He showed the reporter a communication that he wrote for the Journal some two years ago regarding the development of this county that has been fulfilled to the letter.

Charles Barnard, of The Dalles, was a pleasant caller at this office Tuesday morning. Mr. Barnard has considerable real estate and stock interests in the Paulina section of the county and has been up there getting a band of sheep, which he is taking home with him to feed for the winter. While here he showed his appreciation for the old reliable JOURNAL by renewing his subscription.

There seems to be a tendency on the part of some of the rural inhabitants to make a feed yard of Main street when they come to town. It is a pretty hard job to keep the streets looking half way decent at best without allowing such liberties. There is ample room on the back streets for such purposes, and the marshal should look to the matter of keeping parties from using the business streets for feeding purposes.

County Commissioner Powell went over to the Bridge creek country last week and found one of his friends had lost several stacks of hay by incendiaryism. Turning his horses into his friends pasture in the evening, he saw nothing more of them, as there was a place in the fence where they got out. He thought that the fire bug had stolen the horses, so bought another team and came home. Monday night the horses arrived at the ranch and proceeded to make themselves at home, and in the morning Mr. Powell was overjoyed at seeing them safely back again. They are a valuable team and would have been quite a loss to Mr. Powell, as they are his favorite carriage horses.
