A case of spontaneous combustion where a haystack caught fire is one of the latest Crook county phenomena. Over at the ranch of the B. S. & L. Co., a few days ago one of their hay stacks was seen to blaze up. On investigation it was found to be a plain case of spontaneous combustion. A number of the hands about the place had noticed a smell of burning hay, but could not locate it until the fire occurred. The B. S. & L. Co shipped this week to Boise, Idaho, 523 head of fine bucks, some of which are \$100 bucks. It is a sight for sore eyes, or more properly speaking for sheep men, to see the hands of thoroughbreds on this company's ranch. Many of their finest sheep are from the prize winners of France and from the eastern states. Ye editor had the pleasure of looking over a bunch of the finest ewes on the ranch and from the limited knowledge he has of such animals he thinks that he would like to be the owner of a few head of them. The gentlemen composing this company have shown unlimited enterprise in their efforts to improve the breed of sheep in this county and deserve great credit for the results secured.
