Friday was an exciting day for at least one man at the races. He bought first choice in one pool and then for fear he would lose bought the field. That was a safe proposition and a winning one—for the pool seller.

When it comes to apples we will wager our old hat that Ferd. McCallister showed some that would take the premium anywhere in the world, color, size and flavor considered. Newsom Creek is ahead on onions.

We are informed that Bishop Wells and Rev. A. E. Lake, of the Episcopal church, will hold a series of meetings here, beginning November 2nd. Everybody cordially invited to attend these meetings.

W. C. Congelton was down from his stock ranch on Beaver creek to take in the fair, and the way he was doing the truck act at Wurzweller & Thomson's, would have put to shame a veteran longshoreman. "Billy's" trip to Kentucky was a great help to him.

Jack Kelsay, prince of the Little and Big Chewaucan, arrived here Tuesday evening on a business trip. He will in a few days start 350 head of the Innes-Kelsay prime beef steers for Gazette where they will be fed until some buyer wants 'em right bad. These cattle are among the best grades in Oregon.—Lakeview Examiner.

A. D. Smith, head machinist of the A. T. F. Co., of Portland, left for home on Friday's stage. He has been here the past week getting the Journal's new press in position and starting it up. This press is the equal of any country press in the state, and is far ahead of anything usually found in towns of the size of Prineville.

While in conversation with Dr. W. W. Taggart at the Polindexter Hotel, he expressed himself as being much surprised at the fine showing of fruits, vegetables and livestock at the fair. He said that in all the country fairs that he had ever attended he had never seen a better quality of the above mentioned articles displayed before. "Why," he says, "it is just astonishing to see the fruit that is on exhibition." The doctor has been taking notes and measuring the different displays with the intention of writing an article and having it published in eastern papers. The doctor thinks that Crook county is alright, he wants other eastern people to know what there is here.

ENLARGING

Prineville, Oregon.

The miners of the Howard district have held an informal meeting last week to organize a district, but owing to some technicality of the state law they did not perfect the organization at that time, but will meet again on November 5, when it is expected that a permanent organization will be effected. They should have a district and we hope that they will be able to get one.

J. W. Cusick, formerly a stockman of this county, came up from Albany this week on business. He expressed himself as well pleased at the growth that the town had made in recent years, and also said that our exhibit of fruit and vegetables was good enough for any country. Mr. Cusick returned home on the noon stage Friday. He is the head of the banking house of J. W. Cusick & Co., of Albany. When asked as to when we might expect him to visit our country again, he said as soon as we get a railroad here. He is one among the large number of Albany people who hope for the early completion of the Corvallis & Eastern to the east side of the Cascades. This would mean much for both Albany and Prineville, and would add more to the taxable property of this county than any one thing that could happen. There would be a large influx of Western Oregon people and capital at once, should that road begin operations on an eastern extension.

Our 1902 stock of Oliver Gang, Sulky and Walking Plows is far the most complete we have ever carried. These plows have no equal as a breaking plow and will plow ordinary sage brush without grubbing.

The new Oliver Sulky's have a great improvement over last years in the shape of a hand lever giving the operator full control to regulate the width of cut on turns and curves. The Oliver is one made to do the work and will do the work they are made for. Call and inspect them.

Our stock of repairs is exceptionally complete, not only the iron posts but wood as well.

We can save you time and money and patience.
