the Senate would mean a loss to the nation.

While the democrats, in Congress and out, are caviling at the Ship Subsidy bill, the Candidates are offering large premiums for the establishment of a trans-Pacific steamship line with which they hope to secure control of the trade of the Orient.

The management and control of the Portland Evening Journal has passed into the hands of C. S. Jackson, editor and publisher of the East Oregonian. John E. Lathrop, is the editor of the Journal and will continue to hold that position which he has been filling ably since June 1st.

She Didn't Wear a Mask.

But her beauty was completely hidden by sores, blotches and pimples till she used Bucklen's Arnica Salve. Then they vanished as will all Eruptions, Fever Sores, Boils, Ulcers, Carbuncles and Felons from its use. Infallible for Cuts, Corns, Burns, Scalds and Piles. Cure guaranteed. 25c. at Adamsou & Winnek Co.

Senator Platt, in a recent interview, revealed the secret of his political success. Speaking for the benefit of young politicians he said, "Never give anyone the right to say that you have broken your word to him. Be careful about making a promise, but when you have once passed your word stick to it though it may be to your own detriment."

Summer complaint is unusually prevalent among children this season. A well developed case in the writers family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept at the home of ye scribe. This is not intended as a free puff for the company, who do not advertise with us, but for the benefit of little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house especially in summer time.—Lansing, Iowa, Journal. For sale by all druggists.

Washington is now more densely populated than Oregon, having 7.7 people to Oregon's 4.4 to the square mile. It is sometimes said that advertising a state increases the city faster than the rural population. The comparative figures for Washington and Oregon show that Washington's rural population is 3.7 to the square mile, Oregon's 2.4.

President Roosevelt stated, before he departed for Oyster Bay, that he desired a complete rest and hoped to get it in his summer home. While he is "resting" he is receiving the more prominent men in political life, rendering the more important decisions in executive matters and preparing a large number of speeches to be delivered on his fall trip—a fair summer's work for the ordinary man.

When Mr. Shaw became Secretary of the treasury there was an employe on the rolls whose duties were so varied and multitudinous that he was regarded as indispensable, notwithstanding the fact that he went on frequent sprees. One day, Mr. Shaw inquired what would be done if "Mike" were dead and the reply was that they "supposed they would have to get along." "Then consider him dead so far as this department is concerned," said the Secretary.

The Same Old Story.

J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and retold by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. For sale by all druggists.

Tongue for Senator.

The proposition to elect Congressman Tongue as U. S. Senator is meeting with growing favor. There is no question but that he would make an ideal candidate. His popularity among the people is evidence by the phenomenal vote he received at last election. He is equally popular among the politicians. No important part of the party would be made sore by his election. It would be a happy healing of many antagonisms that are now existing. The only possible objection will be the one mentioned last week, viz: that Governor Chamberlain would appoint a democrat in his place. But that may not be a very serious objection. From appearance the republican majority in the next house of representatives will be as large as in the present.—Forest Grove Times.

The U. S. Civil Service Commission will hold examinations, during September and October, in several places in each state to secure young men and women for the government service. There are now 126,423 positions in the classified civil services, being an increase of 46,736 in six years. There were 7,972 persons appointed between July 1, 1901, and April 15, 1902, being at the rate of 10,070 for the year. There will probably be 11,000 appointments next year. Salaries

at appointment vary from \$680 to \$1,200 a year with liberal promotions afterward. All appointments are for life and for most positions only a common school education is required. Politics or religion is not considered. Those desiring to take examinations of this kind can get full information about them free by writing to the Columbian Correspondence College, Washington, D. C., and asking for its Civil Service Catalogue for 1902.

It Dazzles the World.

No Discovery in medicine has ever created one quarter of the excitement that has been caused by Dr. King's New Discovery for Consumption. Its severest tests have been on hopeless victims of Consumption, Pneumonia, Hemorrhage, Pleurisy and Bronchitis, thousands of whom it has restored to perfect health. For Coughs, Colds, Asthma, Croup, Hay Fever, Hoarseness and Whooping Cough—it is the quickest, surest cure in the world. It is sold by Adamsou & Winnek Co., who guarantee satisfaction or refund money. Large bottles 50c. and \$1.00 Trial bottles free.

There has been some discussion as to whether the state would appropriate sufficient funds to reimburse the different counties for the amount due on scalp warrants issued under the law passed by the last legislature. There is little doubt that an appropriation sufficient to cover the deficiency will be made even if the law is repealed, as there are enough hold over members to cause such a measure to pass. The state could not well repudiate its obligations, even if there seems to be only a moral obligation pay. The father of the bill will be here to look after his offspring and we may be sure that he will not let the matter go by default. If the people of the state wish the law repealed, they should make their wants known. Speak up gentlemen or forever after hold your peace.

At Kalama, Wash, the Darnel Mining and Milling Company is excavating the ground for the buildings for its 50-ton cyanide plant. The building will be 38x82 feet, built in steps so that no shoving of the ore will be required. The plant will consist of a 40-horse-power engine and boiler, a mammoth rockcrusher and an ore mill, besides four cyanide tanks and a dynamo for electric lights above and below the ground.

The mining output for the Bohemia district has been approximated as follows: 1892, \$11,000; 1894, \$23,000; 1895, \$24,500; 1896, \$27,000; 1897, \$45,900; 1898, \$50,000; 1899, \$75,000; 1900, \$12,000; 1902, \$200,000; total, \$576,400. Most of this ore was treated by stamp mills and concentrating tables. The activity in the district has increased from year to year and some very rich strikes have been made during the last 12 months. Conservative estimates place the value in the mines awaiting the transportation facilities at over \$5,000,000.

The Best Liniment for strains.

Mr. F. H. Wells the merchant at Deer Park, Long Island, N. Y., says: "I always recommend Chamberlain's Pain Balm as the best liniment for strains. I used it last winter for a severe lameness in the side resulting from a strain, and was greatly pleased with the quick relief and cure it effected." For sale by all druggists.

ADAMSON & WINNEK CO.

Incorporated 1899.

Drugs, Stationery and House Furnishing Goods
