THURSDAY, OCTOBER 16, 1902.

This office is now prepared to print anything from a lady's visiting card to a barn door poster. We have added a large assortment of wood type to our plant and other type, and are receiving a lot of new type almost every week.

During the fair call and take a look at our new press. We will be glad to show you around, whether you are a subscriber or not. Especially do we want all of our old friends to call on us at any time, if not during the fair.

The Echo, published at Bend, Crook county, this state, says in a head line: "Bend's future a Slumber Camp." One would naturally think that the title of a story about a town that was going to sleep but it isn't. It is a boom story of a prospective lumber manufacturing center. The and s became separated and changed the whole proposition.—Sumpter Miner.

Henry L. Shattuck, of Shellsburg Iowa, was cured of a stomach trouble with which he had been afflicted for years, by four boxes of Chamberlain's Stomach and Liver Tablets. He had previously tried many other remedies and a number of physicians without relief. For sale by all druggists.

Offer Extraordinary.

Beginning October 15th and continuing until the close of business on the 30th day of November, we will furnish the JOURNAL to new subscribers for the sum of ONE DOLLAR. With the first of November, or sooner if our paper and machinery get here, we will enlarge the paper to a six column eight page, instead of as at present, a five column eight page paper.

Think of it! The largest paper published in interior Oregon outside of Baker City and Pendleton, for ONE DOLLAR.

All of our old subscribers who pay up all arrearages and pay one year in advance, will receive the benefit of this offer the same as new subscribers.

This is a SPECIAL OFFER, and will last only a short time, so avail yourself of the opportunity before it passes.

Last fall the JOURNAL inaugurated a voting contest which cost the paper more than fifty cents each on all the new subscribers added to the list, and so we have concluded that it will be better to give each one who subscribes that amount and not have any voting contest. During the life of this offer we will furnish the JOURNAL and Oregonian for \$2.00. ONLY TWO DOLLARS for your winter's reading matter. We wish to enlarge our list by not less than 250 names, and to do this will require a lot of hustling; but we will get them just as we have already added the large number to our constantly growing list, almost, if not quite, doubling it in the last fifteen months.

When the present editor of the JOURNAL took charge of the paper, he made a few promises which he has tried to fulfill. Among them was an all home print paper and the addition of a cylinder press. These have been consummated by the installation of one of the finest cylinder presses in eastern Oregon.

When in town don't fail to call and take a look at it.

JOHNSON CREEK SCHOOL.

Oct. 11th, 1902.

School has been going on for six weeks with very good attendance.

Total number enrolled 18; girls enrolled 12; boys enrolled 6; No. dropped out 1; No. remaining 17.

The pupils have taken considerable pains to decorate the school room and the result is better than could have been expected with means at hand.

We have no trouble to find something to do during the noon hour as there are six horses to be taken a quarter of a mile to water and the water must be drawn from the well with rope and bucket at that.—Well we don't have much time to play, that's a fact but we get the necessary exercise just the same.

The pupils have from 1 1/2 to 4 1/2 miles to come to school making regularity in punctuality almost impossible.

Timber Men Go East.

A party of thirteen timber men from Duluth, Minn., who have been taking claims in the upper Deschutes country, left Portland for the East yesterday. Timber claims have been in demand this summer in the Deschutes country, many women having taken claims there. Government inspectors have been active in this section this summer, and there are apt to be some contests made as to the lawfulness of the claims. The party who left Portland yesterday are supposed to have some big company backing them, as they worked together.—Portland Journal.

A Peck of Trouble.

The editor is slightly disabled. Several of his fingers have the appearance of having come in contact with a hammer while one thumb shows evidence of having seen a saw. There's a thousand and one fir splinters in his hands. This is all due to the prosperity that is striking every body but the editor, just now. The fact is we had a wood shed to build and carpenters were all at work where they receive good pay and didn't care to quit such a job and work for an editor on "jaw bone" and as that is about all an editor has to pay with these prosperous times. We didn't get a carpenter. Confound these times any way, everybody is too busy to read a newspaper and hence the editor suffers. And—well we said in the beginning that the editor was slightly disabled and if these "strenuous times" don't soon let up and give people time to read he will be disabled financially as well as physically.—Lebanon Criterion.

NOT A RELIEF BUT A CURE

RELIEF VS. CURE.

An internal remedy removes the cause of piles. Ointments and suppositories only relieve.

An internal remedy is the only common-sense one with which to treat this disease.

PERRIN'S PILE SPECIFIC

Walla Walla Dripping Back to the Old Regime.

WALLA WALLA, Oct. 3.—After remaining closed on Sunday for months Walla Walla now seems well on the way to the old days when booze and business ceased not at all during the seven days of the week. A return to the old regime seems imminent, and unless some action be taken shortly the return will be made so quietly that many people in the city will be unconscious of it.

Last Sunday the fruit fair remained open and did a rushing business. Within the fair pavilion a number of stands and money-making schemes operated all day without disturbance. This led a number of saloon men to take advantage of the situation and quietly open their places so that the thirsty could be supplied with whiskey up town as well as with ice.

A Shocking Calamity.

"Lately befell a railroad laborer," writes Dr. A. Kellert, of Willford Ark. His foot was badly crushed, but Bucklen's Arnica Salve quickly cured him. It's simply wonderful for Burns, Boils, Piles and all skin eruptions. It's the world's champion healer. Cure guaranteed. 25c. Sold by Adamson Winnek & Co.

The demand for eggs is so great in Baker City that several carloads of Eastern eggs have to be shipped into the city every year.

STOLEN OR STRAYED.

Mrs. Fred Unrath,
President Country Club, Boston Harbor, Mich.

"After my first baby was born I did not seem to regain my strength although the doctor gave me a tonic which he considered very superior, but instead of getting better I grew weaker every day. My husband insisted that I take Wine of Cardui for a week and see what it would do for me. I did take the medicine and was very grateful to find my strength and health slowly returning. In two weeks I was out of bed and in a month I was able to take up my usual duties. I am very enthusiastic in its praise."

Wine of Cardui reinforces the organs of generation for the ordeal of pregnancy and childbirth. It prevents miscarriage. No woman who takes Wine of Cardui need fear the coming of her child. If Mrs. Unrath had taken Wine of Cardui before her baby came she would not have been weakened as she was. Her rapid recovery shows commend this great remedy to every expectant mother. Wine of Cardui regulates the menstrual flow.
