Rich in Minerals.

C. W. Butherford came down from Spanish Gulch yesterday and is stopping at the St. Charles, says the Portland Journal. He brought with him several specimens of ore which are expected to show high values. Some new discoveries have been made in that district of late and prospectors and miners are anticipating big results in the future.

There have been some recent new finds in Crook and Wasco counties which run high in gold and silver. J. H. Fish, the assayer, in speaking of the new find this morning said:

"The ore which I have recently tested from that district has been of a grade similar to that in the famous Cripple Creek district in Colorado, but of a higher grade. If the district proves what is claimed for it, and the samples tested by me have been fair samples, there is certainly a great future for that region."

NOT A RELIEF BUT A CURE

RELIEF VS. CURE.

An internal remedy removes the cause of piles. Ointments and suppositories only relieve. An internal remedy is the only common-sense one with which to treat this disease. Booklet—at your druggists.

PERRIN'S PILE SPECIFIC

We generally make times lively wherever we go and our trip to Ione was no exception. While there the dry goods and hardware business took an upward tendency—we bought a pair of checkered breeches and a monkey wrench—no josh.

This signature is on every box of the genuine Laxative Bromo-Quinine Tablets.

Additional Locals.

M. E. Brink and family returned Tuesday from a pleasant outing on Deschutes.

R. H. Caldwell and J. F. Bogue were business visitors from the Upper Deschutes country Tuesday.

O. G. Colyer was over from Culver Tuesday, looking after business matters.

T. E. Cornelius, of Salem, was in the city the fore part of the week looking after business matters.

Dr. and Mrs. C. A. Cline returned Monday from an extended trip in the Willamette valley. They visited in Eugene, Corvallis and Albany, and report having a very pleasant and enjoyable time.

W. H. Windom, W. Peck, G. Springer and Frank Hoffman, of Culver, have gone up on Grizzly to improve their timber claims. Mrs. Peck will act as cook for the party, as she has a claim in the lot.

J. W. Henderson returned Tuesday from a trip to the Willamette valley. While away he visited his old home in Eugene and took in the state fair and saw the sights in Portland.

The sound of saw and hammer is continuous in the city this fall, and the buzz of Shipp's planer can be heard into the "wee sma" hours of the night. This indicates prosperity of the right kind.

John Templeton and Ralph Poin-dexter will both start for Portland Friday. They will go to Shaniko on their wheels. During their absence J. F. Spinning will be chief cook and bottle washer as well as head druggist at Templeton's drug store.

Miss Lilly Read, one of the best known school teachers of the county, returned last week from an extended visit with relatives in Linn and Benton counties. She reports having had a pleasant visit. This office acknowledges a pleasant call.

Mr. C. Montgomery, of Willow Creek, has the thanks of the JOURNAL editor for a box of fine pears that were received this week. They are as highly colored and as fine flavored as any from the more favored portions of the county, and shows that good fruit can be produced in any part of this county, for Willow Creek is said to be the worst place for frost in the county.

Joe Quinn was in from his ranch in the Lamonta district last week and informed our reporter that he had purchased 2,100 head of sheep and would run them in the vicinity of his ranch during the winter and leave in the spring for Idaho. Joe is an experienced hand with sheep, and we confidently expect to hear of his making a ten strike in that line if he finds good pasturage in Idaho.

Jack Summers has some fine apples that he expects to exhibit at the coming county fair. They are beauties, and of the finest flavor imaginable. Crook county will show up some fine fruit at the fair if everybody brings in the best they have. It will astonish the natives to see what has been produced under their windows, as it were, and they have paid no attention to such things.

Rev. J. H. Grant came up from his farm one day last week and had the misfortune to have a runaway that badly damaged one of his wagons. The team started from near Smith's harness shop and ran up the street to the bank corner, where the wagon struck a telephone pole and became a wreck, while the team ran on and took in the greater part of the west end of town, where they were caught and brought back with one of the horses having broken its leg just above the foot.

Isom Cleek returned Tuesday from an extended trip through the Eastern states, where he went with a band of horses. He reports having had good luck in disposing of them. The weather back there has been pretty wet, it having rained nearly all the time for the two months that he was away. Isom had about four bits worth of whiskers left over from the expense fund.

Teachers' Annual Institute.

The Annual Institute for Teachers met in the public school building at Prineville on Monday, October 6th, with an attendance of twenty-nine. Supt. Robinson, of Multnomah county was the only instructor present whose name appeared on the program. Mr. Robinson is an enthusiastic worker, and the teachers of Crook county consider themselves extremely fortunate in being able to secure such an instructor.

One interesting feature of the Institute was the presentation of primary reading by Mrs. May Wigle.

On Monday evening the teachers were entertained at the home of Dr. and Mrs. Belknap, and Tuesday evening attended a lecture given at the M. E. Church by Supt. Robinson.

The Institute was a success, and Supt. Boegli is to be complimented.

The teachers present were: Miss Ada Taylor, Miss Ada Foster, Miss Ora Andrews, Miss Neva Kizer, C. B. Dinwiddie, A. O. Mosier, B. F. Wilholt, Ronda Claypool, Jessie Andrews, Ida Smith, Carrie Smith, Mrs. May Wigle, Eunice Horney, Katie Storts, Alma Throop, Pearl Vanderpool, J. E. Calavan, Warren Brown, Arle C. YOU OWE HER THIS
And We Can Help You Pay the Debt.
Think it Over.

Don't neglect your duty. That little seven year old tot needs a piano. If she is eight years old she needs it worse, and if she is nine years old she needs it badly. You can never place two, three, or even four hundred dollars to better advantage for her in this world than to give her a piano at the age of seven. The little daughter through accomplishments must win her way, the boy can lose his. "Procrastination is the thief of time". Don't keep putting it off from day to day, next month, next fall, next Xmas, but get a piano now.

During the fair from the 15th to the 21st of October we will have a nice lot of sample pianos open for inspection at Winnick's furniture store in Prineville. Among them will be some of the now famous Kimball piano, used and endorsed by the leading musicians, colleges and conservatories of music. Our Mr. Wallace, traveling representative for the firm, will be on hand to give prices and terms that will suit the customer.

We have the following makes of pianos for sale: Chickering, Kimball, Weber, Decker, Herbert M. Cahle, Vose, Wheelock, Schumann, Victor, Crown, etc. Now is the time to buy a piano and buy it right. Our prices during this seven days sale, will be the same as we ask you in Portland as we are only here for a few days. Our motto is quick sales and small profits.

If you have an old organ or piano we will take it in exchange for a new piano and not charge you one more dollar for the new piano than we charge in the city. Don't forget to come into Winnick's store and hear the Angelus piano player, an instrument which enables any one old or young, to play the best of music without taking a lesson. Remember the sale starts Oct. 15 and closes Oct. 21. Music every evening. Every one welcome.
